Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with

these old texts, we feel they deserve to be made available for future generations to enjoy.

Excerpt from Audels Engineers and Mechanics Guide 5: A Progressive Illustrated Series With Questions-Answers Calculations, Covering Modern Engineering Practice Where the question and answer form is used the plan has been to give short simple and direct answers limited to one paragraph, thus simplifying the more complex matter. In order to have adequate space for the presentation of the important matter and not to divert the attention of the reader, descriptions of machines have been excluded from the main text, being printed in smaller type under the illustrations.
