Inventory vs Asset Management: What's The Difference? | SCORE
8. Good asset inventory management practices will save you money. “When you have a solid inventory system you'll know exactly how much product you have, and based on sales you can project when you'll run out and make sure you replace it on time. Not only does this help ensure you don't lose sales (critical for cash flow), but it also lets you plan ahead for buying more so you can ensure you have enough cash set aside.”
