Kaplan SAT II Kaplan Publishing

This book considers national parliaments' and the European Parliament's role in European Union (EU) economic governance. It examines the recent strengthening of parliamentary involvement, limitations to improvements, and where and how democratic deficits still exist. It also provides the basis for some reflections concerning possible future evolutions and improvements to EU economic governance. The EU's economic governance framework has been significantly strengthened as a response to the 2008 economic and financial crisis, and the establishment of a new Banking Union in 2013. It is thus key to determine whether these additional transfers of powers to the EU level have been accompanied by an equivalent empowerment of the national and European legislatures, allowing them to ensure adequate democratic legitimation. The chapters comprehensively re-examine the democratic (throughput) legitimacy of, and within, the EU's economic governance by focusing on national parliaments, on the European Parliament, and on mechanisms for interparliamentary cooperation. This book was originally published as a special issue of the Journal of European Integration.

The tremendous growth in use of information technology (IT) has led to an increased interest in understanding its social and economic impacts. This book presents examples of crosscutting research that has been conducted to understand the impact of information technology on personal, community, and business activities. It explores ways in which the use of methodology from economics and social sciences contributes to important advances in understanding these impacts. The book discusses significant research issues and concerns and suggests approaches for fostering increased interdisciplinary research on the impacts of information technology and making the results of this research more accessible to the public and policymakers. This volume is expected to influence funding priorities and levels of support for interdisciplinary research of this kind.
