These

principles reflect decades of experience and validated scientific knowledge. An Army leader is able and willing to act decisively, within superior leaders' intent and purpose, and in the organization's best interests. Army leaders recognize that organizations, built on mutual trust and confidence, accomplish missions. Every member of the Army,

Leaders do not just lead subordinates- they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority. [Design Recommendations for Intelligent Tutoring Systems: Volume 7 - Self-Improving Systems](#) Lorenz Educational Press Digitization is the future of the Army. However, along with

digitization come training and personnel implications. This report discusses training issues associated with digitization, specifically those that address a need to train and maintain backup along with digital skills. Backup skills are the individual and collective skills required when digital systems are degraded or unavailable. The study focused on the digital M1A2 Abrams Main Battle training program as an exemplar. Lessons learned about digital and backup training requirements should be applied in the M2A3 training program. The study

investigated issues that are applicable to a wide range of digital applications and training conditions. The study examined individual and collective tasks that support tank operations and found both digital and backup tasks to be poorly defined, particularly in collective performance. A method for analysis is described and analytic results reported. The study also outlines the current state of training armor and infantry soldiers and the impact that increased digitization may have on training pipelines. The study employed a series of expert groups to define issues

and formulate recommendations. These groups included users, developers, researchers, and trainers with a wide spectrum of experience and viewpoints. Expert group results are reported and include 15 primary issues and accompanying recommendations. Test Prep for CCSS Performance Tasks, Grade 8 Carson-Dellosa Publishing
