It is a great pleasure to share with you the Springer CCIS 111 proceedings of the Third World Summit on the Knowledge Society– – WSKS 2010– – that was organized by the International Scientific Council for the Knowledge Society, and supported by the Open Research Society, NGO, (http://www.open-knowledge-society.org) and the Int- national Journal of the Knowledge Society Research, (http://www.igi-global.com/ijksr), and took place in Aquis Corfu Holiday Palace Hotel, on Corfu island, Greece, September 22– 24, 2010. The Third World Summit on the Knowledge Society (WSKS 2010) was an inter- tional scientific event devoted to promoting the dialogue on the main aspects of the knowledge society towards a better world for all. The multidimensional economic and social crisis of the last couple years brings to the fore the need to discuss in depth new policies and strategies for a human-centric developmental process in the global c- text. This annual summit brings together key stakeholders of knowledge society dev- opment worldwide, from academia, industry, government, policy makers, and active citizens to look at the impact and prospects of it information technology, and the knowledge-based era it is creating, on key facets of living, working, learning, innovating, and collaborating in today' s hyper-complex world.

The theme of the 4th International Workshop on Learning Software Organizations (LSO 2002) was "BalancingAgile Processes and Long-Term Learning in Software - ganizations."The LSOWorkshop series focuses on technical, organizational, and social solutions to problems of learning from past experiences and codifying the resulting best practicessotheycanbesystematicallyusedinsubsequentsoftwaredevelopme ntefforts. Through paper presentations, panels, and discussions, the workshop explored the issues of managing knowledge in dynamic domains requiring signi?cant differences betweenorganizationsandbe tweenprojects.Challengesdiscussedrangedfromrealistic assumptions on the added documentation burden LSO techniques may require to how effectively repositories have been used in the past to the team and social issues involved in applying solutions created by others. Experience-based approaches were discussed extensively and some reports of initial successes were given along with some instances where the experience base was underutilized. Enabling organizational learning involves more than repositories, search engines, and training. At its core, it involves creating new work practices that value current practices while searching for improvements. The issues involved are both technical and behavioral ,aseffectivetechnologymayenticeutilization,butexperiencehasshownth at other factors weigh in just as heavily. There are currently no profound or ?nal answers on these questions, nor are they expected for some time to come, if at all. Hence the need for continued research into these dif?cult issues. This workshop, and others to follow hope to begin to shed light on the issues so an effective and fruitful dialog can begin that can lead to signi?cant contributions to the software engineering and knowledge management ?elds, amongst others.

In an effort to increase its marketshare and threat to Windows NT, Oracle8 was ported to Linux in late 1998, opening the popular database to an additional 10 million Linux users worldwide. The availability of Oracle8 enables current Linux users to deploy enterprise-class applications at low cost and provides an alternative to Microsoft Windows NT. This book covers that marriage of the most popular database and the fastest growing operating system. * Complete coverage. Covers both Oracle8i and Oracle8i Lite, as well as Oracle Applications, Oracle Applications Server, and Oracle Developer * Organizations and Oracle database administrators will be looking for information on Linux as is gets adopted - this book fits the bill * Covers two growth markets and fills a need for information not covered elsewhere
