Focus on Adult Health Mosby Incorporated Master Need-to-Know Psychiatric Nursing Information with Ease Gain the basic knowledge and patient interaction skills you need to confidently prepare for psychiatric nursing practice with this concise, engaging text. Essentials of Psychiatric Nursing is easy to understand and rich with clinical examples and explanations that clarify challenging concepts and help you build the unique therapeutic communication capabilities necessary to excel in the care of patients with common mental health disorders. New! Unfolding Patient Stories, written by the National League for Nursing, immerse you in commonly encountered clinical scenarios and equip you for successful patient interactions. Concept Mastery Alerts drawn from the Lippincott®PrepU adaptive learning system clarify the most challenging mental health nursing concepts. NCLEX Notes keep you focused on important application areas for success on the NCLEX®. Case Studies interwoven in the mental health disorder chapters help you apply theory to nursing care for specific disorders, supported by online videos that reveal symptoms and procedures in greater detail. Emergency Care Alerts help you recognize situations that may require immediate or specialized care. Nursing Management of Selected Disorders sections familiarize you with the most common major psychiatric disorders. Research for Best Practice boxes reinforce the latest evidence and implications from relevant studies to guide and validate interventions. Therapeutic Dialogue features compare and contrast therapeutic and nontherapeutic conversations to help you hone your patient communication skills. Psychoeducation Checklists help you develop effective patient and family teaching plans. Clinical Vignette features and accompanying questions challenge you to identify solutions to commonly encountered patient scenarios. Drug Profile boxes reinforce your understanding of commonly prescribed medications for patients with mental health problems. Key Diagnostic Characteristics summaries provide fast access to diagnostic criteria, target symptoms, and associated findings

for select disorders as described in the DSM-5 by the American Psychiatric Association. Available on the book's companion website, Nursing Care Plans based on case scenarios guide you through the diagnostic stages and plan of care for patients with a particular diagnosis.

Psychiatric Nursing Saunders

Here's the must-know information

LPN/LVN students need to care for patients with mental health disorders where they'll encounter them—in general patient care settings. An easy-to-read, conversational writing style shows you how to recognize and respond to the most important mental health issues. You'll also explore important communication techniques to use with your patients, ethical and legal issues, and alternative and complementary treatments.

Pathophysiology Assessment

Technologies Inst Llc

Provides the need-to-know information for nurses, in an easy retrieval format for clinical settings, and includes approximately 200 medical surgical conditions and procedures.

ATI TEAS 6 Mathematics Prep 2019

Elsevier Health Sciences

This one-of-a-kind workbook dedicated to developing clinical judgment skills helps prepare you for the Next-Generation NCLEX® Exam (NGN) through practical thinking exercises in which you will apply the National Council of State Boards of Nursing (NCSBN) Clinical Judgment Model (CJM). A comprehensive collection of carefully developed clinical reasoning exercises range from basic to more complex and address all specialty areas. Answer key with robust rationales to remediate learning follows at the end of the book. Six-part organization guides you through the entire NGN test plan. Answer questions in the book itself or on a companion Evolve website for automated scoring and remediation.

Study Manual for the Test of Essential Academic Skills (TEAS) W B Saunders Company

For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020. Also available with MyLab Nursing MyLab(tm) Nursing is an online self-study and class preparation program designed to engage students and improve results.
