Officially called the Fighting Falcon by the USAF (a name loathed by pilots and ground crews), the F-16 is popularly referred to as the "Viper". First introduced into service with the USAF in 1978, the F-16 is a successful all-weather multi-role jet fighter of which more than 4,500 have been built and exported to 25 countries worldwide. It remains in service more than 30 years later. The Viper incorporates a number of innovative design features that include a frameless bubble canopy for better visibility, pilot's side-mounted control stick for ease of control when manoeuvring, a seat reclined 30 degrees to reduce the effect of g-forces on the pilot, and the first use of a relaxed static stability/fly-by-wire flight control system that makes the Viper a highly agile aircraft. At the 'business end' the F-16 has an internal M61 Vulcan cannon and eleven weapon-mounting stations.

## Popular Science

Dubbed 'Warthog' - or just 'Hog' - by those who fly and maintain it, the Fairchild Republic A-10 Thunderbolt II is the world's undisputed close air support attack jet. As tough as it is ugly, it has built a fearsome reputation as a tank buster and infantry killer in conflicts around the globe, and its GAU-8 Avenger 30mm cannon strikes fear into the hearts of all unlucky enough to be on the wrong side of it. he A-10 was clutched from the jaws of retirement by the 1991 Gulf War. At the time of the conflict, the United States Air Force was making plans to shed it's A-10 fleet, citing obsolescence and redundancy. As the ensuing conflict showed, nothing could have been further from the truth, and no other airframe could have provided the US and Coalition commanders with the sort of forward air control, close air support, combat search and rescue, and tank busting capabilities that the Hog did. Since then the A-10 has delivered capabilities to battlefield commanders in the Balkans (1990s), Afghanistan (2001 onwards) and the second Gulf War (2003 onwards), and Libya (2011). A-10s have flown around 11 per cent of Operation Inherent Resolve sorties (striking IS targets in Iraq) since combat operations began in August 2014.
