of Turn Right at Machu Picchu travels the globe in search of the world's most famous lost city. "Adventurous, inquisitive and mirthful, Mark Adams gamely sifts through the eons of rumor, science, and lore to find a place that, in the end, seems startlingly real indeed."—Hampton Sides A few years ago, Mark Adams made a strange discovery: Far from alien conspiracy theories and other pop culture myths, everything we know about the legendary lost city of Atlantis comes from the work of one man, the Greek philosopher Plato. Stranger still: Adams learned there is an entire global sub-culture of amateur explorers who are still

actively and obsessively searching for this sunken city, based entirely on Plato's detailed clues. What Adams didn't realize was that Atlantis is kind of like a virus—and he'd been exposed. In *Meet Me in Atlantis*, Adams racks up frequent-flier miles tracking down these Atlantis obsessives, trying to determine why they believe it's possible to find the world's most famous lost city—and whether any of their theories could prove or disprove its existence. The result is a classic quest that takes readers to fascinating locations to meet irresistible characters; and a deep, often humorous look at the human longing to rediscover a lost world.

Bloomsbury Publishing  
A compelling new portrait of the lost realm of Lemuria, the original motherland of humanity • Contains the most extensive and up-to-date archaeological research on Lemuria • Reveals a lost, ancient technology in some respects more advanced than modern science • Provides evidence that the perennial philosophies have their origin in Lemurian culture Before the Indonesian

---

tsunami or Hurricane Katrina's destruction of New Orleans, there was the destruction of Lemuria. Oral tradition in Polynesia recounts the story of a splendid kingdom that was carried to the bottom of the sea by a mighty "warrior wave" --a tsunami. This lost realm has been cited in numerous other indigenous traditions, spanning the globe from Australia to Asia to the coasts of both South and North America. It was known as Lemuria or Mu, a

vast realm of islands and archipelagoes that once sprawled across the Pacific Ocean. Relying on 10 years of research and extensive travel, Frank Joseph offers a compelling picture of this motherland of humanity, which he suggests was the original Garden of Eden. Using recent deep-sea archaeological finds, enigmatic glyphs and symbols, and ancient records shared by cultures divided by great distances that document the story of this sunken

world, Joseph painstakingly re-creates a picture of this civilization in which people lived in rare harmony and possessed a sophisticated technology that allowed them to harness the weather, defy gravity, and conduct genetic investigations far beyond what is possible today. When disaster struck Lemuria, the survivors made their way to other parts of the world, incorporating their scientific and mystical skills into the existing cultures of Asia, Polynesia, and the

---

Americas. Totem poles of the Pacific Northwest, architecture in China, the colossal stone statues on Easter Island, and even the perennial philosophies all reveal their kinship to this now-vanished civilization. *Atlantis in the Caribbean* Page Publishing Inc The twenty-fifth anniversary edition of this underground classic explores higher consciousness, human

evolution, metaphysics, sacred geometry, the secret government, and more Nothing in This Book Is True, But It's Exactly How Things Are details from a big-picture perspective the enormous infusion of higher dimensional energy that is dramatically raising the vibratory rate of the planet and everyone on it. Bob Frissell has

greatly expanded upon the previous edition by including ten completely new chapters. Frissell also gives the details of the personal transformation that we must make if we are to survive and thrive, so we can "catch the ride" into higher consciousness in a way that enables Mother Earth to reach critical mass and become "lit from within." This is the story

---

of nothing less than the birth of a new humanity and the cocreation of Heaven on Earth.

**The Lost Continent: Help Solve the Mystery!**

**Cayce's Predictions Explained**

Simon and Schuster

Sixty thousand years ago, Earth had two more continents than it does today, each larger than what we now know as Australia. Why are they no longer there?

One of these additional continents, Atlantis, was located in the Atlantic Ocean between North America and Africa. The other, Lemuria, was located in the Pacific Ocean. In this book, you'll learn all about these huge continents and the great civilizations who called them home. What did they look like? What was daily life like for them? What happened to them? Tom asks these intriguing questions and

many more. The answers revealed on the pages within dig into the mysteries surrounding the continents of Atlantis and Lemuria and their eventual destructions.

The Gentle Way

INDONESIA  
HYDRO MEDIA

An in-depth investigation of the mounting evidence that Atlantis was located in the Bahamas and Caribbean, near Cuba in particular •

Explains how Atlantis was destroyed by a comet, the same

---

comet that formed the mysterious Carolina Bays • Reveals evidence of complex urban ruins off the coasts of Cuba and the Bahamas • Shows how pre-Columbian mariners visited the Caribbean and brought back stories of Atlantis ' s destruction • Compares Plato ' s account with ancient legends from the indigenous people of North and South America, such as the Maya, the Quich é , and the Yuchi of Oklahoma The

legend of Atlantis is one of the most intriguing mysteries of all time. Disproving many well-known Atlantis theories and providing a new hypothesis, the evidence for which continues to build, Andrew Collins shows that what Plato recounts is the memory of a major cataclysm at the end of the last Ice Age 13,000 years ago, when a comet devastated the island of Cuba and submerged part of the Bahaman landmass in the

Caribbean. He parallels Plato ' s account with corroborating ancient myths and legends from the indigenous people of North and South America, such as the Maya of Mesoamerica, the Quich é of Peru, the Yuchi of Oklahoma, the islanders of the Antilles, and the native peoples of Brazil. The author explains how the comet that destroyed Atlantis in the Caribbean was the same comet that formed the mysterious and numerous elliptical

---

depressions, known as the Carolina Bays, found across the mid-Atlantic United States. He reveals evidence of sunken ruins off the coasts of both Cuba and the Bahamas, ancient complexes spanning more than 10 acres that clearly suggest urban development and meticulously planned road systems. Revealing the identity of Plato's "opposite continent" as ancient America, Collins argues that Plato's

story was first carried back to the Mediterranean world by trans-Atlantic mariners, such as the Phoenicians and Carthaginians, as early as the first millennium BC. He offers additional ancient trans-Atlantic trade evidence from Egyptian mummies, Roman shipwrecks in the Western Atlantic, and the African features of giant stone heads in Mexico. Piecing together the final days of Atlantis and the wildfires,

earthquakes, tsunamis, days of darkness, and advancement of ice sheets that followed the ancient comet's impact, Collins establishes not only that Atlantis did indeed exist but also that remnants of it survive today, most obviously in Cuba, Atlantis's original central island.

Thousands of books have already been written on Atlantis since

---

its reality was first disclosed by the great philosopher Plato, some two and a half millennia ago. Hence, one may well wonder whether a new book on the subject is really needed. Can anything new actually be said about Atlantis? The answer is a most categorical yes. After all, the riddle of Atlantis has never been satisfactorily solved so far. The present

book is an attempt by a reputed scientist, to scientifically compare and refute ? perhaps for the first time ever ? the various existing theories on Atlantis? location and reality. The author also expounds his own theory which definitively locates Atlantis in Indonesia. In his research, Prof. Santos marries the most recent results and techniques of

Modern Science to the sacred and folk lore of all the peoples of the world, knitting humanity together in a solution to the riddle of Atlantis that neatly ties together the vast scientific and traditional evidence which was always there but never before seen by other researchers. The reader, whether a scientist with an open mind or a lay person, is led to conclude that Plato could well

---

have been telling the truth, after all, since the information provided by the great philosopher is so uncannily confirmed by the recent scientific finds of all sorts. Atlantis Simon and Schuster That was the previous advanced Indonesian archipelago which had abundant wealth and wealth, defend this land from anyone who wanted to plunder and rob. The Atlantis Blueprint

Pocket Books Accounts of past lost civilizations, strange aerial phenomena, unexplained encounters, and cryptic codes unquestionably continue to tease our minds with their intrigue. While many of these puzzles, which often are passed down from one generation to another, sound so incredible that they appear to be stories of pure fiction, from time to time,

and more often than we realize, they turn out to be true. UCHRONIA (alternative history) connects with several such controversial topics and provides facts and clues that could explain some of the most contentious mysteries of our time, including Plato ' s Atlantis. Is the Human Genome a real miracle or genetics? What is the meaning behind the Nazca

access to a FAQ section, articles, awards and reviews, and site statistics. Meet Me in Atlantis Ozark Mountain Publishing Never before has there been a real discovery where all the physical characteristics of a proposed location matched Plato ' s description of Atlantis. Not even the original Santorini hypothesis could

sufficiently meet the given criteria. After years of extensive research, in conjunction with new archeological evidence, and with the aid of satellite technology, Christos A. Djonis credibly reveals that Plato based his story of Atlantis on a real prehistoric setting, now beneath 400 feet of water. We now have a real discovery where all the physical characteristics,

along with Plato ' s given chronology, flawlessly match, and they are precisely in the exact order as Plato depicted. Moreover, DNA and archaeological evidence of an advanced Neolithic civilization occupying the prehistoric submerged island, at around 9600 BC, further confirm a perfect case scenario. " Finally, a study that gives a logical

---

and well-supported documentation for the existence of Plato's Atlantis! I was totally enthralled with this exciting piece of history... " C.A Schultz, Schultz Studios The Lost Continent The Story of Atlantis Illustrated Penguin Atlantis was first introduced by the Greek philosopher Plato in two "dialogues" he wrote in the fourth century

B.C. His tale of a great empire that sank beneath the waves -- a tale that Plato never even finished -- has sparked thousands of years of debate over whether Atlantis really existed. But did Plato mean his tale as history, or just as a parable to help illustrate his philosophy? In "The Atlantis Dialogue," you'll find everything Plato said about Atlantis, in the context he intended. Now

you can read and judge for yourself! ///////////////

SAMPLE CRITIAS: Consider then, Socrates, if this narrative is suited to the purpose, or

---

whether we should seek for some other instead.

SOCRATES:

And what other, Critias, can we find that will be better than this, which is natural and suitable to the festival of the goddess, and has the very great advantage of being a fact and not a fiction?

How or where shall we find another if we abandon this?

We cannot, and therefore you must tell the tale, and good

luck to you; and on the one side, I in return for my yesterday's discourse will

now rest and be a listener.

CRITIAS: Let me begin by observing first of all, that nine thousand was the sum of years which had elapsed since the war which was said to have taken place between those who

dwelt outside the pillars of Heracles and all who dwelt within them; this war I am going to describe. Of the combatants

the city of Athens was

reported to have been the leader and to have fought out the war; the combatants on the other side were

commanded by the kings of Atlantis, which, as I was

saying, was an island greater in extent than Libya and Asia,

and when afterwards sunk by an earthquake, became an impassable barrier of mud

to voyagers sailing from

---

hence to any part of the ocean. The progress of the history will unfold the various nations of barbarians and families of Hellenes which then existed, as they successively appear on the scene; but I must describe first of all Athenians of that day, and their enemies who fought with them, and then the respective powers and governments of the two kingdoms.

Collins  
The Lost Continent: The Story of Atlantis is a fantasy novel by C. J. Cutcliffe Hyne. It is considered one of the classic fictional retellings of the story of the drowning of Atlantis, combining elements of the myth told by Plato with the earlier Greek myth concerning the survival of a universal flood and restoration of the human race by Deucalion. Atlantis Simon and Schuster Lost Knowledge: The Concept of Vanished Technologies and Other

---

most enduring mysteries back to the lost civilization of Atlantis.... The Great Pyramid. Stonehenge. Machu Picchu. For centuries, these and other sacred sites have inspired wonder among those who ponder their origins. Conventional science tells us they were constructed by local peoples working with the primitive tools of a fledgling civilization. But these megaliths nonetheless continue to attract pilgrims, scholars, and

adventurers drawn by the possibility that their true spiritual and technological secrets remain hidden. Who could have built these elaborate monuments? How did they do it? And what were their incomprehensible efforts and sacrifices designed to accomplish? Now comes a revolutionary theory that connects these mysteries to reveal a hidden global pattern -- the ancient work of an advanced civilization whose warnings

of planetary cataclysm now reverberate across one hundred millennia. International bestselling author Colin Wilson and Canadian researcher Rand Flem-Ath join forces to share startling evidence of a fiercely intelligent society dating back as much as 100,000 years -- one that sailed the oceans of the world, building monuments to preserve and communicate its remarkable wisdom.
