People in Merit, Wisconsin, always said Jimmy was . . . you know. But people said all sorts of stupid stuff. Nobody really knew anything. Nobody really knew Jimmy. I guess you could say I knew Jimmy as well as anyone (which was not very well). I knew what scared him. And I knew he had dreams—even if I didn't understand them. Even if he nearly ruined my life to pursue them. Jimmy's dead now, and I definitely know that better than anyone. I know about blood and bone and how bodies decompose. I know about shadows and stones and hatchets. I know what a last cry for help sounds like. I know what blood looks like on my own hands. What I don't know is if I can trust my own eyes. I don't know who threw the stone. Who swung the hatchet? Who are the shadows? What do the living owe the dead?

*Drowning Instinct* Simon and Schuster

A YA romance—with a sparkling commercial voice and a dash of science—that explores a relationship over six years. The moment Spencer meets Hope the summer before seventh grade, it's something at first sight. The pair become fast friends, climbing trees and planning world travels. After years of being outshone by his older brother and teased because of his Tourette syndrome, Spencer finally feels like he belongs. But as

Hope and Spencer get older and life gets messier, the clear label of “friend” gets messier, too. Through sibling feuds and family tragedies, new relationships and broken hearts, the two grow together and apart, and Spencer, an aspiring scientist, tries to map it all out using his trusty system of taxonomy. He wants to identify and classify their relationship, but in the end, he finds that life doesn't always fit into easy-to-manage boxes, and it's this messy complexity that makes life so rich and beautiful.

There are stories where the girl gets her prince, and they live happily ever after. (This is not one of those stories.) Jenna Lord's first sixteen years were not exactly a fairy tale. Her father is a

controlling psycho and her mother is a drunk. She used to count on her older brother—until he shipped off to Iraq. And then, of course, there was the time she almost died in a fire. There are stories where the monster gets the girl, and everyone cries for his innocent victim. (This is not one of those stories either.) Mitch Anderson is many things: A dedicated teacher and coach. A caring husband. A man with a certain...magnetism. And there are stories where it's hard to be sure who's a prince and who's a monster, who is a victim and who should live happily ever after. (These are the most interesting stories of all.) Drowning Instinct is a novel of pain, deception, desperation, and love against the odds—and the rules.

Far off the coast of California looms a harsh rock known as the island of San Nicholas. Dolphins flash in the blue waters around it, sea otter play in the vast kelp beds, and sea elephants loll on the stony beaches. Here, in the early 1800s, according to history, an Indian girl

spent eighteen years alone, and this beautifully written novel is her story. It is a romantic adventure filled with drama and heartache, for not only was mere subsistence on so desolate a spot a near miracle, but Karana had to contend with the ferocious pack of wild dogs that had killed her younger brother, constantly guard against the Aleutian sea otter hunters, and maintain a precarious food supply. More than this, it is an adventure of the spirit that will haunt the reader long after the book has been put down. Karana's quiet courage, her Indian self-reliance and acceptance of fate, transform what to many would have been a devastating ordeal into an uplifting experience. From loneliness and terror come strength and serenity in this Newbery Medal-winning classic. The Frost Eater Delacorte Press

There are things the people of Winter,

Wisconsin, would rather forget. The year the Nazis came to town, for one. That fire, for another. But what they'd really like to forget is Christian Cage. Seventeen-year-old Christian's parents disappeared when he was a little boy. Ever since, he's drawn obsessively: his mother's face...her eyes...and what he calls "the sideways place," where he says his parents are trapped. Christian figures if he can just see through his mother's eyes, maybe he can get there somehow and save them. But Christian also draws other things. Ugly things. Evil things. Dark things. Things like other people's fears and nightmares. Their pasts. Their destiny. There's one more thing the people of Winter would like to forget: murder. But Winter won't be able to forget the truth, no matter

how hard it tries. Not as long as Christian draws the dark...

**NOW A MAJOR MOTION PICTURE** •

Set in the near-future, *Into the Forest* is a powerfully imagined novel that focuses on the relationship between two teenage sisters living alone in their Northern California forest home. Over 30 miles from the nearest town, and several miles away from their nearest neighbor, Nell and Eva struggle to survive as society begins to decay and collapse around them. No

single event precedes society's fall. There is talk of a war overseas and upheaval in Congress, but it still comes as a shock when the electricity runs out and gas is nowhere to be found. The sisters consume the resources left in the house, waiting for the power to return. Their arrival into adulthood, however, forces them to reexamine their place in the world and their relationship to the land and each other. Reminiscent of Margaret Atwood's *A Handmaid's Tale*, *Into the Forest* is a mesmerizing and thought-provoking novel of hope and despair set in a frighteningly plausible near-future America. Praise for *Into the Forest* “ [A] beautifully written and often profoundly moving novel. ” —San Francisco Chronicle “ A work of extraordinary power, insight and lyricism, *Into the Forest* is both an urgent warning and a passionate celebration of life and
