Products Liability Depositions is a book entirely devoted to the subject of how to go about preparing for and taking depositions that will provide you with the necessary materials for building a successful case. The book contains sample depositions from actual cases that illustrate the many techniques that can be used to develop useful testimony. It also provides practical and time saving suggestions on how to prepare for taking the important depositions in a products liability case. The book also provides a handy source of quick information regarding the legal doctrines

that apply to products liability cases. There is a section briefly describing the substantive law applicable to products cases from each of the 50 states. This section allows quick access to answers such as what affirmative defenses are available to a strict liability claim in a given state. This section alone makes this book a necessary addition to any products liability lawyers office library. Products Liability Depositions Jeffrey Frank Jones
