It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume

addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the European Journal of Social Work.

Dementia and Alzhiemers coloring in book  
In recent years, the health benefits of coloring have been explored and studied. Seniors, especially those with dementia and alzhiemers, greatly benefit from neurological stimulation, and coloring in is one of the ways to achieve this much needed brain exercise. The benefits found throughout numerous studies may include: Reduction of stress and anxiety Improved motor skills and vision Improved sleep and focus Decision making skills It is important to note however, that different activities will work and be favoured by those with dementia differently - that is - some may love coloring, while others may hate it. This coloring book has been developed specifically for individuals with Dementia and Alzheimers, as well as any other seniors looking for a coloring in activity book. How does this book differ from other coloring books: This book only contains simple shapes and patterns. Rather than being specific objects or animals etc, this book contains shapes and patterns that encourage decision making - How can I make this page look good? Use of thick lines, making it easier for seniors to 'stay in the lines' Each page is repeated twice. For those who use the book in order, carers and family members will be able to track progress (I.e Coloring in may be messy to begin with, but improve throughout the book indicating improvement in cognitive function. Conversely,

coloring in may be clean to begin with, and slowly get less coherent, indicating a decline in your loved ones health and indicating the need for greater assistance and care levels) It is recommended that a schedule is developed with these activities, to provide further structure to your loved one or patient. This may include a certain goal to meet (E.g. 1 Page per day) or an allocated time slot to color in. Consistency is key to improvement. Book Features: 60 Coloring in pages (30 designs repeated twice) Single sided print, allowing for use of texta and ink pen and preventing bleed through White paper Perfect bound book Softcover 8.5 x 11 inch

The Healthy Kitchen Wentworth Press In his bestselling work of "comic sociology," David Brooks coins a new word, Bobo, to describe today's upper class—those who have wed the bourgeois world of capitalist enterprise to the hippie values of the bohemian counterculture. Their hybrid lifestyle is the atmosphere we breathe, and in this witty and serious look at the cultural consequences of the information age, Brooks has defined a new generation. Do you believe that spending \$15,000 on a media center is vulgar, but that spending \$15,000 on a slate shower stall is a sign that you are at one with the Zenlike rhythms of nature? Do you work for one of those visionary software companies where people come to work

wearing hiking boots and glacier glasses, as if a wall of ice were about to come sliding through the parking lot? If so, you might be a Bobo.

Two of America's most popular authorities on healthy eating and cooking join forces in this delectable, inspiring and easy-to-use cookbook. Dr Andrew Weil - author of the best-selling *Eating Well For Optimum Health* - brings to this collaboration a comprehensive philosophy of nutrition grounded in science. Rosie Daley - acclaimed for her best-seller *In The Kitchen With Rosie* - brings to it her innovative and delicious spa cuisine. Lifelong good health begins in the kitchen, so this is a lifestyle book as well as a cookbook. But throughout, *The Healthy Kitchen* emphasizes the pleasure of food - in the writing, in the anecdotes, in the commentaries, in the superb photography (including pictures of the authors at work from garden to table) and in the recipes themselves. With 135 fabulous recipes and invaluable information on what constitutes genuinely healthy eating today, this revolutionary book will change the way you cook for yourself and your family forever.

The tablet PC and similar pen-based devices are being embraced by a wide variety of disciplines as tools for the radical enhancement of teaching and learning. Deployments of Tablet PCs span all the K-12, higher education, and graduate levels and deal with an amazingly diverse range of subject areas, including geology, writing, mathematics, computer science, Japanese language, physics, engineering, business, economics, and technical communications. Despite the diversity of content areas, many deployments generate a singular passion among students and teachers. In April of 2006, a group of educators gathered to exchange ideas at the First

Workshop on the Impact of Pen-based Technology on Education (WIPTE). The editors have selected a subset of papers that were presented at WIPTE for inclusion in this book. The papers have been selected for their broad appeal, diverse content, and insightful evaluations. The collective experiences of these authors will help the reader to identify best practices with regard to the educational use of pen-based computing.
