Answering six mark questions in your GCSE is much more than just writing down six correct things. There is a skill to answering them that needs to be practiced. Here I have written 25 questions on each subject, given you the answers and guided you through how to answer to get full marks. The more you practice, the more confident you'll be in the exam!

Example Question 58 - Renewable and Non-Renewable Energy Sources  
In June 2017, for the first time, over 50% of energy in the UK was supplied by renewable energy. The UK government is leading a drive to promote the increased use of renewable energy sources for generating electricity. Evaluate the use of renewable and non-renewable energy sources. Planning....

Royal Society of Chemistry

A revision guide for those doing separate sciences, it aims to cover what they need to know for their course. It contains separate science content that double science people don't have to cover.

*OCR A Level Chemistry Student Book 2*

Elsevier

Chemistry for the Gifted and Talented is a refreshingly challenging educational book containing a wide range of differentiated activities for use in

school and college. Primarily designed to meet the needs of more able chemistry pupils working in a mixed ability student group, the book provides a valuable resource of learning with different approaches to activities, encouraging students to think about and evaluate the chemistry they learn. Activities include Sudoku puzzles, Chemistry Olympiad questions, concept cartoons and mind maps. The aim of the book is to spark interest, challenge and excite gifted young chemistry students and is an essential resource to teachers hoping to differentiate more able students within a student group. Inspirational reading for students and teachers with a passion for chemistry, the text is facilitated with innovative chemistry related activities to ensure the needs of all students are met.
