Check out the great reviews on this novel that debuted on the #1 Hot New Releases bestseller list. Note: This book is intended for mature young adult, new adult, and older audiences due to profanity and sensual content. BACKGROUND: The inspiration for the story came from Sandie's beloved father who worked in various psychiatric hospitals during short periods of his career. In the attic of one

such hospital, he made a disturbing discovery - one that bothered Sandie so much, she had to create a story around it. Though fiction, many parts of the book intertwine the patient routines, treatments and outbursts that she learned from her father and other research in a way that makes the story vivid through Jeannie's perspective. PRAISE FOR THE CAGING AT DEADWATER MANOR: "Great read! Fantastic work on this very addictive book. I couldn't put it down but didn't want it to be over either from page 1 to the end. A true literary masterpiece." Brian Miller, Amazon Customer "This is a polished independent novel that skillfully blends coming-of-age, mystery, and suspense genre elements. The pacing is excellent and well-wrought, drawing the reader along to share in Jean's terror, frustration, and helplessness, as well as her hope and resolve to escape." C. Cameron, Amazon Customer "WOW! This thriller definitely had my heart racing! It is so exciting to find a great debut author and Sandie Will is just that with The Caging at Deadwater Manor. You do not want to miss this one! The characters are SO well written it seems like a memoir...which makes it that much makes it that much more creepy!!" Kim Page, Amazon Customer

"I may be my worst enemy, but at least I've got a worthy adversary" - Shane Bordoli. Plenty of insights into alcoholism, depravity, depression and also their flip sides are on offer here. The '90s rave scene is covered as well as the Glastonbury festival during that period. The death of his parents is reviewed here in his usual crushingly honest style. Crammed with his trademark mix of humorous and the heartbreaking, Shane Bordoli's long-awaited second book is a two-part affair. A selection of poetry makes up part one, while part two is a collection of

autobiographical short stories. The poetry expresses his indomitable take on life, and especially his recent extended stay in India, having left the UK in 2019 for an indefinite period. The prose centres on his crazy times of too much partying, severe alcoholism, and struggles with mental health issues that eventually led him to relocate his life and to realign his priorities. There are lots of thoughts on the India of today and travel in general. It's also a chance to see what it's like to be up close and on intimate terms with the darker side of what life can become. On the whole, it's life-affirming by dint of taking the reader on a journey with the author towards leading a life that is both well examined and well worth living. Shane is an English writer, based in India at the time of publication. Big Fall fan. His books are available in paperback and on Kindle.

A chance encounter with a man wielding a knife sets in motion a chain of events so bizarre that Sara will soon question everything she has ever believed. Words are funny things. Their meaning, the pictures they paint in the minds of those that hear them. They're not always the same and to me at least, that makes them meaningless. Take for instance the phrase 'black widow'. Those words conjure the image of a spider. However, instead of speaking of an arachnid, the people who whisper them are talking about something much different. They're talking about me. From what I'm told, no man I've ever loved has survived. Yet, I have no memory of any of it. My new home leads me to the definition of another vague and meaningless word. But the definition for the word is wrong. Especially when you're made silent by drugs and pretty white jackets. My name is Alexandra Sutton and this is the story of what happened when I was imprisoned inside an Asylum. \*\*\*\*\*Disclaimer: Asylum is a dark novel that contains sensitive subject matter not appropriate for readers below the age of 18 years of age. Asylum also contains explicit descriptions of violence. Asylum is a full length novel at 90K + words and is not part of a series.

They arrive alive. They leave dead. But first, they give me their confessions. My name is Jack Steen. That name shouldn't mean anything to you. Unless you're about to die. And then I'm your bloody guardian angel. I work as a night nurse in the Asylum for the criminally insane. My name is the only real name you'll find in this book. I

won't tell you which hospital I work at. I won't tell you the names of those dying. But I won't lie to you. You'll read exactly what I'm told. If you're smart, if you're deranged enough to read between the lines, you'll know who is telling the story. They could be playing their final game with me by messing with my head. Now, maybe they're messing with yours too. Inside this book are 4 confessions: One has an interesting 'appetite'. One was the Ken to his Barbie, and he would do anything to keep her happy. Another is a Nanny, but not one you want watching your kids. The other is the sweetest soul you'd ever meet but you'll have a hard time reading her confession. WARNING: There is swearing in this book. And some stories might be a trigger for something you have a hard time handling. But, these are the confessions of serial killers, mass murderers and such.
