Making America Krieger Publishing Company
Review and test preparation book for Advanced Placement examinations in computer science
Historical Thinking Skills Barrons Educational Series
Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Report of the National Advisory Commission on Civil Disorders
Barron's Educational Series

Barron's AP Psychology with CD-ROM Pickle Partners Publishing
Galbraith's classic on the "economics of abundance" is, in the words of the New York Times, "a compelling challenge to conventional thought." With customary clarity, eloquence, and humor, Galbraith cuts to the heart of what economic security means (and doesn't mean) in today's world and lays bare the hazards of individual and societal complacency about economic inequity. While "affluent society" and "conventional wisdom" (first used in this book) have entered the vernacular, the message of the book has not been so widely embraced--reason enough to rediscover *The Affluent Society*. AP Calculus AB Review Perfection Learning

Equip your students to excel on the AP® United States History Exam, as updated for 2016 Features "flexibility designed to use in a one-semester or one-year course" "divided into nine chronological periods mirroring the structure of the new AP® U.S. College Board Curriculum Framework, the text reflects the Board's effort to focus on trends rather than isolated facts "each period features a one-page overview summarizing the major developments of the period and lists the three featured Key Concepts from the College Board Curriculum Framework "each Think As a Historian feature focuses on one of the nine historical thinking skills that the AP® exam will test "each chapter narrative concludes with Historical Perspectives, a feature that addresses the College Board emphasis on

how historians have interpreted the events of the chapter in various ways "the chapter conclusion features a list of key terms, people, and events organized by theme, reflecting the College Board's focus on asking students to identify themes, not just events "chapter assessments include eight multiple-choice items, each tied to a source as on the new AP® exam, as well as four short-answer questions "period reviews include both long-essay questions and Document-Based Questions in the format of those on the AP® exam, as updated for 2016

The Crack in the Picture Window Barrons Educational Series

Mix hundreds of millions of dollars in petroleum reserves; rapacious oil barons and crooked politicians; under-the-table payoffs; murder, suicide, and blackmail; White House cronyism; and the excesses of the Jazz Age. The result: the granddaddy of all American political scandals, Teapot Dome. In *The Teapot Dome Scandal*, acclaimed author Laton McCartney tells the amazing, complex, and at times ribald story of how Big Oil handpicked Warren G. Harding, an obscure Ohio senator, to serve as our twenty-third president. Harding and his so-called "oil cabinet" made it possible for the oilmen to secure vast oil reserves that had been set aside for use by the U.S. Navy. In exchange, the oilmen paid off senior government officials, bribed newspaper publishers, and covered the GOP campaign debt. When news of the scandal finally emerged, the consequences were disastrous for the nation and for the principles in the plot to bilk the taxpayers: Harding's administration was hamstrung; Americans' confidence in their government plummeted; Secretary of the Interior Albert Fall was indicted, convicted, and incarcerated; and others implicated in the

affair suffered similarly dire fates. Stonewalling by members of Harding's circle kept a lid on the story—witnesses developed “faulty” memories or fled the country, and important documents went missing—but contemporary records newly made available to McCartney reveal a shocking, revelatory picture of just how far-reaching the affair was, how high the stakes, and how powerful the conspirators. In giving us a gimlet-eyed but endlessly entertaining portrait of the men and women who made a tempest of Teapot Dome, Laton McCartney again displays his gift for faithfully rendering history with the narrative touch of an accomplished novelist.

Teaching What Really Happened Princeton Review

“Should be in the hands of every history teacher in the country.”— Howard Zinn James Loewen has revised *Teaching What Really Happened*, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retellings of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and the historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It

will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: An up-to-date assessment of the potential and pitfalls of U.S. and world history education. Information to help teachers expect, and get, good performance from students of all racial, ethnic, and socioeconomic backgrounds. Strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography. Ideas from teachers across the country who are empowering students by teaching what really happened. Specific chapters dedicated to five content topics usually taught poorly in today's schools.
