F1 Auto Cars | New Car Parallel Importer Singapore - sgCarMart

Fundamentally, Formula One cars are no different than the Chevy parked out in your garage. They use internal combustion engines and have transmissions, suspensions, wheels and brakes. But that's where the similarity ends. Formula One cars aren't designed for casual driving or cruising down the interstate. Everything about them is tweaked and tooled for one thing and one thing only -- speed.

Aerodynamics. A Formula One race car is defined as much by its aerodynamics as it is by its powerful engine. That's because any vehicle traveling at high speed must be able to do two things well: reduce air resistance and increase downforce. Formula One cars are low and wide to decrease air resistance.
