"Terrifying...  
Eloquent... A  
heart-rending  
drama of  
human  
yearning."

—New York  
Times In April  
1992 a young  
man from a  
well-to-do  
family  
hitchhiked to  
Alaska and  
walked alone  
into the  
wilderness  
north of Mt.  
McKinley. He  
had given  
\$25,000 in  
savings to  
charity,

abandoned his  
car and most of  
his  
possessions,  
burned all the  
cash in his  
wallet, and  
invented a new  
life for himself.  
Four months  
later, his  
decomposed  
body was found  
by a moose  
hunter. How  
Christopher  
Johnson  
McCandless  
came to die is  
the  
unforgettable  
story of Into

both Arizona and Florida. Drivers age 80 to 89 years in both states are most likely at-fault in collisions compared to all other age cohorts. These results are consistent among drivers cited for collision involvement due to visual defects. These findings, which span an 11-year period from 1991 to 2001, not only apply to Arizona and Florida, two states with some of the largest proportions of older individuals in the United States, but, as a global survey of motor vehicle bureau directors or their representatives in the United States, Commonwealth of Puerto Rico, United Kingdom, Canada, New Zealand, and Australia illustrate, any state, country, province, territory, commonwealth, or nation with an increasing number of older drivers. A pilot study, to follow, ultimately allows for the implementation of effective strategies for screening of visual impairment

---

and eye disease in all Arizona drivers. Snellen acuity, the most widely used vision testing measure, accounts for less than 0.1% of the visual field and fails to quantify contrast sensitivity and color vision (Fink and Sadun, 2004), two of several visual parameters needed for safe driving. It

is recommended that at-risk and older drivers in Arizona be tested for vision through a newly designed system of measures provided by two automated tests (to test vision condition and function) and one driving simulator (to assess eye status). Hence, it is integrated

into a larger system and additional recommendations are provided as these relate to motor vehicle operation skills and cognition. These automated systems and methodologies may ultimately serve as a prototype of transportation license testing improvements for all other states, countries,

---

and agencies (e.g., aviation, rail, maritime, commercial vehicles, etc.) to follow. Such techniques may also reduce the incidence of fraudulent schemes and issuances of driver's licenses, commercial driver's licenses, and hazardous materials transportation licenses. *300 Questions and Answers*

Independently Published Features of Nevada Real Estate License Exam Prep (NV-RELEP): National Principles & Law Key Point Review (60 pages) Real Estate Math Key Formula Review &

Practice (20 pages) Nevada-Specific Laws and Regulations Key Point Review (20 pages) National Practice Tests (500 questions) Nevada Practice Tests (140 questions) Nevada Simulation Exam (100 questions) We know the real estate licensing exam can be tough, and very nerve-racking to prepare for. That's why we created the

---

Nevada Real Estate License Exam Prep (NV-RELEP) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works - or fails to work. NV-RELEP is comprehensive in that it contains both key content review and testing practice. And the text review is Nevada-specific - not just

simplistic national content, but terse, relevant and accurate Nevada laws and regulations presented as a well-organized set of state 'key point reviews' ideal for pre-test memorization. But let's not dismiss the importance of the national content either. NV-RELEP's national key point reviews are a succinct compression

of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate Practice - one of the most widely used principles textbooks in the country. Finally, our national content, as well as our question

---

selection, is further tailored to the state testing outline promulgated by Pearson Vue for Nevada. Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state's testing service and your Nevada license exam. A word about the test questions... NV-RELEP's testing practice

section consists of ten national practice tests, three state practice tests, and one state exam simulation test. The practice tests are roughly 50 questions in length and the simulation test is 100 questions. The test questions are designed to cover the content covered by the law reviews - which

reinforces your learning of the total body of information tested by your state exam. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief

---

explanation, or "rationale" to further reinforce your understanding . In the end, as you know, it's all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready.

Following that, the most we can do is wish you the best of success in taking and passing your Nevada real estate exam. So good luck!!
