What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

PC Gamer product guide SUMMER 2008 This book, first published in 1991, examines in detail superpower-client relations in the Middle East. The Middle East, with its protracted and seemingly insoluble conflict and complex patterns of loyalty and hostility, is the ideal setting for the study of such relationships. Using the USSR and Syria, and the USA and Israel as

of superpower influence on client states but also the real constraints on their exercise of that influence. In analysing specific contexts over this period, the authors advance that tension between goals and constraints often favours the client state and that superpower relations are not those of dominance and subordination but bargaining relations in which clients have great leverage.

Frog Hollow Journal is a colorful memoir - peopled with vividly drawn neighbors, family members, and a beloved dog. It is the story of one family's quest to carve out a more authentic life amid the demands of modern society. With self-deprecating humor and the telling detail of a born raconteur, James Fairfield traces a path from his childhood on the Canadian prairie to his transformative experiences on a small farm in Virginia's Shenandoah Valley. James, like many of us, felt overwhelmed by responsibilities, credit limits, and rush hour traffic. After moving to Virginia, however, he began to yield to the countryside's slower cadences and realize that life doesn't have to be so hectic. His musings along the way, and the lessons learned through exploring the Beatitudes, trace his spiritual journey as

well. Anyone, he proposes, can learn to live "Frog Hollow style," practicing integrity, neighborliness, and indomitable faith. Here is an affectionate account, roaming from the pick-up ball games and lively escapades of the author's youth on the plains of Manitoba, Canada, to the honorable inhabitants and timeless traditions of the Shenandoah Valley. His experiences, often humorously humbling and spiritually challenging, are illustrated by Norma's drawings.

AUTHOR BIO James G. T. Fairfield has written in many genres, including a syndicated newspaper column; articles for naturalist publications; and books on conflict resolution, theological studies, and biography. He and his wife, Norma (a gardener, vegetarian cook, and illustrator) live in a century-old farmhouse near Frog Hollow. They have been married for sixty-three years.

This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

Adolescence is a time when youth make decisions, both good and bad, that have consequences for the rest of their lives. Some of these decisions put them at risk of lifelong health problems, injury, or death. The Institute of Medicine held three public workshops between 2008 and 2009 to provide a venue for researchers, health care providers, and community leaders to discuss strategies to improve adolescent health.

Lawrence Lessig, "the most important thinker on intellectual property in the Internet era", masterfully argues that never before in human history has the power to control creative progress been so concentrated in the hands of the powerful few, the so-called Big Media. Never before have the cultural powers- that-be been able to exert such control over what we can and can't do with the culture around us. Our society defends free markets and free speech; why then does it permit such top-down control? To lose our long tradition of free culture, Lawrence Lessig shows us, is to lose our freedom to create, our freedom to build, and, ultimately, our freedom to imagine.

BBC RADIO 4 BOOK OF THE WEEK and INSTANT NEW YORK TIMES BESTSELLER 'Hunger was a constant, reliable friend in Mei Guo. She came second only to loneliness.' In China she was the daughter of professors. In Brooklyn her family is 'illegal.' Qian is just seven when she moves to America, the 'Beautiful Country', where she and her parents find that the roads of New York City are not paved with gold, but crushing fear and scarcity. Unable to speak English at first, Qian and her parents must work wherever they can to survive, all while she battles hunger and loneliness at school. Thus begins an extraordinary story that describes, in vivid colours, days labouring in sweatshops and sushi factories, nights scavenging the streets for furniture, and the terrifying moment when the family emerges from the shadows to seek emergency medical treatment for Qian's mother. Qian Julie Wang's memoir is an unforgettable account

of what it means to live under the perpetual threat of deportation and the small joys and sheer determination that kept her family afloat in a new land. Told from a child's perspective, in a voice that is intimate, poignant and startlingly lyrical, Beautiful Country is the story of a girl who learns first to live - and then escape - an invisible life. 'A powerful, gripping insight into the world of an undocumented migrant in New York . . . beautifully written, with vivid scenes that linger in the mind long after finishing it' Helena Merriman 'A story that needs to be heard. Moving, beautiful, heartbreaking and even funny . . . I never wanted it to end' Philippa Perry 'Deeply compelling . . . I was moved by the love and resilience of this family thrust into darkness. The book casts an urgent light on a reality that extends way beyond America's borders' Hisham Matar, author of A Month in Siena and The Return 'Astonishing . . . In restrained but beautiful prose, Wang honours her family's sacrifices, but alerts us to the urgent realisation that they should not be necessary' Nesrine Malik
