Apartment Complex 1.7. In cell I4 insert a financial function to calculate the present value of the total monthly rent you will collect for the 8 units for 30 years. Use the number of periods and monthly rate in the Summary Calculations section and the cell references in the What If section. The result should be a positive value.

Real Estate Investment Analysis Spreadsheet

"Private money can be a great short-term alternative for purchasing apartment buildings. For example, if an apartment building is distressed, has high vacancy, or has significant deferred maintenance, then a traditional lender may be unwilling to make the loan, so investors turn to private lenders to get a loan in as little as seven to ten days.
