The year is 1983, and Chuck Klosterman just wants to rock. But he's got problems. For one, he's in the fifth grade. For another, he lives in rural North Dakota. Worst of all, his parents aren't exactly down with the long hairstyle which rocking requires. Luckily, his brother saves the day when he brings home a bit of manna from metal heaven, SHOUT AT THE DEVIL, Motley Crue's seminal paean to hair-band excess. And so Klosterman's twisted odyssey begins, a journey spent worshipping at the heavy metal altar of Poison, Lita Ford and

Guns N' Roses. In the hilarious, young-man-growing-up-with-a-soundtrack-tradition, FARGO ROCK CITY chronicles Klosterman's formative years through the lens of heavy metal, the irony-deficient genre that, for better or worse, dominated the pop charts throughout the 1980s. For readers of Dave Eggers, Lester Bangs, and Nick Hornby, Klosterman delivers all the goods: from his first dance (with a girl) and his eye-opening trip to Mandan with the debate team; to his list of 'essential' albums; and his thoughtful analysis of the

similarities between Guns 'n' Roses' 'Lies' and the gospels of the New Testament.

Eunsun Kim was born in North Korea, one of the most secretive and oppressive countries in the modern world. As a child Eunsun loved her country...despite her school field trips to public

executions, daily self-criticism sessions, and the increasing gnaw of hunger as the country-wide famine escalated. By the time she was eleven years old, Eunsun's father and grandparents had died of starvation, and Eunsun was in danger of the same. Finally, her mother decided to escape North Korea with Eunsun and her sister, not knowing that they were embarking on a journey that would take them nine long years to complete. Before finally reaching South Korea and freedom, Eunsun and

her family would live homeless, fall into the hands of Chinese human traffickers, survive a North Korean labor camp, and cross the deserts of Mongolia on foot. Now, Eunsun is sharing her remarkable story to give voice to the tens of millions of North Koreans still suffering in silence. Told with grace and courage, her memoir is a riveting exposé of North Korea's totalitarian regime and, ultimately, a testament to the strength and resilience of the human spirit.

Long before civilization, there
were the gods. And before the
gods, there was the earth, the
celestial bodies, and air given
flesh. They are the Anemoi-the
Four Winds-and they have
been banished to the four
corners of the world. Wren of
Edgewood is no stranger to
suffering. Her parents are
gone. Survival is all she
knows. For three hundred
years, the land known as the
Gray has been encased in ice,

surrounded by a great barrier
called the Shade, which
protects the townsfolk from the
Deadlands beyond. But day by
day, the Shade weakens. Only
one thing can stop the Shade's
fall: a mortal woman taken
captive across the barrier,
bound in wedlock to the dark
god who reigns over the
Deadlands. He is the North
Wind, the Frost King, an
immortal whose heart is said to
be as frigid as the land he
rules. And the time has come
for the Frost King to choose his
bride. The North Wind is a
standalone, enemies-to-lovers
fantasy romance, the first in a
series sprinkled with Greek
lore. Perfect for fans of

Nortin Hadler knows backaches. For more than three decades as a physician and medical researcher, he has studied the experience of low back pain in people who are otherwise healthy. Hadler

terms the low back pain that everyone suffers at one time or another "regional back pain." In this book, he addresses the history and treatment of the ailment with the healthy skepticism that has become his trademark, taking the "Hadlerian" approach to backaches and the backache treatment industry in order to separate the helpful from the hype. Basing his critique on an analysis of the most current medical literature as well as his clinical experience, Hadler argues that regional back pain is overly

medicalized by doctors, surgeons, and alternative therapists who purvey various treatment regimens. Furthermore, he observes, the design of workers' compensation, disability insurance, and other "health" schemes actually thwarts getting well. For the past half century, says Hadler, back pain and back pain-related disability have exacted a huge toll, in terms of pain, suffering, and financial cost. *Stabbed in the Back* addresses this issue at multiple levels: as a human predicament, a profound

social problem, a medical question, and a vexing public-policy challenge. Ultimately, Hadler's insights illustrate how the state of the science can and should inform the art and practice of medicine as well as public policy. *Stabbed in the Back* will arm any reader with the insights necessary to make informed decisions when confronting the next episode of low back pain.

This is true story about real people is set in Edinburgh City and Dundee, where a petite Scottish Lassie called Rosie Gilmour, mother to Finlay Sinclair, receives news of the death of her son - who tragically has taken his own life by hanging. Rosie pretends her son is still alive by talking to him, for that takes away the

unbearable pain of her loss. But once she begins to face up to the fact that Finlay is not coming back, her conversations become more of a challenge than she can handle. When memories of her past are triggered by everyday life events, they take her mind back and forth in time - back to her own childhood days in 1960, when she flirted with the fairground boys, and to the day she gave birth to Finlay - "ME LADDIE". Rosie's Scottish accent becomes more apparent whenever her emotions are heightened and she begins to recite poetry. She goes on to reveal doubts about her own self-worth and how she re-unites her role as mother - a role she had denied herself for seven years prior to Finlay's death. Rosie learns how to forgive herself and how to accept her loss with using practical coping strategies that sometimes but not always work for her. Many voices of different natures and walks of life appear in Rosie's, story with each one offering a part of their own belief to try and console her in her misery - except that she turns her back on any advice or support offered. Rosie is convinced that she can cope with her loss on her own and "needs no help from anyone, thank you" - until a sweet, gentle, soft-spoken voice begins to travel with her throughout her ordeal, leaving her no other choice but to listen. Eventually moving to the countryside in Angus, Rosie finds the isolation gives her life a new meaning offering her the opportunity to re-value her belief's about her own self values and decides

the time has come to give her son a memorial service and invite a chosen few dance companions whom she met on a regular basis in Edinburgh to honour this day. Rosie begins to accept she will never be the same person she once had been and shall never be again, believing now her journey through grief taught her many lessons making her a stronger and better person than she imagined she could ever be.

Imagine what it would be

like to go back in time to the 15th century Venice. And imagine what it would be like to meet your lifelong hero, Michelangelo. And imagine what it would be like if, on first meeting, you spill a tray of pasta and wine on that very same hero. Well, that's what happens to serious young artist Mark Breen. As the result of a drunken bet, Mark knocks out a painting of a toilet bowl. Much to his amazement, he sells it. In short order he's hailed as the new Andy Warhol and becomes an overnight sensation-and a very

wealthy man. Soon, images of his toilet bowls are on more t-shirts, mugs, and calendars than Edvard Munch's *The Scream*. His friend and mentor, Hugh Connelly, afraid that Mark is in danger of losing his "artistic soul," advises him to go back to Italy and reacquaint himself with the "old masters." In Venice, Mark falls in love with Alexandra, a beautiful art restorer, but it's a one-sided affair. One night, hoping to win her over, he climbs up on a roof to find out who painted her favorite fresco.

He falls off the roof and wakes up in 15th century Venice where he meets an innkeeper named Francesca, who looks exactly like Alexandra. And it gets curiouser and curiouser from there. During his stay- which is sometimes zany and sometimes frightening- he meet his hero, Michelangelo, who teaches him the true meaning of art. George MacDonald's *AT THE BACK OF THE NORTH WIND* has enticed critics since its publication in 1871. The unique blend of fairy tale atmosphere and social realism in this novel laid the groundwork for modern fantasy literature. In the novel, Little Diamond, a kind and precocious boy living in poverty, is befriended by the mysterious North Wind, who takes him on her nightly adventures. Written in intensely poetic language, *AT THE BACK OF THE NORTH WIND* transcends the genres

of children's book or fairy tale. BEHIND THE BACK OF THE NORTH WIND includes 16 essays on this enigmatic and richly layered fantasy novel - with perspectives ranging from the influence of MacDonald's Christian worldview or the relation between fantasy and reality, to grappling with AT THE BACK OF THE NORTH WIND as children's literature. A variety of artist's illustrations are included, from editions published between 1871 to 1988, visually reinforcing the imaginative impact MacDonald's classic story continues to have on readers. This collection of essays is designed as a companion

volume to Broadview Press's critical edition of AT THE BACK OF THE NORTH WIND, also edited by Pennington and McGillis.
