St. Martin's Press
From viral Instagram sensation, lifestyle photographer, and mommy blogger Laura Izumikawa comes *Naptime with Joey*, a ridiculously delightful photo book of her now internet-famous daughter dressed up in various pop culture costumes—a perfect gift for new parents everywhere. *Lights, Camera...Nap!* Joey Marie wears many hats (or, rather, wigs): she's dressed up as Inigo Montoya, Britney Spears, Beyoncé, Pikachu, Anna Wintour, Moana, and Barb from *Stranger Things*. She's taken trips to Hawaii, baked croissants, and blasted off to the moon as an astronaut (at least, in her dreams). She's held occupations such as pizza chef, aerobics instructor, and handy-dandy-fixer-upper (figuratively, of course). She's inspired a parenting blog, been the face of her mom Laura Izumikawa's Instagram account—and for the first time,

she's taken the leap from the ranks of internet-baby-snoredom to the pages of a book. *Naptime with Joey* is chockablock full of over a hundred deliciously adorable photos of Joey dressed up as various pop culture characters, movie stars, musicians, vacationers, and holiday-goers, making this the most fun, festive, and downright delightful gift under the sun!

What if working like crazy to beat the competition did exactly the opposite, making you mediocre and more like the competition? In today's world of overabundant consumer choices and superfluous apps, upgrades, add-ons, and features, brands have become nearly identical, as their efforts to outdo one another have pushed them into a dizzying herd of indistinct options. Youngme Moon identifies the outliers, the mavericks, the iconoclasts—the players who have thoughtfully rejected orthodoxy in favor of an approach that is more

adventurous. Some are even “ hostile, ” almost daring you to buy what they are selling. Using her original research on companies such as IKEA and Google, Moon will inspire you to be counterintuitive and meaningfully different—to rethink your business strategy, to stop conforming and start deviating, to stop emulating and start innovating. Because to stand out you must become the exception, not the rule.

Professional service firms differ from other business enterprises in two distinct ways: first they provide highly customised services thus cannot apply many of the management principles developed for product-based industries. Second, professional services are highly personalised, involving the skills of individuals. Such firms must therefore compete not only for

clients but also for talented professionals. Drawing on more than ten years of research and consulting to these unique and creative companies, David Maister explores issues ranging from marketing and business development to multinational strategies, human resources policies to profit improvement, strategic planning to effective leadership. While these issues can be complex, Maister simplifies them by recognising that 'every professional service firm in the world, regardless of size, specific profession, or country of operation, has the same mission statement: outstanding service to clients, satisfying careers for its people and financial success for its owners.'

Does it feel like you work in a "red ocean filled with sharks?" Eat or be eaten. Fierce competition. Continual battling over scarce resources. What if there was another path? What

if you could create your own blue oasis where profits are higher, marketing is as natural as breathing, and competition is nearly nonexistent? This nirvana can be a reality when you practice the principles of Giftology. In this unusual un-marketing resource you'll discover... *Why Giftology isn't an expense...it's an investment that can pay off with huge dividends. *How to practice Giftology on a tight budget... it's easy and very effective. *How Giftology turns existing clients into your best salespeople. *Why (and how) gifts with a relatively low value can trump something expensive. *When is the best time to send gifts? (The answer may

surprise you.) *How to unleash a "Referral Factory," a small army of influencers vouching for you--no gimmicks, no catches. *Find out how Giftology can transform your supply chain. *The ten worst gifts... definitely avoid these. (This info's available in the expanded bonus resource. Just click the link inside! It's my gift to you.) The average person is hit with at least thirty thousand messages a day, courtesy of that "red ocean filled with sharks." Giftology neutralizes that deadly philosophy and equips you with every tool you need to make your message a priority. Every time. Get your copy today! Micro-bionic Taylor & Francis Children are already

learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8

explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child

development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue

to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children. *Managing The Professional Service Firm* OUP Oxford A practical guide for achieving equitable outcomes *From Equity Talk to Equity Walk* offers practical guidance on the design and application of campus change strategies for achieving equitable outcomes. Drawing from campus-based research projects sponsored by the Association of American Colleges and Universities and the Center for Urban Education at the University of Southern California, this invaluable resource provides real-world steps

that reinforce primary elements for examining equity in student achievement, while challenging educators to specifically focus on racial equity as a critical lens for institutional and systemic change. Colleges and universities have placed greater emphasis on education equity in recent years. Acknowledging the changing realities and increasing demands placed on contemporary postsecondary education, this book meets educators where they are and offers an effective design framework for what it means to move beyond equity being a buzzword in higher education. Central concepts and key points are illustrated through campus examples. This indispensable guide presents academic administrators and staff with advice on building an equity-minded campus culture, aligning strategic

priorities and institutional missions to advance equity, understanding equity-minded data analysis, developing campus strategies for making excellence inclusive, and moving from a first-generation equity educator to an equity-minded practitioner. From Equity Talk to Equity Walk: A Guide for Campus-Based Leadership and Practice is a vital wealth of information for college and university presidents and provosts, academic and student affairs professionals, faculty, and practitioners who seek to dismantle institutional barriers that stand in the way of achieving equity, specifically racial equity to achieve equitable outcomes in higher education. The book that Inc. says "every entrepreneur should read" and an FT Book of the Month selection... How did the movie The Shawshank Redemption fail at the box office but go on to gross more than \$100 million as a cult classic? How did The 48 Laws of Power miss the bestseller lists for more than a decade and still sell more than a million copies? How is Iron Maiden still filling

stadiums worldwide without radio or TV exposure forty years after the band was founded? Bestselling author and marketer Ryan Holiday calls such works and artists perennial sellers. How do they endure and thrive while most books, movies, songs, video games, and pieces of art disappear quickly after initial success? How can we create and market creative works that achieve longevity? Holiday explores this mystery by drawing on his extensive experience working with businesses and creators such as Google, American Apparel, and the author John Grisham, as well as his interviews with the minds behind some of the greatest perennial sellers of our time. His

fascinating examples include:

- Rick Rubin, producer for Adele, Jay-Z, and the Red Hot Chili Peppers, who teaches his artists to push past short-term thinking and root their work in long-term inspiration.
- Tim Ferriss, whose books have sold millions of copies, in part because he rigorously tests every element of his work to see what generates the strongest response.
- Seinfeld, which managed to capture both the essence of the nineties and timeless themes to become a modern classic.
- Harper Lee, who transformed a muddled manuscript into *To Kill a Mockingbird* with the help of the right editor and feedback.
- Winston Churchill, Stefan Zweig, and Lady Gaga, who each learned the essential

tenets of building a platform of loyal, dedicated supporters. Holiday reveals that the key to success for many perennial sellers is that their creators don't distinguish between the making and the marketing. The product's purpose and audience are in the creator's mind from day one. By thinking holistically about the relationship between their audience and their work, creators of all kinds improve the chances that their offerings will stand the test of time.

Cass has stumbled on something that might be an entirely different type of physics, and she's travelled three hundred and fifty light-years to Mimosa Station, a remote experimental facility, to test her theory. The novo-vacuum she creates is predicted to begin decaying the instant it's created, but even so short-lived a microscopic speck could shed new light on the origins of the universe. But instead of decaying, Cass's

novo-vacuum is wildly successful and begins expanding, slowly but inexorably taking over the universe ...

SCHILD'S LADDER: a wild ride through the far future by one of the world's most respected and acclaimed writers. Basic Tactics for Listening One World

A guilty liberal finally snaps, swears off plastic, goes organic, becomes a bicycle nut, turns off his power, and generally becomes a tree-hugging lunatic who tries to save the polar bears and the rest of the planet from environmental catastrophe while dragging his baby daughter and Prada-wearing, Four Seasons – loving wife along for the ride. And that's just the beginning. Bill McKibben meets Bill Bryson in this seriously engaging look at one man's

decision to put his money where his mouth is and go off the grid for one year—while still living in New York City—to see if it's possible to make no net impact on the environment. In other words, no trash, no toxins in the water, no elevators, no subway, no products in packaging, no air-conditioning, no television . . . What would it be like to try to live a no-impact lifestyle? Is it possible? Could it catch on? Is living this way more satisfying or less satisfying? Harder or easier? Is it worthwhile or senseless? Are we all doomed or can our culture reduce the barriers to sustainable living so it becomes as easy as falling off a log? These are the questions at the heart of this whole mad endeavor, via which Colin Beavan hopes to explain to the rest of us how we can realistically live a more "eco-effective" and by

Americans have built an empire on the idea of " race, " a falsehood that damages us all but falls most heavily on the bodies of black women and

men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates' s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children' s lives were taken as American plunder. Beautifully woven from personal narrative,

reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

From politics and religion to workplace negotiations, ace the high-stakes conversations in your life with this indispensable guide from a persuasion expert. In our current political climate, it seems

impossible to have a reasonable conversation with anyone who has a different opinion. Whether you're online, in a classroom, an office, a town hall—or just hoping to get through a family dinner with a stubborn relative—dialogue shuts down when perspectives clash. Heated debates often lead to insults and shaming, blocking any possibility of productive discourse. Everyone seems to be on a hair trigger. In *How to Have Impossible Conversations*, Peter Boghossian and James Lindsay guide you through the straightforward, practical, conversational techniques necessary for every successful conversation—whether the issue is climate change, religious faith, gender identity, race, poverty, immigration, or gun control. Boghossian and Lindsay teach the subtle art of instilling doubts and

opening minds. They cover everything from learning the fundamentals for good conversations to achieving expert-level techniques to deal with hardliners and extremists. This book is the manual everyone needs to foster a climate of civility, connection, and empathy. "This is a self-help book on how to argue effectively, conciliate, and gently persuade. The authors admit to getting it wrong in their own past conversations. One by one, I recognize the same mistakes in me. The world would be a better place if everyone read this book."
