Help students use their voices to build an equitable and just society. Years of political violence and protests against injustice have revived interest in teaching civics in schools. The problem? Civic education—as it currently exists—privileges systems, not students. It promotes incremental change within a broken democracy rather than responding to the youth-led movements that call for the abolition of inequitable social structures. What will it take to prepare young people for the just future they are fighting for? Civics for the World to Come offers educators a framework for designing the critical civic education that our students deserve. Synthesizing perspectives on democratic life from critical race theory, ethnic studies, Afrofuturism, and critical literacy, the book presents key practices for cultivating youth civic agency grounded in equity and justice. The authors explore five world-building civic skills (Inquiry, Storytelling, Imagination, Networking, and Advocacy) and introduce readers to real learning communities where students and educators are transforming themselves and society.

Freighted with meaning, "el barrio" is both place and metaphor for Latino populations in the United States. Though it has symbolized both marginalization and robust and empowered communities, the construct of el barrio has often reproduced static understandings of Latino life; they fail to

account for recent demographic shifts in urban centers such as New York, Chicago, Miami, and Los Angeles, and in areas outside of these historic communities. Beyond El Barrio features new scholarship that critically interrogates how Latinos are portrayed in media, public policy and popular culture, as well as the material conditions in which different Latina/o groups build meaningful communities both within and across national affiliations. Drawing from history, media studies, cultural studies, and anthropology, the contributors illustrate how despite the hypervisibility of Latinos and Latin American immigrants in recent political debates and popular culture, the daily lives of America's new "majority minority" remain largely invisible and mischaracterized. Taken together, these essays provide analyses that not only defy stubborn stereotypes, but also present novel narratives of Latina/o communities that do not fit within recognizable categories. In this way, this book helps us to move "beyond el barrio": beyond stereotype and stigmatizing tropes, as well as nostalgic and uncritical portraits of complex and heterogeneous range of Latina/o lives.

Ann Charters has an acute sense of which stories work most effectively in the classroom and knows that writers, not editors, have the most interesting and useful things to say about the making and the meaning of fiction. For those who want a smaller, less expensive anthology, the compact edition of *The Story and Its Writer* is the most comprehensive, diverse — the best-selling — introduction to fiction available notable for its student appeal as well as its quality and range. To complement the stories, Charters includes her lasting innovation: an array of the writers' own commentaries on the craft and traditions of fiction. For in-depth, illustrated studies of particular writers, her Casebooks provide unparalleled opportunities for discussion and writing. For a shorter, more affordable option, the compact edition offers all the editorial features of the full edition with about half the stories and commentaries.

How to understand a media environment in crisis, and how to make things better by approaching information ecologically. Our media environment is in crisis. Polarization is rampant. Polluted information floods social media. Even our best efforts to help clean up can backfire, sending toxins roaring across the landscape. In *You Are Here*, Whitney Phillips and Ryan Milner offer strategies for navigating increasingly treacherous information flows. Using ecological metaphors, they emphasize how our individual me is entwined within a much larger we, and how everyone fits within an ever-shifting network map.

This timely book provides effective methods and authentic examples of teaching about climate change through digital and multimodal media production in the English Language Arts classroom. The chapters in this edited volume demonstrate the benefits of addressing climate change in the classroom through innovative media production and cover a range of different types of media, including video/digital storytelling, social media, art, music, and writing, with rich resources for instruction in every chapter. Through the engaging ideas and strategies, the contributors equip educators with the critical tools for supporting students' media production. In so doing, they offer new perspectives on how students can employ media and production techniques to critique the status quo, call for change, and acquire new literacy skills. As the effects of the climate crisis become increasingly visible to the youth population, this book helps foster and support youth agency and activism. *Youth Media Creation on the Climate Change Crisis: Hear Our Voices* is a necessary text for students, preservice teachers, and educators in literacy education, media studies, social and environmental studies, and STEM education. The eBook+ version of the text features embedded audio and video components as well as interactive links to reflect the multimodal nature of students' work, spotlighting how youth media production supports the development of students' critical literacy skills and shapes their voices and identities.

"Media Effects offers students an in-depth examination of the media's constant influence on individuals and society. W. James Potter frames media's effects in two templates: influence on individuals and influence on larger social structures and institutions. By positioning the different types of effects in the forefront, Potter helps students understand the full range of media effects, how they manifest themselves, and the factors that that are likely to bring these effects into being. Throughout the book, Potter encourages students to analyze their own experiences by searching for evidence of these effects in their own lives, making the content meaningful on a personal level." -- Provided by publisher.

**Civics for the World to Come: Committing to Democracy in Every Classroom (Equity and Social Justice in Education)** Corwin Press

The study of various types of programming is essential for critical analysis of the media and also offers revealing perspectives on society's cultural values, preoccupations, behavior, and myths. This handbook provides a systematic, in-depth approach to the study of media genres - including reality programs, game shows, situation comedies, soap operas, film noir, news programs, and more. The author addresses such questions as: Have there been shifts in the formula of particular genres over time? What do these shifts reveal about changes in culture? How and why do new genres - such as reality TV shows - appear? Are there differences in genres from one country to another? Combining theoretical approaches with concrete examples, the book reinforces one's understanding of the importance of genre to the creation, evolution, and consumption of media content. Each chapter in this reader-friendly book contains a detailed discussion of one of the theoretical approaches to genre studies, followed by Lines of Inquiry, which summarizes the major points of the discussion and suggests directions for analysis and further study. Each chapter also includes an example that illustrates how the particular theoretical approach can be applied in the analysis of genre. The author's careful linkage of different genres to the real world makes the book widely useful for those interested in genre study as well as media and culture, television studies, film studies, and media literacy.
