Since the late 1950s, the engineering job market in the United States has been fraught with fears of a shortage of engineering skill and talent. U.S. Engineering in a Global Economy brings clarity to issues of supply and demand in this important market. Following a general overview of engineering-labor market trends, the volume examines the educational pathways of undergraduate engineers and their entry into the labor market, the impact of engineers working in firms on productivity and innovation, and different dimensions of the changing engineering labor market, from licensing to changes in demand and guest worker programs. The volume provides insights on engineering education, practice, and careers that can inform educational institutions, funding agencies, and policy makers about the challenges facing the United States in developing its engineering workforce in the global economy.

Meet Babette. A beloved family dog who is part guardian angel and part amazing psychic who guides her pack (family) through the pitfalls of life with courage and self sacrifice. This book is one whose time has come as Babette demonstrates newly proven canine abilities like predicting earthquakes, forecasting seizures, heralding low blood sugar levels, and diagnosing breast cancer. Babette joins the ranks of therapy/service dogs who serve their humans as seizure response dogs, dogs who are trained to monitor blood sugar levels and those that calm anxiety to promote wellness and healing. While these remarkable abilities are now well documented, Babette goes a step or two further and is possessed of some almost magical powers. Barbettes Pack puts committed marriage, mother hood, therapy dogs, and patriotism back on the map. It is a true family book that is hilarious, scary, and inspirational dedicated to dog lovers everywhere.
