The Jaguar XK was launched to great acclaim in 1996 as the successor to the XJS. Jaguar's XK sports models were produced from 1996 to 2014 in two distinct forms: the original steel-bodied XK, and, in 2005, the advanced technology aluminium-bodied New XK. Highly significant for Jaguar, these cars reintroduced the world to Jaguar sports car motoring and, in doing so, echoed the success of previous icons, such as the E-type. The original edition of this book covered just the X-100 (original series) XKs from 1996 through to 2005. This edition, now in paperback, brings the story up to date with the X-150 alloy-bodied cars, from 2006 through to the end of production in 2014. A significantly enlarged work, packed with information and over 130 additional full-colour pictures, this fascinating book is essential reading for all XK owners, prospective owners and enthusiasts — the perfect XK 'handbook.'

Jihad vs. McWorld is a groundbreaking work, an elegant and illuminating analysis of the central conflict of our times: consumerist capitalism versus religious and tribal fundamentalism. These diametrically opposed but strangely intertwined forces are tearing apart—and bringing together—the world as we know it, undermining democracy and the nation-state on which it depends. On the one hand, consumer capitalism on the global level is rapidly dissolving the social and economic barriers between nations, transforming the world's diverse populations into a blandly uniform market. On the other hand, ethnic, religious, and racial hatreds are fragmenting the political landscape into smaller and smaller tribal units. Jihad vs. McWorld is the term that distinguished writer and political scientist Benjamin R. Barber has coined to describe the powerful and paradoxical interdependence of these forces. In this important new book, he explores the alarming repercussions of this potent dialectic for democracy. A work of persuasive originality and penetrating insight, Jihad vs. McWorld holds up a sharp, clear lens to the dangerous chaos of the post-Cold War world. Critics and political leaders have already heralded Benjamin R. Barber's work for its bold vision and moral courage. Jihad vs. McWorld is an essential text for anyone who wants to understand our troubled present and the crisis threatening our future.

For almost a century, Carrozzeria Bertone has created some of the most sensational models in automotive history. The extraordinary concept cars such as the B.A.T.Mobiles, the Testudo, the Canguro, the Carabo and the futuristic Stratos — to mention but a few — were joined by iconic sports cars, such as the numerous Lamborghini Miuras, Marzals, Espadas and Countachs and the Alfa Romeo Montreal, as well as more “down-to-earth” cars that went into mass production. This last category features the Alfa Romeo Giulietta Sprint, the Fiat X1/9 and the Nuova Mini Innocenti along with the many Citro è ns designed between the late 1980s and early 2000s.

These are just a few of the models featured in the extensive and varied Bertone catalogue to which great designers of the calibre of Giorgetto Giugiaro and Marcello Gandini have contributed. In-depth historical contextualization by Luciano Greggio, a great connoisseur of the Bertone marque, and a magnificent collection of photographs make up this latest volume in the series Masterpieces of Style.

Quantum Jump was written for individuals trying to make sense of the rapid social and political changes overtaking their lives. Clement explains how our civilization is undergoing a translation similar to the European Renaissance, the development of managed agriculture or the invention of writing. Each of these eras brought about new world-views and broadened the intellectual scope through which we perceive our world. The Renaissance was triggered by the discovery of perspective OCo the means to manipulate three dimensions OCo and implemented by the bill of exchange and new mathematics. Our newest era began in 1900 with the discovery that the universe exists in many more than three dimensions. Exploration of this realm via mathematics and computers will drive the immediate future. This is a guide to surviving the jump from the industrial age to the onrushing era of hyperspace. The changes wrought by this era transition are already formidable OCo the rise of global capitalism and new industries, the collapse of the Soviet Union OCo but they are only the beginning. History shows that era transitions are juggernauts, imposing massive individual, cultural and social adaptation. Clement analyzes current responses, from retreats into tribalism to the erection of a "New World Order" of global corporatism and trading blocs; he concludes that neither is viable. Instead, he points to skills like tangential and lateral thinking that will better equip individual readers with the points of view required in tomorrow's world."

The Series III Land Rovers enjoyed a long production run of nearly fifteen years, taking over from the Series IIA types in 1971. The book follows its predecessor, Land Rover Series II and IIA Specification Guide, in trying to establish how its subject vehicles would have been when they were new. Compiled over a period of more than thirty years, the book draws on extensive reference material from Land Rover itself, and on the observations and knowledge of an army of enthusiasts. The complete specification guide to Series III Land Rovers, produced from 1971 to 1985 covers: Vehicle identification and specification changes. Options on standard models and special equipment. Conversions and Forward Control models. Overseas models and markets. Military and Lightweight models. [Jaguar XK8 and XKR](#) Crowood Press UK

Daniel Craig contributed the foreword to this deluxe book that — in words and stunning photos — tells the history of 007's Aston Martin DB5. James Bond first took the wheel of the DB5 in Goldfinger (1963), redefining the action movie forever, and setting a standard for everything that followed. Over the ensuing decades, the Bond-Aston Martin association has only grown stronger. They're the perfect match: understated, stylish, powerful, and not to be underestimated. This book spans that... bond, starting in 1963, when the DB5 was brand-new, to the upcoming 25th Bond film, No Time to Die, with the DB5 again taking center stage. EON and Aston Martin provided author Simon Hugo unprecedented access to their official archives, enabling Hugo to present the DB5's inside story and complement it with original production artwork, film storyboards, and exclusive photography. This deluxe coffee-table book measures 11" x 12 1/2" and is packed with full-page, high-quality photographs, including multiple shots illustrating the DB5's appearance in No Time to Die, making it the ideal gift for James Bond fans.
