At the height of her journalism career, more than one million households across the country knew her name and her face. Her reportage on human suffering and triumph captivated viewers, and with it Vanessa Govender shot to fame as one of the first female Indian television news reporters in South Africa. Always chasing the human angle of any news story, Govender made a name for herself by highlighting stories that

included the grief of a mother clutching a packet filled with the fragments of the broken bones of her children after they'd been hacked to death by their own father, and another story where she celebrated the feisty spirit of a little girl who was dying of old age, while holding onto dreams that would never be realised. Yet Govender, a champion for society's downtrodden, was hiding a shocking story of her own. In Beaten But Not Broken, she finally opens up about her deepest secret - one that so nearly ended her career in broadcast

journalism before it had barely kicked off. She was a rookie reporter at the SABC in 1999. He was a popular radio disc jockey, the darling of the SABC's Lotus FM, a radio station catering to nearly half a million Indian people across South Africa. They were the perfect pair, or so it seemed. And if anyone suspected the nature of the abusive relationship, Govender says, she doesn't believe they knew the full extent of the horror that the popular DJ was inflicting on this intrepid journalist. The bruising punches, the cracking slaps, and the	relentless episodes filled with beatings, kicking and strangling were as ferocious as the emotional and verbal abuse he hurled at her. No one would know the brutal and graphic details of Govender's story ... until now. In Beaten But Not Broken, this Indian woman does the unthinkable, maybe even the unforgiveable, in breaking the ranks of a close-knit conservative community to speak out about her five-year-long hell in this abusive relationship. Her story also lays bare her heart-breaking experiences as a victim of childhood bullying	and being ostracised by some in her community for being a dark-skinned Indian girl. Govender tells a graphic story of extreme abuse, living with the pain, and ultimately of how she was saved by her own relentless fighting spirit to find purpose and love. This is a story of possibilities and hope; it is a story of a true survivor. importance of flexible auction markets for the determination of these prices. They thus may have a tendency to respond relatively quickly, especially in response to monetary disturbances. Estimation of alternative commodity-price indexes, in which the weights are chosen so as to minimize the residual variance in aggregate inflation regressions, was not fully successful. The commodity prices do have a useful role to play as an aid in predicting inflation, so long as one is careful to interpret the relationships qualitatively and in the context of more general

macroeconomic developments. The ratio of consumer to commodity price movements ' changes over time, and the relative price of commodities undergoes long sustained swings; nonetheless, the qualitative linkages are quite evident in the data. Perhaps most importantly, turning points in commodity-price inflation frequently precede turning points in consumer-price inflation for the large industrial countries as a group. *An Essay on the Steam Boiler* Penguin

Islamic Nursery Rhymes

For 100 years, the Isle of Man

Tourist Trophy races have been the world's most dangerous organized sporting event. As one of thirty thousand fans who attended the annual spectacle, Mark Gardiner harbored no illusions about his own skill or bravery. He was, however, an avid motorcyclist for whom the race represented a boyhood dream. He went home, quit his job, sold everything he owned, and returned to the Island to race there himself. Riding Man is the account of an Everyman, struggling to qualify for -- and

survive -- the TT races. If you're a dreamer, the lesson in this book is that the pursuit of any worthwhile goal involves risks, rewards and, almost inevitably some regrets. If you're not a dreamer, the lesson is more important: the deepest regrets are always over risks not taken.

Islamic Nursery Rhymes is an endearing collection of nursery rhymes for young children to learn about the beautiful ways of Islam in a lovely experience of singing with their parents and elders. The rhymes in the book are traditional nursery rhymes rewoded with

timeless Islamic meaning. For example, 'Oranges and Lemons' is an historical rhyme about ringing the bells of East London churches as a man made his journey to his execution - and the version here, entitled 'Assalam Alaykum', is about mosques in East London spreading salaam (peace) and news of prayer time. The illustrations by Fatimah De Vaux Davies are attractive and highly detailed (yet faceless) to delight children and engage their interest in the actions of practicing Muslims. For example, one illustration depicts Muslims gathering around a large Qur'an that is spilling out light. In another, Muslims are performing ritual prayers upon the earth, while boats sail, and airplanes and rockets fly.

These beautiful Islamic nursery rhymes can be used as songful remembrance of Allah as a resource for developing pre-recitation skills before reading the Qur'an.

Eighteen countries. Five shock

absorbers. Two bikers. One

amazing adventure... After their

fantastic trip round the world in

2004, fellow actors and bike

fanatics Ewan McGregor and

Charley Boorman couldn't shake

the travel bug. Inspired by their

UNICEF visits to Africa, they knew

they had to go back and experience

this extraordinary continent in

more depth. And so they set off on

their 15,000-mile journey with two

new BMWs loaded up for the trip.

Their route took them from John O'Groats at the northernmost tip of Scotland to Cape Agulhas on the southernmost tip of South Africa. Along the way they rode some of the toughest terrain in the world -- and met some of the friendliest people. They rode their bikes right up to the pyramids in Egypt and visited Luke Skywalker's house in Tunisia. They met people who had triumphed over terrifying experiences -- former childhood soldiers in Uganda and children living amidst the minefields of Ethiopia. They had a close encounter with a family of gorillas in Rwanda and were nearly trampled by a herd of elephants in Botswana. Riding through spectacular scenery, often in

extreme temperatures, Ewan and Charley faced their hardest challenges yet. With their trademark humor and honesty they tell their story -- the drama, the dangers and sheer exhilaration of riding together again, through a continent filled with magic and wonder.

"This book, a polished, winding meditation on the theory and fractiousness of motorcycles, celebrates both their eccentric history and the wary pleasures of touring."—The New Yorker In a book that is "a must for anyone who has loved a motorcycle"

(Oliver Sacks), Melissa Pierson captures in vivid, writerly prose the mysterious attractions of motorcycling. She sifts through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you

may think you know what kind of person rides a motorcycle, you probably don't.

Moral Foods: The Construction of Nutrition and Health in Modern Asia investigates how foods came to be established as moral entities, how moral food regimes reveal emerging systems of knowledge and enforcement,

and how these developments have contributed to new Asian nutritional knowledge regimes. The collection 's focus on cross-cultural and transhistorical comparisons across Asia brings into view a broad spectrum of modern Asia that extends from East Asia, Southeast Asia, to South Asia, as well as into global communities of Western knowledge, practice, and power outside Asia. The first section, " Good Foods, " focuses on how food norms and rules have been established in modern Asia. Ideas about good foods and good bodies shift at different moments, in some cases

privileging local foods and knowledge systems, and in other cases privileging foreign foods and knowledge systems. The second section, " Bad Foods, " focuses on what makes foods bad and even dangerous. Bad foods are not simply unpleasant or undesirable for aesthetic or sensory reasons, but they can hinder the stability and development of persons and societies. Bad foods are symbolically polluting, as in the case of foreign foods that threaten not only traditional foods, but also the stability and strength of the nation and its people. The third section,

“ Moral Foods, ” focuses on how themes of good versus bad are embedded in projects to make modern persons, subjects, and states, with specific attention to the ambiguities and malleability of foods and health. The malleability of moral foods provides unique opportunities for understanding Asian societies ’ dynamic position within larger global flows, connections, and disconnections. Collectively, the chapters raise intriguing questions about how foods and the bodies that consume them have been valued politically, economically, culturally, and

morally, and about how those values originated and evolved. Consumers in modern Asia are not simply eating to satisfy personal desires or physiological needs, but they are also conscripted into national and global statemaking projects through acts of ingestion. Eating, then, has become about fortifying both the person and the nation.
