Fatherland and Munich comes
a WWII thriller about a

German rocket engineer, a former actress turned British spy, and the Nazi rocket program. The first rocket will take five minutes to hit London. You have six minutes to stop the second. Rudi Graf is an engineer who always dreamed of sending rockets to the moon. But instead, he finds himself working alongside Wernher von Braun, launching V2 rockets at London for the Nazis from a bleak seaside town in occupied Holland. As

the SS increases its scrutiny on the project, Graf, an engineer more than a soldier, has to muster all of his willpower to toe the party line. And when rumors of a defector circulate through the German ranks, Graf becomes a prime suspect. Meanwhile, Kay Caton-Walsh, a young English intelligence officer, is living through the turmoil of war. After she and her lover, an RAF officer, are caught in a V2 attack, she volunteers to ship out for newly liberated Belgium. Armed with little more than a slide rule and a few equations, Kay and her colleagues hope to locate and destroy the launch sites. But at this stage in the war it's hard to know who, if anyone, she can trust. As the death toll soars, these twin stories play out against the background of the German missile campaign during the Second World War. And what the reader comes to understand is that Kay's and Graf's

destinies are on a collision course.

York Times bestselling author
of *The Chill*. In this "taut,

creepy techno-chiller ” (Paul Tremblay, author of *A Head Full of Ghosts*), recently laid-off newspaper reporter Nick Bishop takes a humbling job: writing a profile of a new mindfulness app called *Clarity*. The app itself seems like a reread of old ideas—relaxing white noise and guided meditations. But then there are the “*Sleep Songs*.” A woman’s hauntingly beautiful voice sings a ballad that is anything but soothing—it’s disturbing, and more of a warning than a relaxation—but it works. Deep, refreshing sleep follows. So do the nightmares. Vivid and chilling, they feature a dead woman who calls Nick by name and whispers guidance—or are they threats? And her voice follows him long after the song is done. As the effects of the

nightmares begin to permeate his waking life, Nick makes a terrifying discovery: no one involved with *Clarity* has any interest in his article. Their interest is in him.

Conspirata is “a portrait of ancient politics as a blood sport,” raves *The New York Times*. As he did with *Imperium*, Robert Harris again turns Roman history into a gripping thriller as Cicero faces a new power struggle in a world filled with treachery, violence, and vengeance. On the eve of Cicero’s inauguration as consul of Rome, a grisly discovery sends fear rippling through a city already racked by unrest. A young slave boy has been felled by a hammer, his throat slit and his organs removed, apparently as a human sacrifice. For Cicero, the ill omens of this hideous murder only increase his dangerous situation: elected leader by the people but despised by the heads of the two rival

political camps. Caught in a shell game that leaves him forever putting out fires only to have them ignite elsewhere, Cicero plays for the future of the republic...and his life. There is a plot to assassinate him, abetted by a rising young star of the Roman senate named Gaius Julius Caesar—and it will take all the embattled consul's wit, strength, and force of will to stop the plot and keep Rome from becoming a dictatorship.

At the nexus of high finance and sophisticated computer programming, a terrifying future may be unfolding even now. Dr. Alex Hoffmann ’ s name is carefully guarded from the general public, but within the secretive inner circles of the ultrarich he is a legend. He has developed a revolutionary form of artificial intelligence that predicts movements in the financial markets with uncanny accuracy. His hedge fund, based in Geneva, makes billions. But one morning before dawn, a sinister intruder breaches the elaborate security of his lakeside mansion, and so begins a waking nightmare of

paranoia and violence as Hoffmann attempts, with increasing desperation, to discover who is trying to destroy him. The Fear Index Simon and Schuster

Fluke Kelso was once a scholar of promise, but like so many in the highly competitive world of academia, he's never delivered. But one night, at a symposium in Moscow concerning the release of secret Soviet archives, he is approached by Papu Rapava, a former Kremlin bodyguard with a story to tell. No one but the desperate Kelso would believe the tale, for what Rapava describes is a sort of Holy Grail among researchers: an actual diary left by Joseph Stalin himself. Such an artifact, if it's genuine -- and if Kelso can survive the fascist Vladimir Mamantov, who wants it for his own agenda -- would be the coup of a lifetime for the discredited

researcher. Before Kelso can learn the location of the diary, Rapava disappears, and Kelso's search for the former bodyguard leads him to the man's daughter, a whore selling herself in the new Moscow of drugs, corruption, and the Russian mafia. With an unscrupulous American journalist hot on their heels, a major of the new KGB close behind, and the shadowy Mamantov following them all, the two follow a trail that leads from Moscow's seedy underbelly to the industrial city of Archangel, where Russia once built her fleets of submarines, to a remote camp on the edge of the Siberian nothingness, and finally to a shocking conclusion that bites like the wind blowing off the tundra. What Kelso sees as the coup of his career might turn out to be the catalyst for an actual coup in Russia. There is a legacy behind the diary, a legacy of evil and death, and Fluke Kelso is unwittingly about to unleash it on the world.
