Evolution of the Earth Ballantine Books
Drawing on more than 40 years of experience conducting applied social science research and program evaluation, author Michael Quinn Patton has crafted the most comprehensive and systematic book on qualitative research and evaluation methods, inquiry frameworks, and analysis options available today. Now offering more balance between applied research and evaluation, this Fourth Edition of *Qualitative Research & Evaluation Methods* illuminates all aspects of qualitative inquiry through new examples, stories, and cartoons; more than a hundred new summarizing and synthesizing exhibits; and a wide range of new highlight sections/sidebars that elaborate on important and emergent issues. For the first time, full case studies are included to illustrate extended research and evaluation examples. In addition, each chapter features an extended "ruminations," written in a voice and style more emphatic and engaging than traditional textbook style, about a core issue of persistent debate and controversy.

Art across Time combines sound scholarship, lavish visuals, and a lively narrative to provide students with a comprehensive, accessible, and engaging introduction to Art History. Popular with majors and non-majors alike, the text offers readers more than a chronology of art by placing each work within the time-and-place context within which it was created. Encountering and interpreting a work of art in context offers the reader the richest possible experience of it. Large scale and high quality visual reproductions of artworks are often presented from multiple perspectives to enhance visual appeal and allow students to view details and elements of composition with greater ease. A thoughtful pedagogical approach helps students consider what they are viewing.

The second edition of this best-selling Python book (over 500,000 copies sold!) uses Python 3 to teach even the technically uninclined how to write programs that do in minutes what would take hours to do by hand. There is no prior programming experience required and the book is loved by liberal arts majors and geeks alike. If you've ever spent hours renaming files or updating

hundreds of spreadsheet cells, you know how tedious tasks like these can be. But what if you could have your computer do them for you? In this fully revised second edition of the best-selling classic Automate the Boring Stuff with Python, you'll learn how to use Python to write programs that do in minutes what would take you hours to do by hand--no prior programming experience required. You'll learn the basics of Python and explore Python's rich library of modules for performing specific tasks, like scraping data off websites, reading PDF and Word documents, and automating clicking and typing tasks. The second edition of this international fan favorite includes a brand-new chapter on input validation, as well as tutorials on automating Gmail and Google Sheets, plus tips on automatically updating CSV files. You'll learn how to create programs that effortlessly perform useful feats of automation to:

- Search for text in a file or across multiple files
- Create, update, move, and rename files and folders
- Search the Web and download online content
- Update and format data in Excel spreadsheets of any size
- Split, merge, watermark, and encrypt PDFs
- Send email responses and text notifications
- Fill out online forms

Step-by-step instructions walk you through each program, and updated practice projects at the end of each chapter challenge you to improve those programs and use your newfound skills to automate similar tasks. Don't spend your time doing work a well-trained monkey could do. Even if you've never written a line of code, you can make your computer do the

grunt work. Learn how in Automate the Boring Stuff with Python, 2nd Edition.

The definitive guide to getting your way, revised and updated with new material on writing, speaking, framing, and other key tools for arguing more powerfully “Cross Cicero with David Letterman and you get Jay Heinrichs.”—Joseph Ellis, Pulitzer Prize-winning author of *The Quartet* and *American Sphinx* Now in its fourth edition, Jay Heinrichs’s *Thank You for Arguing* is your master class in the art of persuasion, taught by history’s greatest professors, ranging from Queen Victoria and Winston Churchill to Homer Simpson and Barack Obama. Filled with time-tested secrets for emerging victorious from any dispute, including Cicero’s three-step strategy for inspiring action and Honest Abe’s Shameless Trick for lowering an audience’s expectations, this fascinating book also includes an assortment of persuasion tips, such as:

- The Chandler Bing Adjustment: Match your argument to your audience (that is, persuasion is not about you).
- The Belushi Paradigm: Before people will follow you, they have to consider you worth following.
- The Yoda Technique: Transform a banal idiom by switching the words around.

Additionally, Heinrichs considers the dark arts of persuasion, such as politicians’ use of coded language to appeal to specific groups. His sage guide has been fully updated to address our culture of “fake news” and political polarization. Whether you’re a lover

of language books or just want to win more anger-free arguments on the page, at the podium, or over a beer, *Thank You for Arguing* is for you. Warm, witty, and truly enlightening, it not only teaches you how to identify a *paraleipsis* when you hear it but also how to wield such persuasive weapons the next time you really, really need to get your way. This expanded edition also includes a new chapter on how to reset your audience’s priorities, as well as new and improved *ArgueLab* games to hone your skills.

The Framework, an official AOTA document, presents a summary of interrelated constructs that define and guide occupational therapy practice. The Framework was developed to articulate occupational therapy’s contribution to promoting the health and participation of people, organizations, and populations through engagement in occupation. The revisions included in this second edition are intended to refine the document and include language and concepts relevant to current and emerging occupational therapy practice. Implicit within this summary are the profession’s core beliefs in the positive relationship between occupation and health and its view of people as occupational beings. Numerous resource materials include a glossary, references and a bibliography, as well as a table of changes between the editions.
