In this stunningly original book, Richard Wrangham argues that it was cooking that caused the extraordinary transformation of our ancestors from apelike beings to *Homo erectus*. At the heart of *Catching Fire* lies an explosive new idea: the habit of eating cooked rather than raw food permitted the digestive tract to shrink and the human brain to grow, helped structure human society, and created the male-female division of labour. As our ancestors adapted to using fire, humans emerged as "the cooking apes". Covering everything from food-labelling and overweight pets to raw-food faddists, *Catching Fire* offers a startlingly original argument about how we came to be the social, intelligent, and sexual species we are today. "This notion is surprising, fresh and, in the hands of Richard Wrangham, utterly persuasive . . . Big, new ideas do not come along often in evolution these days, but this is one." -Matt Ridley, author of *Genome*

Brain On Fire: My Month of Madness New Press, The

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of

adventure seems as far removed from reality as the hope of being rescued.

Catching Fire Bloomsbury Publishing USA

The definitive work on the profound and surprising links between manic-depression and creativity, from the bestselling psychologist of bipolar disorders who wrote *An Unquiet Mind*. One of the foremost psychologists in America, "Kay Jamison is plainly among the few who have a profound understanding of the relationship that exists between art and madness" (William Styron). The anguished and volatile intensity associated with the artistic temperament was once thought to be a symptom of genius or eccentricity peculiar to artists, writers, and musicians. Her work, based on her study as a clinical psychologist and researcher in mood disorders, reveals that many artists subject to exalted highs and despairing lows were in fact engaged in a struggle with clinically identifiable manic-depressive illness. Jamison presents proof of the biological foundations of this disease and applies what is known about the illness to the lives and works of some of the world's greatest artists including Lord Byron, Vincent Van Gogh, and Virginia Woolf.

The Hunger Games HarperCollins

From acclaimed middle-grade and chapter-book author, Erin Soderberg Downing, *Controlled Burn* is a story that blends family, friendship, fire, and the rocky path toward healing our deepest fears. Twelve-year-old Maia's parents say she's lucky she noticed something as early as she did. Lucky to have smelled the smoke, lucky to have pulled her sister, Amelia, out of their burning house. But is it really "lucky" when Amelia's stuck in the hospital, covered in burns? And is it "lucky" when Maia knows it was her candle, left unattended, that started the fire in the first place? When she's sent to spend the summer with her grandparents in Northern Minnesota while her sister heals, Maia discovers that her anxieties and demons are intent on following her wherever she goes...unless she can figure out how to overcome them. But what if she can't? Maia barely knows her grandparents, she desperately misses her sister and home, and she's not thrilled to be spending the summer with Grandpa Howard on his daily motorcycle rides out to the middle of the woods, where he spends all day keeping watch for forest fires. There are no kids her age in Gram and Pop's small town at "the end of the road"—just the chatty nine-year-old neighbor who is intent on getting his Bear Scout badge at all costs, and a friendly, stray dog who's been lurking around. But Maia will soon learn that nature is a powerful

teacher, and sometimes our greatest strengthsPaine were around, he would have written this show themselves when we have to be there for someone else. Year of the Jungle: Memories from the Home Front Ember
