He was also a scholar of history, folklore, languages, and the occult. In this groundbreaking study of Atlantis, he draws on all these disciplines, as well as ancient maps, Plato's dialogues, and folkloric narratives, to provide the most compelling case yet of the disappearance of an entire civilization. Professor Santos demonstrates that Plato's dating of Atlantis's disappearance in 11,600 BP (before present) precisely corresponds to the catastrophic end of the Pleistocene Ice Age, as ...

However, the more he searched, the more he discovered something

incredible: Atlantis actually existed, and was located on the

Indonesia continent before the flood. This flood occurred 11,600

years ago when the last ice age ended, and the immense polar

caps melted, rising the ocean levels by eventually 150 meters (500

feet).

From a perspective of non specialist of Atlantis, I think that

this book goes into details that will make sense of the

geography, historical facts and probability where the lost

continent might be located. I think prfesor Santos always

have in mind the facts that Plato was talking about, which

point him towards the right direction. Very good book.
