"A reference guide includes records in the realms of popular culture, sports, science, nature, and technology, and includes a section of United States records." --Source inconnue.

Science World [88]. Copyright Office, Library of Congress

Philosopher and psychoanalyst Jon Mills examines the ominous existential risks that could bring about the end of civilization. He draws on the psychological motivations, unconscious conflicts, and cultural complexes that drive human behavior and social relations to offer a fresh perspective on the looming fate of humanity.

Kids love science experiments! Scientist of the Day describes a program where each student has an opportunity to choose, practice, and present an experiment to his classmates. The book provides clear instructions for the teacher or parent and reproducible record-keeping forms. There are 46 different experiments written so that young scientists will know exactly what to do and when to pause to ask questions. This encourages his or her classmates to make predictions, hypothesize, and discuss what they observe. They all then record their observations by drawing on special forms. At the bottom of each experiment there is a brief explanation of the science behind it that is clear and correct. Students thoroughly enjoy watching and discussing these demonstrations, and some may be inspired to continue their studies to become "not just for a day" scientists!

#1 New York Times Bestseller A USA Today

Bestseller Winner of the Newbery Medal A Caldecott

Honor Book A Coretta Scott King Illustrator Honor Book This award-winning modern classic—a must-have for every child's home library—is an inclusive ode to kindness, empathy, gratitude, and finding joy in unexpected places, and celebrates the special bond between a curious young boy and his loving grandmother. Every Sunday after church, CJ and his grandma ride the bus across town. But today, CJ wonders why they don't own a car like his friend Colby. Why doesn't he have an iPod like the boys on the bus? How come they always have to get off in the dirty part of town? Each question is met with an encouraging answer from grandma, who helps him see the beauty—and fun—in their routine and the world around them. This energetic ride through a bustling city highlights the wonderful perspective only grandparent and grandchild can share, and comes to life through Matt de la Peña's vibrant text and Christian Robinson's radiant illustrations.

What are Scientists? Teacher Created Materials

Penned by the very first Crayon Activist, Bellen Woodard, this picture book will tug at readers' heartstrings and inspire them to make a difference! When Bellen Woodard's classmates referred to "the skin-color" crayon, in a school and classroom she had always loved, she knew just how important it was that everyone understood that "skin can be any number of beautiful colors." This stunning picture book spreads Bellen's message of inclusivity,

empowerment, and the importance of inspiring the next generation of leaders. Bellen created the More Than Peach Project and crayons with every single kid in mind to transform the crayon industry and grow the way we see our world. And Bellen has done just that! This moving book includes back matter about becoming a leader and improving your community just like Bellen. Her wisdom and self-confidence are sure to encourage any young reader looking to use their voice to make even great spaces better!

Can You Fly High, Wright Brothers? Horrible Science

Simple text and pictures answer questions about the Wright brothers and early flight.
