If you are new to using smartphones or are an Android user new to iPhones, this book will help you migrate efficiently.

*iPhone For Seniors For Dummies* "O'Reilly Media, Inc."

The creation of apps for Apple's iPhone is now a huge, and global business, with hundreds of thousands of developers, entrepreneurs and companies attracted by the potential rewards. But games, functional apps and promotional apps alike depend on attractive, intuitive design for their appeal, and most fail to find a significant audience. With this book, you'll be able to turn your great app idea into a functioning design that is ready for coding, or apply graphic design skills to this exciting and lucrative marketplace. You will have a clearly visualised concept and a focused sales plan - and your app will stand out in an App Store that is worth well over a billion pounds every year.

**OS X Mountain Lion For Dummies** Apress

Established as the most complete work on the channels, collaterals and points in English, *A Manual of Acupuncture* has become the gold standard text for students and practioners of acupuncture. Introductory chapters on the channels and collaterals, point categories, point selection models, point location and needling. Illustrations and text descriptions of all primary, extraordinary, divergent, Luo-connecting and sinew channels. The points of the fourteen channels and the extra points with their English name, Chinese name, and Chinese character. the most exacting and accurate anatomical point locations yet published in any English text with practical point location notes to assist in easy location. Nearly 500 illustrations, with a single dedicated illustration for every point. Point actions to aid the understanding and memorization of each point's principal qualities. Extensive lists of point indications taken from numerous classical and modern source texts and grouped for ease of reference. Substantial commentaries explaining in detail the principal historical and modern applications of the point, and drawing on classical and modern texts and the extensive clinical experience of the authors. Numerous classical prescriptions showing how the points have been used and combined through nearly two millenia of practice. Area illustrations showing the locations of the major points in each region of the body. Extensive indexes including an index of every point indication.
