The Manual to Middle School Simon and Schuster

The author, flight director in NASA's Mission Control, tells of the challenges in space flight from the very early years to the current time and of "his own bold suggestions about what we ought to be doing in space now."--Jacket.

Face to Face Penguin

They had the right stuff. They defied the prejudices of the time. And they blazed a trail for generations of women to follow. What does it take to be an astronaut? Excellence at flying, courage, intelligence, resistance to stress, top physical shape -- any checklist would include these. But when America created NASA in 1958, there was another unspoken rule: you had to be a man. Here is the tale of thirteen women who proved that they were not only as

tough as the toughest man but also brave enough to challenge the government. They were blocked by prejudice, jealousy, and the scrawled note of one of the most powerful men in Washington. But even though the Mercury 13 women did not make it into space, they did not lose, for their example empowered young women to take their place in the sky, piloting jets and commanding space capsules. ALMOST ASTRONAUTS is the story of thirteen true pioneers of the space age. Back matter includes an author's note, an appendix, further reading, a bibliography, sources, source notes, and an index.

Dobson says that you must first have a strong foundation in time management and priority setting, then introduces the concept of Portfolio Management to timeline multiple projects, determine their resource requirements, and handle emergencies, putting you in charge for possibly the first time in your life! The Juggler's Guide to Managing Multiple Projects does not forget the paperwork. Dobson supplies examples of business-tested forms, charts, logs, tables, and worksheets-everything project managers need to crash, level, analyze, plan, and control tasks. Forms were never better explained or illustrated.

**The St. Martin's Guide to Writing Failure Is Not an Option**

Travel to space and back with astronaut Chris Hadfield's "enthraling" bestseller as your eye-

---

opening guide (Slate). Colonel Chris Hadfield has spent decades training as an astronaut and has logged nearly 4000 hours in space. During this time he has broken into a Space Station with a Swiss army knife, disposed of a live snake while piloting a plane, and been temporarily blinded while clinging to the exterior of an orbiting spacecraft. The secret to Col. Hadfield's success-and survival-is an unconventional philosophy he learned at NASA: prepare for the worst- and enjoy every moment of it. In *An Astronaut's Guide to Life on Earth*, Col. Hadfield takes readers deep into his years of

training and space exploration to show how to make the impossible possible. Through eye-opening, entertaining stories filled with the adrenaline of launch, the mesmerizing wonder of spacewalks, and the measured, calm responses mandated by crises, he explains how conventional wisdom can get in the way of achievement — and happiness. His own extraordinary education in space has taught him some counterintuitive lessons: don't visualize success, do care what others think, and always sweat the small stuff. You might never be able to build a robot, pilot a spacecraft, make a music video or perform

---

basic surgery in zero gravity like Col. Hadfield. But his vivid and refreshing insights will teach you how to think like an astronaut, and will change, completely, the way you view life on Earth — especially your own. "Hadfield proves himself to be not only a fierce explorer of the universe, but also a deeply thoughtful explorer of the human condition." —Maria Popova, Brain Pickings

This authoritative guide helps Baby Boomers navigate their way through a host of issues that typically affect careers from the midpoint onward

toward retirement. \* Comprises ten chapters in three sections: one on changes in the workplace during the Baby Boom years; one on specific challenges Baby Boomers face in their careers; and one on achieving goals, including starting a business and planning for retirement \*

Presents charts and graphs explaining relevant statistical data \* Offers a bibliography of helpful additional sources in print and online Failure Is Not an Option Project Management Institute

The transition from elementary school to middle school can be particularly difficult for boys. Too big to be little and too little to be big, they face the

---

perfect storm of changing bodies, rushing hormones, and learning challenges. They may now begin to struggle with grades, behavior, and relationships with family and friends. Boys are often frustrated and embarrassed by trying to figure out on their own what to do and what not to do in this new environment with new expectations. Jonathan Catherman and his two sons--one current and one former middle schooler--offer boys ages ten to twelve the practical help they need to make the move to middle school as painlessly as possible. The "do this, not that" format covers a hundred relevant topics and situations middle school boys will face, including school lockers, bullies, test taking, cell

phone use, homework, gossip, leadership, respect, sports, and many more.

Answering Why archer crosley  
Featured on CBS This Morning, Squawk Box, MSNBC, CNN, Bloomberg, Forbes, Fast Company, The New York Times, and more. " Reading Face to Face is like being a fly on the wall, watching Brian Grazer work his magic. Utterly entertaining, this is how you become Hollywood ' s best producer. " —Malcolm Gladwell, author of Talking to Strangers  
Legendary Hollywood producer and author of the bestselling A Curious Mind, Brian Grazer is back with a captivating new book about the life-changing ways we can connect with one another. Much of Brian Grazer ' s success—as a #1 New York Times bestselling author, Academy Award – winning producer, father, and

---

husband—comes from his ability to establish genuine connections with almost anyone. In *Face to Face*, he takes you around the world and behind the scenes of some of his most iconic movies and television shows, like *A Beautiful Mind*, *Empire*, *Arrested Development*, *American Gangster*, and *8 Mile*, to show just how much in-person encounters have revolutionized his life—and how they have the power to change yours. With his flair for intriguing stories, Grazer reveals what he 's learned through interactions with people like Bill Gates, Taraji P. Henson, George W. Bush, Barack Obama, Eminem, Prince, Spike Lee, and the Afghani rapper activist Sonita: that the secret to a bigger life lies in personal connection. In a world where our attention is too often focused downward at our devices, Grazer argues that we are missing an essential piece of

the human experience. Only when we are face to face, able to look one another in the eyes, can we form the kinds of connections that expand our world views, deepen our self-awareness, and ultimately lead to our greatest achievements and most meaningful moments. When we lift our eyes to look at the person in front of us, we open the door to infinite possibility.

Failure is always an option, and so is choosing to lead your team into an environment that helps them avoid catastrophe and pull off miracles. For more than fifty years, NASA's Mission Control has done just that. Take the ultimate insider's look at the leadership values and culture that made that track record possible. Paul Hill paints a vivid picture, candidly portraying the critical cultural connections in human spaceflight triumphs and failures. By demonstrating how his Mission Control team learned to steward this culture into their management roles, Paul provides a guide for any organization to boost their own performance by leveraging the core ideas and values that have delivered "impossible" wins for decades. Whether failure means cost and schedule overruns, quality escapes, loss of market share, bankruptcy, or putting people's lives at risk, how we lead can determine whether even small mistakes snowball out of control and destroy an enterprise. Discover how to take Leadership from the Mission Control Room to the Boardroom, and enable this leadership environment in your team. What can your team learn from top tier leaders at NASA Mission Control? Maybe more than you think. In Leadership from the Mission Control Room to the Boardroom, former NASA flight director Paul Hill tells the true story of the game-changing

---

transformation of Mission Control ' s senior leadership team. Ride along on a journey of evolution as these executives rediscover the core purpose and values that had never left their organization. Hill ' s candor and intensity makes this a fascinating read for every leader! — KEN BLANCHARD, COAUTHOR OF THE NEW ONE MINUTE MANAGER® AND LEADING AT A HIGHER LEVEL There is no higher-stakes environment than NASA ' s Mission Control. This incredible team ' s leadership journey and development of precise decision-making in the face of unbelievable pressure — are inspiring. Filled with fascinating insights into spaceflight and leadership alike, every leader will find parallels to their own organization. Paul ' s incredible book is a must-have for anyone leading a high-performance team and an invaluable addition to any business library. — MARSHALL GOLDSMITH – THE THINKERS 50 #1 LEADERSHIP THINKER IN THE WORLD This is an arresting work by a former NASA Flight Director with whom I was privileged to work during the Return-to-Flight of the Space Shuttle Program in 2005. Paul Hill takes the reader through NASA ' s legendary ' Mission Control ' in a way not found in any other work with which I am familiar. From its origins in aircraft flight test, to the early days of the space program with Project Mercury, and on to the iconic time of

---

Apollo, and from there to the Space Shuttle program, Paul Hill offers a view from the inside track to both laymen and space professionals. From there, he takes you to the business world outside of NASA, and shows how the principles and values of the Mission Operations Directorate apply in a far larger arena. No leader or manager can fail to benefit from the lessons captured here. — MICHAEL D. GRIFFIN, NASA ADMINISTRATOR, 2005-09 AND SCHAFFER CORPORATION CEO Paul Hill has written a stunning ‘ instructional manual ’ for business executives and leaders who want to learn from the best team on the planet: The men and women of NASA ’ s Mission Control.

For the first time, a leader of the Mission Operations Directorate of NASA shares the hard-won lessons of this world-famous organization and translates them into key principles and examples designed to hone a superior leadership team grounded in integrity and bedrock organizational values. Steeped in the lessons of history, rich with achievement and heart-rending loss, laser-focused on application and results, and above all a great narrative, this book, like its author, is one-of-a-kind. — MARY LYNNE DITTMAR, EXECUTIVE DIRECTOR OF THE COALITION FOR DEEP SPACE EXPLORATION AND FORMER MEMBER, HUMAN SPACEFLIGHT COMMITTEE, NATIONAL

Leadership from the Mission Control

Room to the Boardroom: A Guide to Unleashing Team Performance Henry Holt and Company

Gene Kranz was present at the creation of America's manned space program and was a key player in it for three decades. As a flight director in NASA's Mission Control, Kranz witnessed firsthand the making of history. He participated in the space program from the early days of the Mercury program to the last Apollo mission, and beyond. He endured the disastrous first years when rockets blew up and the United States seemed to fall further behind the Soviet Union in the space race. He helped to launch Alan Shepard and John Glenn, then assumed the flight director's role in

---

the Gemini program, which he guided to famous flights. What appeared as nearly fruition. With his teammates, he accepted the challenge to carry out President John F. Kennedy's commitment to land a man on the Moon before the end of the 1960s. Kranz was flight director for both Apollo 11, the mission in which Neil Armstrong fulfilled President Kennedy's pledge, and Apollo 13. He headed the Tiger Team that had to figure out how to bring the three Apollo 13 astronauts safely back to Earth. (In the film Apollo 13, Kranz was played by the actor Ed Harris, who earned an Academy Award nomination for his performance.) In *Failure Is Not an Option*, Gene Kranz recounts these thrilling historic events and offers new information about the flawless missions to the Moon were, in fact, a series of hair-raising near misses. When the space technology failed, as it sometimes did, the controllers' only recourse was to rely on their skills and those of their teammates. Kranz takes us inside Mission Control and introduces us to some of the whiz kids -- still in their twenties, only a few years out of college -- who had to figure it all out as they went along, creating a great and daring enterprise. He reveals behind-the-scenes details to demonstrate the leadership, discipline, trust, and teamwork that made the space program a success. Finally, Kranz reflects on what has happened to the space

---

program and offers his own bold suggestions about what we ought to be doing in space now. This is a fascinating firsthand account written by a veteran mission controller of one of America's greatest achievements. Mission to Mars Visible Ink Press Bridge the Gap and Reach the Why Generation If you've ever struggled to motivate the young people in your sphere of influence, Answering Why is the game-changer you've been looking for. From the urgent skills gap crisis to the proven strategies to inspire our youngest generations, Answering Why addresses the burning questions faced by educators, employers, and parents everywhere. Author, CEO, and generational expert Mark C. Perna shares his wide experience and profound success as both a single dad

and performance consultant for education and workforce development across North America. Readers will be empowered to:

- Embrace the branch-creak crisis moments of life
- Make meaningful, productive connections with the Why Generation (anyone under 40 today)
- Bring relevance, self-discovery, and passion to the learning process

The Why Generation is asking a serious question, and it ' s time to answer it. This book will help awaken the incredible potential of young people everywhere and spur them to increased performance on all fronts, so they can make a bigger difference—which is exactly what they want.

Go, Flight! Houghton Mifflin Harcourt  
An “ exciting ” minute-by-minute account of the Apollo 13 flight based on mission control transcripts from

---

Houston (The New York Times). On the evening of April 13, 1970, the three astronauts aboard Apollo 13 were just hours from the third lunar landing in history. But as they soared through space, two hundred thousand miles from Earth, an explosion badly damaged their spacecraft. With compromised engines and failing life-support systems, the crew was in incomparably grave danger. Faced with below-freezing temperatures, a seriously ill crewmember, and a dwindling water supply, a safe return seemed unlikely. Thirteen is the shocking and miraculous true story of how the astronauts and ground crew guided Apollo 13 back to Earth. Expanding on dispatches written for

the New Yorker, Henry S. F. Cooper Jr. brings readers unparalleled detail on the moment-by-moment developments of one of NASA ' s most dramatic missions.
