This volume presents a many-faceted view of the Oxford philosopher R. G. Collingwood. At its centre is his Autobiography, published in 1939, which has the status of a cult classic for its compelling 'story of his thought'. Collingwood's work has enjoyed renewed attention in recent years, with new editions of his great philosophical works. This volume republishes the Autobiography alongside a previously unpublished account by Collingwood of a journey to the East Indies in 1938-1939. These writings are accompanied by eleven specially written essays. Several of these examine aspects of Collingwood's life—not just the Autobiography, but what he doesn't discuss in that work, from his childhood to his professorship at Oxford. And the essays also examine aspects of his work on philosophy, politics, history, and archaeology, in the context of his life.

Visions of Peace: Asia and the West explores the diversity of past conceptualizations as well as the remarkable continuity in the hope for peace across global intellectual traditions. Current literature, prompted by September 11, predominantly focuses on the laws and ethics of just wars or modern ideals of peace. Asian and Western ideals of peace before the modern era have largely escaped scholarly attention. This book examines Western and Asian visions of peace that existed prior to c.1800 by bringing together experts from a variety of intellectual traditions. The historical survey ranges from ancient Greek thought, early Christianity and medieval scholasticism to Hinduism, classical Confucianism and Tokuguwa Japanese learning, before illuminating unfamiliar aspects of peace visions in the European Enlightenment. Each chapter offers a particular case study and attempts to rehabilitate a 'forgotten' conception of peace and reclaim its contemporary relevance. Collectively they provide the conceptual resources to inspire more creative thinking towards a new vision of peace in the present. Students and specialists in international relations, peace studies, history, political theory, philosophy, and religious studies will find this book a valuable resource on diverse conceptions of peace.

On 1 August 1935, only a few months before Mussolini launched the colonial enterprise in Ethiopia, Shakespeare ’ s Julius Caesar was produced at the Maxentius Basilica in Rome. The performance was organised by The National Workers ’ Recreational Club (O.N.D.) and the script was submitted for censorship. However, the procedure followed a different course from the usual one as the commissioner was also part of the Fascist political system. This parallel edition presents for the first time the integral script of the censored text of Shakespeare ’ s Julius Caesar, in Raffaello Piccoli's 1925 Italian translation, and explores the implications of this peculiar type of censorship at the moment when, through Shakespeare, censoring became one and the same with political propaganda.

The History of England from the Invasion of Julius Caesar to the Revolution of 1688 National Council of Teachers
This collaborative volume offers the first historical reconstruction of the concept of popular sovereignty from antiquity to the twentieth century. First formulated between the late sixteenth and mid-seventeenth centuries, the various early modern conceptions of the doctrine were heavily indebted to Roman reflection on forms of government and Athenian ideas of popular power. This study, edited by Richard Bourke and Quentin Skinner, traces successive transformations of the doctrine, rather than narrating a linear development. It examines critical moments in the career of popular sovereignty, spanning antiquity, medieval Europe, the early modern wars of religion, the revolutions of the eighteenth century and their aftermath, decolonisation and mass democracy. Featuring original work by an international team of scholars, the book offers a reconsideration of one of the formative principles of contemporary politics by exploring its descent from classical city-states to the advent of the modern state.
