This state-of-the-art account of research and theorizing brings together multimodality, learning and communication through detailed analyses of signmakers and their meaning-making in museums, hospitals, schools and the home environment. By analyzing video recordings, photographs, screenshots and print materials, Jeff Bezemer and Gunther Kress go well beyond the comfortable domains of traditional sites of (social) semiotic and multimodal research. They steer away from spurious invention and naming of ever more new and exciting domains, focusing instead on fundamentals in assembling a set of tools for current tasks: namely, describing and analyzing learning and communication in the contemporary world as one integrated field. The theory outlined in the book is grounded in the findings of the authors' wide-ranging empirical investigations. Each chapter evaluates the work that is being done and has been done, challenging accepted wisdom and standing much of it on its head. With extensive illustrations and many examples presented to show the reach and applicability of the theory, this book is essential reading for all those working in multimodality, semiotics, applied linguistics and related areas. [The NQT's Essential Companion](#) Routledge

The renowned and highly experienced editors of this book bring

together the leading voices in contemporary English education under the banner of the International Federation for the Teaching of English (IFTE). The collected chapters here represent the very best of international writing on the teaching of English in the past decade. The key issues and debates surrounding English teaching across the globe are discussed and analysed accessibly, and incorporate wide-ranging topics including: • The impact of high stakes testing on teaching and learning; • Addressing the needs of minority groups; • The digitization of literature and new conceptions of text; • Rewriting the canon; • Dealing with curriculum change; • "Best practices" in the teaching of English; • The tension between 'literacy' and 'English'; • English and bilingual education; • The impact of digital technologies on teaching and learning; • Conceptions of English as a subject [secondary and tertiary]; • Bringing the critical into the English/Literacy classroom; • The future of subject English; • Empowering voices on the margins; • Pre-service teacher education; • The social networking English classroom. This text looks at the changing face of subject English from the differing perspectives of policy makers, teacher educators, teachers and their students. It tackles some of the hard questions posed by technological advances in a global society, challenges conventional approaches to teaching and points to the emerging possibilities for a traditional school subject such as English in the face of rapid change and increasing societal expectations. Despite all of the converging political and technological threats, the authors of this engaging and insightful text portray an immense confidence in the ultimate worth of teaching and learning subject English.

This volume gathers contributions in the closely linked fields of English language assessment and language education. The contributors from China and Hong Kong represent a mixture of established and new scholars. Areas covered in the language education section range across major developments in the redefining of Hong Kong's secondary and tertiary curricula, as well as the huge field of China's vocational education curriculum. Regarding assessment, the contributions reflect

major changes in the marking of examinations in Hong Kong, whereby all examinations from 2012 onwards are marked onscreen, to quality control issues in the administration of China's College English Test, which is taken by over 10 million candidates every year.

"An illustrated analytical study, *Words and the First World War* considers the situation at home, at war, and under categories such as race, gender and class to give a many-sided picture of language used during the conflict." The Spectator First World War expert Julian Walker looks at how the conflict shaped English and its relationship with other languages. He considers language in relation to mediation and authenticity, as well as the limitations and potential of different kinds of verbal communication. Walker also examines: - How language changed, and why changed language was used in communications - Language used at the Front and how the 'language of the war' was commercially exploited on the Home Front - The relationship between language, soldiers and class - The idea of the 'indescribability' of the war and the linguistic codes used to convey the experience 'Languages of the front' became linguistic souvenirs of the war, abandoned by soldiers but taken up by academics, memoir writers and commentators, leaving an indelible mark on the words we use even today.

Award-winning novelist and cult favorite Graham Joyce transports readers to a mysterious world of isolation and fear with a hypnotically dark story about a young couple trapped by an avalanche in the remote French Pyrenees. . . a daring and powerful novel about love, loss, and rebirth. In the French Pyrenees, a young married couple is buried under a flash avalanche while skiing. Miraculously, Jake and Zoe dig their way out from under the snow—only to discover the world they knew has been overtaken by an eerie and absolute silence. Their hotel is devoid of another living soul. Cell phones and land lines are cut off. An evacuation as sudden and thorough as this leaves Jake and Zoe to face a terrifying situation alone.

They are trapped by the storm, completely isolated, with another catastrophic avalanche threatening to bury them alive . . . again. And as the couple begin to witness unsettling events neither one can ignore, they are forced to confront a frightening truth about the silent land they now inhabit. Award-winning author Graham Joyce has written a mysterious masterpiece, a tour de force that will thrill fans of Peter Straub and the hit television show *Lost*.

Quantitative corpus research on written language development has expanded rapidly in recent years, assisted by the ever-increasing power and accessibility of software capable of reliably analysing huge collections of learner writing. For this work to reach its full potential, it is important that researchers have a strong understanding of its methodological foundations and of the existing empirical evidence base on which it can build. This book provides the most comprehensive discussion to date of research in this area. Covering both first and second language learning contexts, it sets out a coherent theoretical framework and systematically reviews studies published over the last seventy years in order to establish what such research has taught us about written language development, what it hasn't taught us, and what we should do next. Timely and original, this is an essential reference work for academic researchers and students of first and second language writing.

With increasing numbers of learners in secondary schools having English as an additional language, it is crucial for all teachers to understand the learning requirements of these students and plan distinctive teaching approaches to engage and support them. This book provides school leaders, trainee teachers and qualified teachers with the skills and practical knowledge they need to strengthen the learning outcomes of students for whom English is an additional language. *Teaching English as an Additional Language in Secondary Schools* sets out realistic ways in which EAL learners can be engaged and stretched in their learning, building on their prior literacy, cultural experiences and language learning. It clearly explains the theory and key research into how additional languages are acquired and offers practical classroom teaching and learning strategies to show teachers how they can help EAL learners to access the curriculum and reflect on their learning through assessments. Features include: tasks to help put the ideas into practice case studies illustrating the key challenges faced by EAL learners summaries of key research findings reflections to encourage deeper thinking. Drawing on the daily experiences of teachers and teaching assistants, this book will be essential reading for all trainee and practising teachers that want to ensure students with EAL fulfil their true learning potential.

The Social Construction of Meaning Cambridge University Press
Knowing About Language is an essential and comprehensive

introduction to and discussion of the value of linguistics in the secondary and post 16 curriculum. Split into three easily accessible parts, each chapter draws on theoretical and practical reasons for developing language awareness for the teacher and student, the impact of government and institutional policy on teaching and teacher knowledge, and explores recent research about the value of linguistic knowledge to support student attainment. Expert contributors show how recent innovations in linguistics can support language teaching by providing a range of practical ideas that can be used in the classroom. *Knowing About Language* is a valuable theoretical, critical and practical guide for the teacher and researcher, and anyone interested in applied linguistics and the study of language in education. Written by authors who are passionate about the value of language study both as a classroom topic and more generally, this book acts as a resource to inform and support teachers in wider aspects of their role by demonstrating the powerfully enabling nature and inherent value of language study and linguistics in secondary and post-16 curricula.

A social semiotic frame Collins Educational

The 2012 GCSE English results prompted significant controversy, which ultimately resulted in an application for judicial review. This report sets out the background to these events and identifies lessons to be learned. The problems with GCSE English can be traced back to the 2007-09 development phase of the qualification- in particular the turbulence which resulted from the shift away from a mostly linear to a modular system, combined with a high proportion of controlled assessment and generous marking tolerances. Exam board experts raised concerns at the time, but these were not acted upon by the regulator (the then-interim Ofqual). Further difficulties arose because of pressures from the school accountability system. The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening, with consequences for grade awarding. The current status of Ofqual, as an independent regulator accountable to Parliament, is the right one. However, the Coalition Government is bringing in wholesale changes to GCSEs and A levels, to a tight timetable and at the same time. Ofqual must have systems in place. The Committee is also concerned that there is a rush towards separate exam systems for England, Wales and Northern Ireland, without careful reflection on what might be lost, or consensus that this is the right thing to do.
