The Chrysanthemums Evan Moor Educational Publishers Leave time for wonder. Walt Whitman's "When I Heard the Learn'd Astronomer" is an enduring celebration of the imagination. Here, Whitman's wise words are beautifully recast by New York Times #1 best-selling illustrator Loren Long to tell the story of a boy's fascination with the heavens. Toy rocket in hand, the boy finds himself in a crowded, stuffy lecture hall. At first he is amazed by the charts and the figures. But when he finds himself overwhelmed by the pontifications of an academic, he retreats to the great outdoors and does something as universal as the stars themselves... he dreams.

Gregor Samsa, a traveling salesman, wakes up in his bed to find himself transformed into a large insect. He looks around his room, which appears normal, and decides to go back to sleep to forget about what has happened. He attempts to roll over, only to discover that he cannot due to his new body—he is stuck on his hard, convex back. He tries to scratch an itch on his stomach, but when he touches himself with one of his many new legs, he is disgusted. He reflects on how dreary life as a traveling salesman is and how he would quit if his parents and sister did not depend so much on his income. He turns to the clock and sees that he has overslept and missed his train to work.

The 1934 State of the Union Address was given by the 32nd president of the United States, Franklin D. Roosevelt. It was the first State of the Union address to be given in January. Excerpt: "Now that we are definitely in the process of recovery, lines have been rightly drawn between those to whom this recovery means a return to old methods—and the number of these people is small—and those for whom recovery means a reform of many old methods, a permanent readjustment of many of our ways of thinking and therefore of many of our social and economic arrangements... The Pluto Files: The Rise and Fall of America's Favorite Planet W. W. Norton & Company

**Alone** Lanahan Pub Incorporated

The New York Times bestseller: "You gotta read this. It is the most exciting book about Pluto you will ever read in your life." —Jon Stewart

When the Rose Center for Earth and Space at the American Museum of Natural History reclassified Pluto as an icy comet, the New York Times proclaimed on page one, "Pluto Not a Planet? Only in New York." Immediately, the public, professionals, and press were choosing sides over Pluto's planethood. Pluto is entrenched in our cultural and emotional view of the cosmos, and Neil deGrasse Tyson, award-winning author and director of the Rose Center, is on a quest to discover why. He stood at the heart of the controversy over Pluto's demotion, and consequently Plutophiles have freely shared their opinions with him, including endless hate mail from third-graders. With his inimitable wit, Tyson delivers a minihistory of planets, describes

the oversized characters of the people who study them, and recounts how America's favorite planet was ousted from the cosmic hub.

Poetry. In Noel Sloboda's second book of poems, he delves beneath the surface of suburban life, weaving together ancient myths, childhood nightmares, and historical reveries. OUR RARER MONSTERS explores intersections between real and imagined geographies: a residential block where Grendel lives next door and Prospero is parked out in the street. These poems—and the accompanying linocuts by Marc Snyder—plumb the depths of memory to unearth roots that bind us to the literary, cultural, and mythological traditions of yesterday as we hurtle irresistibly through the twenty-first century. "Noel Sloboda's OUR RARER MONSTERS is an imaginative book full of wonder and charm."—Jeannine Hall Gailey "I kept coming back to Sloboda's poems and to Marc Snyder's exquisite linocuts included in this utterly winning book. Here is a poetry collection not to be missed for its audacity and verve."—Kristin Ong Muslim

The soft crash of waves that blissfully block out all other noise, the smell of two-stroke and lawn clippings, the first sip of cold beer, the laboured whir of the ceiling fan, the sound of a bag of ice hitting the pavement, that feeling of salt on skin and even the smell of prawns on bin night. Comedian Tim Ross uses the Australian Summer as a back drop for a new collection of nostalgic short stories.

Life on the Mississippi is a memoir by Mark Twain detailing his days as a steamboat pilot on the Mississippi River before and after the American Civil War. The book begins with a brief history of the river. It continues with anecdotes of Twain's training as a steamboat pilot, as the 'cub' of an experienced pilot. He describes, with great affection, the science of navigating the ever-changing Mississippi River. In the second half, the book describes Twain's return, many years later, to travel on a steamboat from St. Louis to New Orleans. He describes the competition from railroads, the new, large cities, and his observations on greed, gullibility, tragedy, and bad architecture. He also tells some stories that are most likely tall tales. Simultaneously published in 1883 in the U.S. and in England, it is said to be the first book composed on a typewriter.

Philip Levine's new collection of poems (his first since *The Simple Truth* was awarded the Pulitzer Prize) is a book of journeys: the necessary ones that each of us takes from innocence to experience, from youth to age, from confusion to clarity, from sanity to madness and back again, from life to death, and occasionally from defeat to triumph. The book's mood is best captured in the closing lines of the title poem, which takes its name from the ship that brought the poet's mother to America: A nine-year-old girl travels all night by train with one suitcase and an orange. She learns that mercy is something you can eat again and again while the juice spills over your chin, you can wipe it away with the back of your hands and you can never get enough.
