Designed by leading educators, the product line covers a range of subjects including mathematics, sciences, language arts, social studies, history, government, fine arts, and character.

Design Recommendations for Intelligent Tutoring Systems: Volume 4 - Domain Modeling U.S. Army Combat Capabilities Development Command - Soldier Center

Design Recommendations for Intelligent Tutoring Systems (ITSS) explores the impact of intelligent tutoring system design on education and training. Specifically, this volume examines "Domain Modeling". The "Design Recommendations book series examines tools and methods to reduce the time and skill required to develop Intelligent Tutoring Systems with the goal of improving the Generalized Intelligent Framework for Tutoring (GIFT). GIFT is a modular, service-oriented architecture developed to capture simplified authoring techniques, promote reuse and standardization of ITSS along with automated instructional techniques and effectiveness evaluation capabilities for adaptive tutoring tools and methods.

Common Core Connections: Language Arts is the perfect tool for helping second grade students master Common Core English Language Arts skills. The Common Core Standards for English Language Arts in second grade focus on many areas including: determining the lesson or moral of a story, retelling key information or ideas, and writing stories with a clear sequence of events. This resource provides focused practice pages for targeting and reinforcing these and other second grade language arts skills while helping students connect comprehension with knowledge and application. Connecting the standards to content has never been easier with the Common Core Connections series for Language Arts. The Common Core Connections series provides teachers with the skill assessments to help determine individualized instruction needs. Focused, comprehensive practice pages and self-assessments guide students to reflection and exploration for deeper learning! Grade specific coherent content progresses in difficulty to achieve optimum fluency. It is also an ideal resource for differentiation and remediation. Each 96-page book includes an assessment test, test analysis, Common Core State Standards Alignment Matrix, and answer key.

Spectrum Language Arts and Math: Common Core Edition for Grade 2 helps parents understand Common Core standards and helps students master essential Common Core skills. Engaging practice pages and sturdy flash cards help students with main ideas, vocabulary, skip-counting, estimating, and more. Spectrum Language Arts and Math: Common Core Edition helps take the mystery out of current academic standards for busy parents. This unique resource for kindergarten to grade 5 provides easy-to-understand overviews of Common Core learning standards for each grade level. Each title includes more than 100 skill-building practice pages and more than 100 sturdy cut-apart flash cards. The handy cards make it easy to review important skills quickly at home or on the go. You will find all of the focused, standards-based practice your child needs to succeed at school this year.

Standardization of Common Core Tests Solution Tree Press

This book on self-improving systems is the seventh in a planned series of books that examine key topics (e.g., learner modeling, instructional strategies, authoring, domain modeling, assessment, impact on learning, team tutoring, self-improving systems, data visualization) in intelligent tutoring system (ITS) design. This book focuses on self-improving systems. The discussion chapters in this book examine topics through the lens of the Generalized Intelligent Framework for Tutoring (GIFT). GIFT is a modular, service-oriented architecture created to reduce the cost and skill required to author ITSS, distribute ITSS, manage instruction within ITSS, and evaluate the effect of ITS technologies on learning, performance, retention, transfer of skills, and other instructional outcomes.

Spectrum Language Arts and Math, Grade 2 US Army Research Laboratory

Comprehensive, timely, and relevant, this text offers an approach to discipline-specific literacy instruction that is aligned with the Common Core State Standards and the needs of teachers, students, and secondary schools across the nation. It is essential that teachers know how to provide instruction that both develops content and literacy knowledge and skills, and aims at reducing student achievement gaps. Building on the research-supported premise that discipline-specific reading instruction is key to achieving these goals, this text provides practical guidance and strategies for prospective and practicing content area teachers (and other educators) on how to prepare all students to succeed in college and the workforce. Pedagogical features in each chapter engage readers in digging deeper and in applying the ideas and strategies presented in their own contexts: Classroom Life (real 6-12 classroom scenarios and interviews with content-area teachers) Common Core State Standards Connections College, Career, and Workforce Connections Applying Discipline-Specific Literacies Think Like an Expert ("habits of thinking and learning" specific to each discipline) Digital Literacies Differentiating Instruction Reflect and Apply Questions Extending Learning Activities The Companion Website includes: Lesson plan resources Annotated links to video files Annotated links to additional resources and information Glossary/Flashcards For Instructors: All images and figures used in the text provided in an easily downloadable format For Instructors: PowerPoint lecture slides

Test Prep for CCSS Performance Tasks, Grade 8

This report provides a catalog of selected research and development (R&D) products produced between 1985-1998 by the U.S. Army Research Institute (ARI) for the Reserve Component (RC) (i.e., Army National Guard and Reserve). The catalog contains seven chapters. The first describes ARI and its mission, and then the RC, its organization and strength, and how its operational environment differs from that of the Active Component (AC). The next two describe products that use training aids, devices, simulators, and simulations (TADSS) to overcome individual/crew (Chapter 2) and unit/battle staff (Chapter 3) training time constraints. Chapter 4 talks about products designed to bring geographically dispersed soldiers closer together via distance learning. Chapter 5 describes the results of our efforts to understand and predict RC soldier attrition. Chapter 6 tells what we know about RC soldiers' reactions to being called up for deployment, and the feasibility of using a composite AC/RC unit for peacekeeping missions. The final chapter concludes with what we think is the payoff from the products described. The catalog's product summaries include why, how, and with/for whom work was done, what was found/developed, what the conclusions/implications are, and where more information can be found. In doing so, we hope to reveal not only what ARI has done up until now, but also the scope of what it is capable of doing in the future, to support RC R&D product needs of the 21st Century.

Market Analysis of Erosion Control Mats

Because the Common Core requires bold action Why The Common Core, an Uncommon Opportunity? Why now? Because it tackles a largely overlooked component of implementation: how to redesign your instructional delivery system, K-12. And you'll have to; if you don't, you'll be subject to the very same failure and frustration so many other districts and schools are experiencing. What's more, March and Peters describe how to integrate 21st Century Skills at the very same time. It will help district leaders Develop structured, consistent, and organized teaching and learning practices Make district-wide infrastructure adjustments for sustained reform Use best practices for sustained achievement and continuous curriculum review

Design Recommendations for Intelligent Tutoring Systems: Volume 7 - Self-Improving Systems

Helping Your Child Succeed in Sixth Grade: A Parent's Guide to the Common Core Schools across America are rolling out new, more rigorous curricula in order to meet the demands created by a new set of English and Mathematics standards – known nationally as the Common Core State Learning Standards. You can expect to see a number of changes in your child's sixth grade class. In English, students will now read more Informational Texts. This type of passage provides facts and often deals with current events, science, and social studies. In addition, questions posed about these readings will ask students to find evidence and use it to formulate an argument. In order to master new Literacy standards, students will need a larger and stronger vocabulary to allow them to both tackle complex readings and write acceptable arguments. In Mathematics, students will spend more time developing their understanding of specific and important math concepts. Students will be expected to both demonstrate understanding of each topic and apply their mathematical skills to real-world situations. As a parent, it is important not only to understand the new standards, but also to have the tools to help your child do his or her best in school. This book is designed to provide you with the guidance and resources to support classroom learning and help your child succeed. It includes: An annotated review of the standards highlighting what your child should master during third grade 20 Important lessons that you can do – together with your child – to support them as they progress through the school year A Vocabulary section designed to make sure your child masters the most important academic words 200+ practice questions to improve your child's skills Diagnostic quiz and 20+ mini-quizzes to check for understanding

Military Review

Explore strategies for integrating the Common Core State Standards for English language arts for grades 3–5 in this interdisciplinary resource, which focuses on areas of instruction, curriculum, assessment, and intervention. You'll also learn how to implement the CCSS within the powerful PLC at Work™ process. Critical chapter-opening questions guide discussion and help you leverage the CCSS to optimize student learning.
