Australian Master Human Resources Guide 2010 Springer

Librarians must now work at a different level from that required 20 years ago, but the training available is not always appropriate or accessible to all. The authors of this volume have responded to this significant and continuing change within the profession by offering a much-needed guide to best practice for staff training and development in library and information work. This handbook addresses new aspects of service provision both in the UK and abroad, and provides an up-to-date review of the current developments that are becoming increasingly important to librarians through the influence of the electronic age and the widening of areas of professional involvement. The Handbook of Library Training Practice and Development will be invaluable to those responsible for the development of staff and line managers as well as providing a crucial insight into the information profession for anyone new to this career path or looking to develop their knowledge within it.

Policy makers recognize that developing capacity for knowledge and technology driven growth is necessary for Swaziland to integrate into the global economy and to be competitive; in particular because Swaziland is not rich in exploitable natural resources. The Education Training and Skills Development Sector (ETSDS), the educational sector of Swaziland's long-term development and reform program, covers all levels of education, from early childhood to post-secondary education. This paper evaluates the adequacy of the ETSDS in light of the enhanced educational goal for the country. Acknowledging that financing reforms will be a challenge, this paper makes recommendations to enhance the program's effectiveness, such as expanding access, strengthening delivery modes, and minimizing financial barriers to education and training.

Handbook of Library Training Practice and Development Springer

This book tracks post 9/11 developments in national security and policing intelligence and their relevance to new emerging areas of intelligence practice such as: corrections, biosecurity, private industry and regulatory environments. Developments are explored thematically across three broad sections: applying intelligence understanding structures developing a discipline. Issues explored include: understanding intelligence models; the strategic management challenges of intelligence; intelligence capacity building; and the ethical dimensions of intelligence practice. Using case studies collected from wide-ranging interviews with leaders, managers and intelligence practitioners from a range of practice areas in Australia, Canada, New Zealand, the UK and US, the book identifies examples of good practice across countries and agencies that may be relevant to other settings. Uniquely bringing together significant theoretical and practical developments in

a sample of traditional and emerging areas of intelligence, this book provides readers with a more holistic and inter-disciplinary perspective on the evolving intelligence field across several different practice contexts. Intelligence and Intelligence Analysis will be relevant to a broad audience including intelligence practitioners and managers working across all fields of intelligence (national security, policing, private industry and emerging areas) as well as students taking courses in policing and intelligence analysis.
