Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-

related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

International Handbook of Health Literacy Asylum Lake Asylum Lake "A taut tale liable to raise significant goosebumps!" -- Ray Walsh, Lansing State Journal "Asylum Lake is a good old-fashioned horror novel - accessible, creepy and eminently readable." -- HorrorNews.net "Few books have the power to send shivers down my spine, but this did. Evans is a brilliant writer of horror. A mysterious lake, ruined lunatic asylum, brutal murders and Scrabble that writes its own warnings. Evans creates a real sense of uneasiness and explores the psyche. If you like horror as it should be, you'll love it." -- Steve Emmett, author of Diabolino Memories are like water. Some float on the surface bright and clear. Some lie deeper - blurred by time and distance. Others rest far from the light in the depths of the darkness. These memories are best forgotten. At the bottom of Asylum Lake the unremembered have grown restless. After the sudden death of his wife, Brady Tanner moves to the small

Michigan town where he spent summers as a youth. But he soon learns that small towns can be stained by memories...and secrets too. As Brady is drawn into unearthing the secrets of the town and of the abandoned psychiatric hospital on the shores of Asylum Lake, he discovers a new love in an old friend. But there is an evil presence lurking beneath the waters of the lake. What is the source of this evil--and what does it want with Brady Tanner?

Why Noncompliance traces the history of noncompliance within the European Union (EU), focusing on which states continuously do or do not follow EU Law, why, and how that affects the governance in the EU and beyond. In exploring the EU's long and varied history of noncompliance, Tanja A. B ö rzel takes a close look at the diverse groups of noncompliant states throughout the EU's existence. Why do states that are vocally critical of the EU have a better record of compliance than those that support the EU? Why has noncompliance been declining since the 1990s, even though the EU was adding member-states and numerous laws? B ö rzel debunks conventional wisdoms in EU compliance research, showing that noncompliance in the EU is not caused by the new Central and Eastern European member states,

nor by the Eurosceptic member states. So why do these states take the brunt of Europe's misplaced ire? Why Noncompliance introduces politicization as an explanatory factor that has been long overlooked in the literature and scholarship surrounding the European Union. B ö rzel argues that political controversy combined with voting power and administrative capacity, explains why noncompliance with EU law has been declining since the completion of the Single Market, cannot be blamed on the EU's Central and Eastern European member states, and is concentrated in areas where EU seeks to protect citizen rights. Founding Friends is a history of day-to-day life inside the Friends Asylum for the Insane in early nineteenth-century Philadelphia. It uses an extraordinarily rich data source: the daily diaries that the Asylum's lay superintendents kept between 1814 and 1850. In their diaries, these men wrote about their own and their attendant staff's work. They also write about their patients: their conditions, the moral remedies applied, the medical prescriptions ordered by consulting physicians, the reasons for chosen treatments, and the responses of patients and staff to the particular interventions. The Asylum's lay superintendents also wrote with unusual candor and detail about their own and their attendant staff's feelings: about the joys and the frustrations of working daily with insane patients. These diaries offer a new perspective on institutional life. This book shows how intricate negotiations and shifting alliances among families, communities, patients, and staff emerge as the most compelling determinants of an institution's changing form and function.

Why Noncompliance Around Town West Michigan

The New York Juvenile Asylum (NYJA) was founded in 1851 by a group of prominent businessmen and professionals concerned about vagrancy among poor children in New York City. It was designed to house, educate, reform, and indenture children who were homeless, truant, or convicted of petty crimes in New York City. The NYJA being an alternative to the punitive House of Refuge where more hardened young criminals (incarcerated alongside much older adults) were being sent. Most children accepted into the NYJA were between the ages of seven and fifteen, but children both younger and older were accepted at times. The NYJA relocated to 176th Street between Tenth and Eleventh Avenues in 1856. By the end of 1919 over 42,000 children had been admitted to the Asylum. About 6,000 were sent West on orphan trains in what is now referred to as America's Orphan Train Movement. The names in this volume represent over five thousand children who lived in the New York Juvenile Asylum, as well as its House of Reception (where applicable), between 1855 and 1925. The names were extracted from the following enumerations conducted at the Asylum and House of Reception: the 1860, 1870, 1880, 1900, 1910, and 1920 federal censuses; and the New York State censuses of 1855, 1905, 1915, and 1925. The censuses are arranged chronologically and the children listed alphabetically for each census. The descriptions vary from census to census; however, in virtually all cases they provide the individual's name, race, sex, age, and state or country of birth. Also included for several of the censuses is the state or country of birth for the parents of each child. In a couple of the censuses the "residence when admitted" (to the

Asylum) is listed for each child.

Gabriel's Redemption Lehigh University Press

North American Federation Navy
Commander Evan Gabriel was dishonorably discharged after a disastrous mission on a far off world called Eden. He's spent the last five years hiding from his past, from those responsible for the failed mission, from those responsible for running him out of the Navy, and from those originally responsible for making him into

who he was - a highly-trained, physically and mentally augmented Special Forces soldier.

Two mysterious visitors appear unannounced at the door of a Gabriel's seedy hotel room in the slums of Jamaica. His past has finally caught up with him. From the decaying Caribbean to politically-charged South America, from the back alleys of Mars to a tiny colony on a planet six hundred light years from Earth, Gabriel's Redemption is a near-future military science fiction story of a personal journey seen from the perspective of a soldier who has lost everything -- one who desperately needs to redeem himself not only in his government's eyes, but also his own. Interstellar action and political intrigue mix with one-on-one battles on the surface of a frozen planet in Book One of the science fiction-adventure trilogy. Labour Gazette R.A. Evans

With an open heart and inquiring intellect,

Raymond Evans sets out to uncover a past not studied in the school books of his youth. Growing up in the 1950s, he lived in a community devoid of Aboriginal presence. It was an enclave of Welsh migrant families, with all the rituals and traditions of a faraway "Home". His evolving historical consciousness was fired by the need to connect with these shadowy absences and to engage with his adopted homeland. Interwoven with his personal journey is a revealing selection of race relations histories, which cover a wide arena from the Aboriginal/European conflicts of colonial Queensland to the anti-Chinese riots of 1888 and civilian internment during World War I. Evans also moves beyond frontier conflict into the long period of repressive government control of Aboriginal lives. In writing on race, gender and labour relations he illustrates how selective history can be by omitting the contribution of Aboriginal labourers, men and women. These form a critical bridge to understanding the complexities of race relations today.

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of

preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Matsutake is the most valuable mushroom in the world—and a weed that grows in human-disturbed forests across the northern hemisphere. Through its ability to nurture trees, matsutake helps forests to grow in daunting places. It is also an edible delicacy in Japan, where it sometimes commands astronomical prices. In all its contradictions, matsutake offers insights into areas far beyond just mushrooms and addresses a crucial question: what manages to live in the ruins we have made? A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction. By investigating one of the world's most sought-after fungi, *The Mushroom at the End of*

the World presents an original examination into the relation between capitalist destruction and collaborative survival within multispecies landscapes, the prerequisite for continuing life on earth.
