Here is a rhetorical treatment of Karl Barth's early theology. Although scholars have long noted the rhetorical power of Barth's work, calling it volcanic and explosive, this book uses rhetoric to illuminate the peculiar nature of his prose. It displays a Barth whose prose is radically unstable and inseparable from his theological arguments. The author connects Barth's early theology to the Expressionism of the Weimar Republic. He develops an original theory of figures of speech, relying on the philosophies of Paul Ricoeur and Hayden White, to delve more deeply into the particular configurations of Barth's writings. Nietzsche's hyperbole and Kierkegaard's irony are examined as rhetorical precedents of Barth's style. The closing chapter surveys Barth's later, realistic theology and then suggests ways in which his earlier tropes, especially the figures of excess and self-negation, can serve to enable theology to speak today.

Several modern interpretations of Paul's letter to the Galatians claim to uncover an underlying attitude of anti-Judaism. Michael Bachmann refutes those claims with his own detailed exegesis and astute examination of comparative material from the religious environment of that day, revealing instead how Paul embraces both Jews and Gentiles. Bachmann holds that, in the determination of meaning, the literary context of Galatians should be considered over historical background. / Nonetheless, he does engage parallels in Qumran material and archaeology as secondary methods to confirm his exegetical arguments. Through his rigorous examination, Bachmann shows that Galatians exhibits evidence of anti-Judaism not in itself, but only in its reception. / Rich in scholarship and sound exegesis, *Anti-Judaism in Galatians?* is an ideal text for scholars and students seeking the whole truth about Paul.
