**Assertiveness Training** Communication Excellence

Isn't it time you took a stand? Many women struggle with assertiveness, but if you're prone to anxiety and avoidance, it is especially difficult. Grounded in attachment theory, this essential guide will help you identify your thoughts and feelings, balance your emotions, communicate your needs, and set healthy boundaries to improve your life. When you're assertive, you're able to communicate your needs and wishes clearly while respecting yourself and anyone else involved in the interaction. But when you aren't assertive, you may stop yourself from saying anything when your needs aren't being met, or end up lashing out in hostile or

hurtful ways. People with different attachment styles struggle with being assertive for different reasons, and even women with a secure attachment style may have difficulty expressing emotion when faced with challenging circumstances. Using strategies based in mindfulness, cognitive behavioral therapy (CBT), and dialectical behavior therapy (DBT), *The Assertiveness Guide for Women* can help you understand the attachment styles that keep you from asserting yourself. You'll learn about the three communication stances—from the passive Doormat to the aggressive (or passive-aggressive) Sword to the assertive Lantern—and find practical examples that show you how to apply your new communication and emotional awareness skills in your own life. Rather than being caught in a cycle of rumination and regret when you're unable to express yourself or even acknowledge your own needs, you'll be ready to assert yourself and get what you want. Whether you're anxious and overwhelmed by the intensity of your emotions, avoidant and struggle to identify your emotions, or otherwise have difficulty expressing yourself, this book will help you become more aware of your own thoughts and feelings, and empower you to ask for what you need, set boundaries, and speak your truth for a more fulfilling life.

In this wonderful book he teaches us how to say No—with grace and effect—so that we might create an even better Yes." —Jim Collins, author of *Good to Great* No is perhaps the most important and certainly the most powerful word in the language. Every day we find ourselves in situations where we need to say No—to people at work, at home, and in our communities—because No is the word we must use to protect ourselves and to stand up for everything and everyone that matters to us. But as we all know, the wrong No can also destroy what we most value by alienating and angering people. That's why saying No the right way is crucial. The secret to saying No without destroying relationships lies in the art of the Positive No, a proven technique that anyone can learn. This indispensable book gives you a simple three-step method for saying a Positive No. It will show you how to assert and defend your key interests; how to make your No firm and strong; how to resist the other side's aggression and manipulation; and how to do all this while still getting to Yes. In the end, the Positive No will help you get not just to any Yes but to the right Yes, the one that truly serves your interests. Based on William Ury's celebrated Harvard University course for managers and professionals, *The Power of a Positive No* offers concrete advice and practical examples for saying No in virtually any situation. Whether you need to say No to your customer or your coworker, your employee or your CEO, your child or your spouse, you will find in this book the secret to saying No clearly, respectfully, and effectively. Please note: This is a companion version & not the original book. Sample Book Insights: #1 Assertiveness is about being there, not about building a good disguise. It is about developing the courage to take the disguise off and be yourself in a way that doesn't push others off-stage. #2

Assertiveness is all about being there. It is about exposing your flaws, irrational emotions, and strange preferences to others. It is not about forcing others to accept you, but about inviting them to accept you as well. #3 If you are looking for a way to be more assertive, realize that you will have to put in the time and effort to change your behavior. It may be difficult, but it will be worth it in the long run. #4 Record your practice sessions and play them back. Then you can evaluate your style. This is easier than trying to express yourself and evaluate your performance at the same time.

Paterson uses his trademark wit and irony to help you tackle the most common roadblocks that stand in the way of successful "adulting." Are you living in your parent's basement?
