We are a Meritocratic Technarchy. We are the future of the human race.' The world's nations have collapsed, and a handful of city states form the remains of civilization. Erstwhile Bangalore is now rebranded, ruled by the insidious Bell Corporation. Welcome to Apex City. Here, technology is the key to survival, productivity is power, and the self must be engineered for the only noble goal in life: success. With the right image, values and opinions, you can ascend to the ranks of the Virtual elite and have the new world at your feet. The price of failure is deportation: you are marked an Analog, with no access to electricity, running water or your humanity. Lavanya Lakshminarayan's extraordinary debut sinks its teeth into this dystopian future, offering a glimpse into a world we may be dangerously close to inheriting. Brilliant, searing and imaginative, the stories in Analog/Virtual will make us question our choices and rethink who we want to be.

It's early morning in the Amazon rain forest. A large monkey is climbing through the branches of a tall tree. Suddenly, there's a flash of white and black feathers. An enormous harpy eagle swoops between the leafy branches and snatches the monkey from the tree. Then the giant predator carries its prey high into the treetops and begins to eat. Filled with information perfectly suited to the abilities and interests of its primary-grade audience, this colorful, fact-filled book gives readers a chance not only to learn all about harpy eagles and their Amazon rain forest home, but also to develop their powers of observation and critical thinking. Built-in activities, such as figuring out how the bird's body is adapted for hunting, and investigating how much weight the eagle can carry in its talons, give readers a chance to gain insights beyond the facts and figures.

Pro Oracle Application Express 4 is your key to mastering one of the most innovative products to come out of Oracle in years. Application Express, termed "APEX" for short, is fast becoming one of the easiest and most widely-used of tools for creating enterprise-level applications that run against an Oracle database. APEX is easy enough for power users to create ad-hoc applications atop something more reliable than a spreadsheet. Yet APEX is powerful and extensible enough to enable fully-scalable, enterprise-level applications that are accessed by thousands of users. Authors Tim Fox, John Scott, and Scott Spendolini take you to the professional level in

developing for Application Express. They show how to handle user authentication in enterprise environments and how to extend APEX by writing components based upon Oracle's new plug-in architecture. You'll learn to deal with localization issues such as time zones and translations, and to customize the look and feel of an APEX website to blend in with your corporate branding strategy. The authors also cover web service development, performance and scalability, and the production issues that you encounter in enterprise-level deployments. Many years of experience in solving the "hard problems" are coalesced in this book to help you, the reader, take advantage of all that APEX has to offer.

Focuses on high-end, enterprise-level development Covers new features such as plug-ins and Websheets Introduces the new interface released with APEX 4.0
