The key to understanding men
is in understanding how they
relate to their gadgets. Just
because they may seem to show
more interest in their
computers...or their remote
controls...or their fancy watches
or their power mowers or their
stereos...doesn't mean that their
toys are really the most
important things in their life. In
Boys and Their Toys, bestselling
author Bill Adler, Jr. explains
how men use toys to assert their
independence and freedom,

relieve stress, connect to their lost
childhood, and even express
their nurturing side (without
having to admit it). Written in
Adler's fun, humorous style, the
book reveals how women can: *
learn how a man's interest in
particular ""toys"" can be used to
predict his behavior * know
when a guy's passion for gadgets
crosses the line into obsession
and what to do about it * take
advantage of the human-gadget
relationship to improve the
human-human relationship.
Smart and funny, Boys and Their
Toys helps readers understand
what makes their men tick...and
grow closer with them in the

process.

LG Electronics
launched its brand in
the late 1950s and has
since become a

household name for electronics and appliances. As the company expanded its products and services, it also became renowned for advances in mobile technology. The company now offers a range of LG smart phones; the latest of which is the new LG V40. This new device scheduled to be launched in October 2018 has already received rave reviews. The new smartphone is declared as the successor to the previously released LG V30. It has been lauded

for its array of modern and innovative features as well as its appeal to a wider cross-section of consumers. Users who purchase the new LG V40 smartphone can expect to enjoy a number of features. Chief among these features is the five (5) cameras and optical image stabilization included in the design. The phone also boasts a 6.4-inch display outfitted with OLED Full-Vision, 537-pixel density and resolution of 3120 by 1440. Users will be able to enjoy

the new Android 8.0 Oreo operating system, six (6) gigabytes of memory, the 2.5 gigahertz Qualcomm Snapdragon 845 Octa-Core and Chipset. The LG V30 also boasts a floating bar for timely access to notifications and apps, Power Saving mode, an 'Always-on-Display' and fingerprint ID. Users will also be able to enjoy other security features that include 'Knock Code', Google Smart Lock, Voice Recognition and Facial Recognition. The device

is also outfitted with built-in applications for enhanced user efficiency, NFC and Bluetooth functionality.

The LG V20 is one of the latest Android smartphones

that is manufactured by LG Electronics. It is the upgraded version that succeeded the LG V10 as the new flagship model in the LG V series. It was first released in South Korea on September 29, 2016. It was also noted as the first smart phone that came preloaded with Android 7.0 Nougat out of the box. The LG V series are

considered to be a high end Android device that leads the way with great design and new features. These features have seen vast improvements in the display, audio and performance of the device. The coupling of the Android 7.0 platform with the LG innovation has truly created a phone that is truly

enviable. It is a great player in the competitive smart phone space. This book will seek to explore many of the options that are available on this device.
