*Clothing, Commerce, and
Colonization in the Atlantic
World, 1650–1800* Cambridge
University Press

A fascinating account of the trade patterns and consumption practices that arose following European colonisation of the Atlantic world. Focusing on textiles and clothing, Robert DuPlessis reveals how globally sourced goods shaped the material existence of virtually every group in the Atlantic basin during the seventeenth and eighteenth centuries.

*Africa and Africans in the Making of the Atlantic
World, 1400-1680* OUP Oxford

This book provides a much-needed comparative approach to the history of cities by investigating the dissemination of cultural forms between cities of the Atlantic world. The contributors attend to the various forms and norms of cultural representation in Atlantic history, examining a wealth of diverse topics such as the Portuguese Atlantic; the Spanish Empire; Guy Fawkes and the conspiratorial rhetoric of slaves; Albert-Charles Wulfleff and the Parc-Musée of Dakar; and the writings of Jane Austen, Alexis de Tocqueville, Benjamin Franklin, and others. By interpreting Atlantic urban history through sustained attention to customs and representational forms, an international group of nine contributors demonstrate the power of culture in the making of Atlantic urban experience, even as they acknowledge the harsh realities of economic history.

The Call to Liberty in the Atlantic World JHU Press
NEW YORK TIMES BESTSELLER • “The single

most important explanation, and the fullest explanation, of how Donald Trump became president of the United States . . . nothing less than the most important book that I have read this year.”—Lawrence O’Donnell How did we get here? In this sweeping, eloquent history of America, Kurt Andersen shows that what’s happening in our country today—this post-factual, “fake news” moment we’re all living through—is not something new, but rather the ultimate expression of our national character. America was founded by wishful dreamers, magical thinkers, and true believers, by hucksters and their suckers. Fantasy is deeply embedded in our DNA. Over the course of five centuries—from the Salem witch trials to Scientology to the Satanic Panic of the 1980s, from P. T. Barnum to Hollywood and the anything-goes, wild-and-crazy sixties, from conspiracy theories to our fetish for guns and obsession with extraterrestrials—our love of the fantastic has made America exceptional in a way that we’ve never fully

acknowledged. From the start, our ultra-individualism was attached to epic dreams and epic fantasies—every citizen was free to believe absolutely anything, or to pretend to be absolutely anybody. With the gleeful erudition and tell-it-like-it-is ferocity of a Christopher Hitchens, Andersen explores whether the great American experiment in liberty has gone off the rails. Fantasyland could not appear at a more perfect moment. If you want to understand Donald Trump and the culture of twenty-first-century America, if you want to know how the lines between reality and illusion have become dangerously blurred, you must read this book.

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE SAN FRANCISCO CHRONICLE

“This is a blockbuster of a book. Take a deep breath and dive in.”—Tom Brokaw “[An] absorbing, must-read polemic . . . a provocative new study of America’s cultural history.”—Newsday

“Compelling and totally unnerving.”—The Village Voice “A frighteningly convincing and sometimes

uproarious picture of a country in steep, perhaps terminal decline that would have the founding fathers weeping into their beards.”—The Guardian
“This is an important book—the indispensable book—for understanding America in the age of Trump.”—Walter Isaacson, #1 New York Times bestselling author of Leonardo da Vinci

The Barbary Wars Cornell University Press

This ebook is a selective guide designed to help scholars and students of the ancient world find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to

consult and editorial commentary to make it clear how the cited sources are interrelated. This ebook is just one of many articles from Oxford Bibliographies Online: Atlantic History, a continuously updated and growing online resource designed to provide authoritative guidance through the scholarship and other materials relevant to the study of Atlantic History, the study of the transnational interconnections between Europe, North America, South America, and Africa, particularly in the early modern and colonial period. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit www.oxfordbibliographies.com.
Scotland, The Caribbean and the Atlantic World, 1750-1820 Routledge

As the meeting point between Europe, colonial America, and Africa, the history of the Atlantic world is a constantly shifting arena, but one which has been a focus of huge and vibrant debate for many years. In over thirty chapters, all written by experts in the field, *The Atlantic World* takes up these debates and gathers together key, original scholarship to provide an authoritative survey of this increasingly popular area of world history. The book takes a thematic approach to topics including exploration, migration and cultural encounters. In the first chapters, scholars examine the interactions between groups which converged in the Atlantic world, such as slaves, European migrants and Native Americans. The volume then considers questions such as finance, money and commerce in the Atlantic world, as well as warfare, government and religion. The collection closes with chapters examining how ideas circulated across and around the Atlantic and beyond. It presents the Atlantic as a shared space in which commodities and ideas

were exchanged and traded, and examines the impact that these exchanges had on both people and places. Including an introductory essay from the editors which defines the field, and lavishly illustrated with paintings, drawings and maps this accessible volume is invaluable reading for all students and scholars of this broad sweep of world history.

Sacred Gifts, Profane, Pleasures Routledge

How did events and ideas from elsewhere in the British empire influence development in the thirteen American colonies? What was the effect of the American Revolution on the wider Atlantic world? In *Empire and Nation*, leading historians reconsider the American Revolution as a transnational event, with many sources and momentous implications for Ireland, Africa, the West Indies, Canada, and Britain itself. The opening section situates the origins of the American Revolution in the commercial,

ethnic, and political ferment that characterized Britain's Atlantic empire at the close of the Seven Years' War (1756 – 1763). The empire then experienced extraordinary changes, ranging from the first stirrings of nationalism in Ireland to the dramatic expansion of British rule in Canada, Africa, and India. The second part focuses on the rebellion of the thirteen colonies—touching on slavery and ethnicity, the changing nature of religious faith, and ideas about civil society and political organization. Finally, contributors examine the changes wrought by the American Revolution both within Britain's remaining imperial possessions and among the other states in the emerging "concert of Europe." The essays in *Empire and Nation* challenge facile assumptions about the "exceptional" character of the republic's founding moment, even as they invite readers to think anew about the complex ways in which the Revolution reshaped both American society and the Atlantic world.

American Independence in the Atlantic World
Springer

The story of freedom pivots on the choices black women made to retain control over their bodies and selves, their loved ones, and their futures. The story of freedom and all of its ambiguities begins with intimate acts steeped in power. It is shaped by the peculiar oppressions faced by African women and women of African descent. And it pivots on the self-conscious choices black women made to retain control over their bodies and selves, their loved ones, and their futures. Slavery's rise in the Americas was institutional, carnal, and reproductive. The intimacy of bondage whet the appetites of slaveowners, traders, and colonial officials with

fantasies of domination that trickled into every social relationship—husband and wife, sovereign and subject, master and laborer. Intimacy—corporeal, carnal, quotidian—tied slaves to slaveowners, women of African descent and their children to European and African men. In *Wicked Flesh*, Jessica Marie Johnson explores the nature of these complicated intimate and kinship ties and how they were used by black women to construct freedom in the Atlantic world. Johnson draws on archival documents scattered in institutions across three continents, written in multiple languages and largely from the perspective of colonial officials and slave-owning men, to recreate black women's experiences from coastal Senegal to French Saint-Domingue to Spanish Cuba to the swampy outposts of the Gulf Coast. Centering New Orleans as the quintessential site for

investigating black women's practices of freedom in the Atlantic world, *Wicked Flesh* argues that African women and women of African descent endowed free status with meaning through active, aggressive, and sometimes unsuccessful intimate and kinship practices. Their stories, in both their successes and their failures, outline a practice of freedom that laid the groundwork for the emancipation struggles of the nineteenth century and reshaped the New World.

Essays on Slavery, Migration and Imagination
Routledge

"*BORDERLESS EMPIRE* explores the volatile history of Dutch Guiana, in particular the forgotten colonies of Essequibo and Demerara, in order to provide new perspectives on European empire building in the Atlantic world. It argues that imperial expansion was a process of improvisation at the colonial level, rather than a project that was centrally orchestrated from the metropolis.

Furthermore, it emphasizes that colonial expansion was far more transnational than the oft-used divisions into "national Atlantics" suggest. It therefore aims to transcend the framework of the "Dutch Atlantic" by looking at the connections across cultural and imperial boundaries. This book tells a story of empire building as an Atlantic-wide process. Essequibo and Demerara remained remarkably open colonies, even as late as the end of the eighteenth century. But that is not to say they were unique: improvisation, and the consequent contacts across imperial borders were a general feature of early modern colonial ventures. By looking outwards from the colonies, rather than following the top-down view from the metropolis, *BORDERLESS EMPIRE* aims to bring these entanglements to the fore. Highlighting the contribution of many non-Dutch actors--such as Amerindian soldiers, North American provisions traders, and British slave smugglers--it reveals the truly Atlantic nature of empire building.

BORDERLESS EMPIRE makes an important contribution to the study of early modern imperialism, Atlantic history, and the historiography of "--

U.S. History Routledge

A sweeping exploration of revolutionary ideas that traveled the Atlantic in the late eighteenth century Nation-based histories cannot do justice to the rowdy, radical interchange of ideas around the Atlantic world during the tumultuous years from 1776 to 1804. National borders were powerless to restrict the flow of enticing new visions of human rights and universal freedom. This expansive history explores how the revolutionary ideas that spurred the American and French revolutions reverberated far and wide, connecting

European, North American, African, and Caribbean peoples more closely than ever before. Historian Janet Polasky focuses on the eighteenth-century travelers who spread new notions of liberty and equality. It was an age of itinerant revolutionaries, she shows, who ignored borders and found allies with whom to imagine a borderless world. As paths crossed, ideas entangled. The author investigates these ideas and how they were disseminated long before the days of instant communications and social media or even an international postal system. Polasky analyzes the paper records--books, broadsides, journals, newspapers, novels, letters, and more--to follow the far-reaching trails of revolutionary zeal. What emerges clearly from rich historic records is that the

dream of liberty among America's founders was part of a much larger picture. It was a dream embraced throughout the far-flung regions of the Atlantic world.

Puritan Family and Community in the English Atlantic World Liverpool University Press
Thirty-seven essays providing a comprehensive overview, covering the most essential aspects of Atlantic history from c.1450 to c.1850, offering a wide-ranging and authoritative account of the movement of people, plants, pathogens, products, and cultural practices--to mention some of the key agents--around and within the Atlantic basin.
Beautiful World, Where Are You Markus Wiener Pub

This volume historicizes the use of the notion of self-interest that at least since Bernard de Mandeville and Adam Smith ' s theories is considered a central component of economic theory. Having in the twentieth century

become one of the key-features of rational choice models, and thus is seen as an idealized trait of human behavior, self-interest has, despite Albert O. Hirschman's pivotal analysis of self-interest, only marginally been historicized. A historicization(s) of self-interest, however, offers new insights into the concept by asking why, when, for what reason and in which contexts the notion was discussed or referred to, how it was employed by contemporaries, and how the different usages developed and changed over time. This helps us to appreciate the various transformations in the perception of the notion, and also to explore how and in what ways different people at different times and in different regions reflected on or realized the act of considering what was in their best interest. The volume focuses on those different usages, knowledges, and practices concerned with self-

interest in the modern Atlantic World from the seventeenth to twentieth centuries, by using different approaches, including political and economic theory, actuarial science, anthropology, or the history of emotions. Offering a new perspective on a key component of Western capitalism, this is the ideal resource for researches and scholars of intellectual, political and economic history in the modern Atlantic World.

1450-1850 One World

The World of Colonial America: An Atlantic Handbook offers a comprehensive and in-depth survey of cutting-edge research into the communities, cultures, and colonies that comprised colonial America, with a focus on the processes through which communities were created, destroyed, and recreated that were at the heart of the

Atlantic experience. With contributions written by leading scholars from a variety of viewpoints, the book explores key topics such as -- The Spanish, French, and Dutch Atlantic empires -- The role of the indigenous people, as imperial allies, trade partners, and opponents of expansion -- Puritanism, Protestantism, Catholicism, and the role of religion in colonization -- The importance of slavery in the development of the colonial economies -- The evolution of core areas, and their relationship to frontier zones -- The emergence of the English imperial state as a hegemonic world power after 1688 -- Regional developments in colonial North America. Bringing together leading scholars in the field to explain the latest research on Colonial America and its

place in the Atlantic World, this is an important reference for all advanced students, researchers, and professionals working in the field of early American history or the age of empires.

A History of Tobacco and Chocolate in the Atlantic World Routledge

This book highlights newly-discovered and underutilized sources for the study of slavery and abolition. It features the contributions of scholars who work with Portuguese, Spanish, German, Dutch, and Swedish materials from Europe, Africa and Latin America. Their work draws on legal suits, merchant correspondence, Catholic sacramental records, and rare newspapers dating from the seventeenth through the nineteenth centuries. Essays cover the volume of the early South Atlantic slave trade; African and African-descended religious and cultural communities in Rio de Janeiro and the Spanish circum-Caribbean;

Eurafrican trade alliances on the Gold Coast; and public participation in abolition in nineteenth-century Brazil. These essays change and enrich our understandings of slavery and its end in the Atlantic World. This book was originally published as a special issue of *Slavery and Abolition*.

Empire and Nation Macmillan

This important new contribution to the study of Atlantic history brings together eight original essays by such leading scholars as Jorge Canizares-Esguerra, Paul Lovejoy, David Eltis, and Benjamin Schmidt on the many connections between the Old World and the New World in the early modern period. With an introduction by Wim Klooster, the four sets of paired essays examine the role of specific port cities in Atlantic history, aspects of European migration, the African dimension, and ways

in which the Atlantic world has been imagined. Numerous maps and illustrations further enrich this vital new contribution to undergraduate and graduate courses of study in Atlantic history.

Crusaders in Antislavery Politics University of Georgia Press

Cultural Economies explores the dynamic intersection of material culture and transatlantic formations of "capital" in the long eighteenth century. It brings together two cutting-edge fields of inquiry—Material Studies and Atlantic Studies—into a generative collection of essays that investigate nuanced ways that capital, material culture, and differing transatlantic ideologies intersected. This ambitious, provocative work provides new interpretive

critiques and methodological approaches to understanding both the material and the abstract relationships between humans and objects, including the objectification of humans, in the larger current conversation about capitalism and inevitably power, in the Atlantic world. Chronologically bracketed by events in the long-eighteenth century circum-Atlantic, these essays employ material case studies from littoral African states, to abolitionist North America, to Caribbean slavery, to medicinal practice in South America, providing both broad coverage and nuanced interpretation. Holistically, *Cultural Economies* demonstrates that the eighteenth-century Atlantic world of capital and materiality was intimately connected to both large and small

networks that inform the hemispheric and transatlantic geopolitics of capital and nation of the present day.

How the West Became Psychologically Peculiar and Particularly Prosperous
The Atlantic World

The Atlantic World
Routledge
From the Early Modern to Modernism
Random House

Opening a dialogue between ecocriticism and transatlantic studies, this collection shows how the two fields inform, complement, and complicate each other. The editors situate the volume in its critical contexts by providing a detailed literary and historical overview of nineteenth-century transatlantic socioenvironmental issues involving such topics as the contemporary fur and timber trades, colonialism and agricultural "improvement,"

literary discourses on conservation, and the consequences of industrial capitalism, urbanization, and urban environmental activism. The chapters move from the broad to the particular, offering insights into Romanticism's transatlantic discourses on nature and culture, examining British Victorian representations of nature in light of their reception by American writers and readers, providing in-depth analyses of literary forms such as the adventure novel, travel narratives, and theological and scientific writings, and bringing transatlantic and ecocritical perspectives to bear on classic works of nineteenth-century American literature. By opening a critical dialogue between these two vital areas of scholarship, *Transatlantic Literary Ecologies* demonstrates some of the key ways in which Western environmental consciousness

and associated literary practices arose in the context of transatlantic literary and cultural exchanges during the long nineteenth century. *History of the Caribbean* Wiley-Blackwell This is the first major study of the convict in the Atlantic world of the eighteenth century. It concentrates on the diverse characters of the transported men, women and children, and their fate in the colonies, exploring at the local level the contrasts in sentencing, shipping and settlement of convicts in America. The central myths about transportation prevalent in the eighteenth century, particularly that most felons returned, are examined in the context of the burgeoning print culture of criminal biographies and newspaper stories. In addition, the exchange of representations between the two sides of the Atlantic, and the changing American reaction to convicts, are placed within the growing transatlantic debate on transportation before the American Revolution. Above all, the realities of escape, of convicts

running away and returning to England, are subject to systematic investigation for the first time.

Fantasyland University of Pennsylvania Press

This book looks at the one of the key commercial links between the Baltic and Atlantic worlds in the eighteenth century - the export of Swedish and Russian iron to Britain - and its role in the making of the modern world.

NATIONAL BOOK CRITICS CIRCLE

NOMINEE • A NEW YORK TIMES

NOTABLE BOOK OF THE YEAR • NEW

YORK TIMES BEST SELLER • From the two-time Pulitzer Prize-winning author of *The Underground Railroad* and *The Nickel Boys*, a

gloriously entertaining novel of heists, shakedown, and rip-offs set in Harlem in the 1960s. "Ray Carney was only slightly bent when it came to being crooked..." To his customers and neighbors

on 125th street, Carney is an upstanding salesman of reasonably priced furniture, making a decent life for himself and his family. He and his wife Elizabeth are expecting their second child, and if her parents on Striver's Row don't approve of him or their cramped apartment across from the subway tracks, it's still home. Few people know he descends from a line of uptown hoods and crooks, and that his façade of normalcy has more than a few cracks in it. Cracks that are getting bigger all the time. Cash is tight, especially with all those installment-plan sofas, so if his cousin Freddie occasionally drops off the odd ring or necklace, Ray doesn't ask where it comes from. He knows a discreet jeweler downtown who doesn't ask questions, either. Then Freddie falls in with a crew who plan to rob the Hotel Theresa—the "Waldorf of Harlem"—and volunteers Ray's services as the fence. The heist doesn't go as planned; they rarely do. Now Ray has a new clientele, one made up of shady cops, vicious local gangsters, two-bit pornographers, and other

assorted Harlem lowlifes. Thus begins the internal tussle between Ray the striver and Ray the crook. As Ray navigates this double life, he begins to see who actually pulls the strings in Harlem. Can Ray avoid getting killed, save his cousin, and grab his share of the big score, all while maintaining his reputation as the go-to source for all your quality home furniture needs? Harlem Shuffle's ingenious story plays out in a beautifully recreated New York City of the early 1960s. It's a family saga masquerading as a crime novel, a hilarious morality play, a social novel about race and power, and ultimately a love letter to Harlem. But mostly, it's a joy to read, another dazzling novel from the Pulitzer Prize and National Book Award-winning Colson Whitehead.
