Audiolab 8200CD Audiolab 8000T Power Amp Audiolab 8000P

Speakers Tannoy DC3000 Biwired with Linn LK20 6 metre run. The 8000C has performed admirably in my system for 25 years, I can't think of another pre amp with such flexibility and transparency at anything close to its selling price in its day.

Audiolab Preamp 8000C (1988) - Service Manual Free Download
Lo folks, I'm interested in getting an Audiolab pre/power

combination and was looking at buying a 2nd hand 8000A integrated (60w) and then in the hopefully not too distant future upgrading with a 8000P power amp (100w), using the pre-amp section of the 8000A (and possibly playing with bi-amping using both available power amp's).

The Audiolab 8000A integrated amplifier is an old friend. I have listened to this amplifier for the better part of fifteen years. To me, it feels like coming home. It is a full functioning, integrated amplifier (including a MC and MM phono stage). Well-built chassis-terrible sheet metal.

Audiolab 8000c Manual

I had bought the 2nd hand

Audiolab 8000A at RM 1200 (~USD 340) in Malaysia about 2 months ago. The version I bought is without the video input connector (s/n 891042, should be product ~1995?) (there is a newer version with video input, s/n have a " b " in the middle).

The 8000P with the 8000C or the 8000A as a preamp. is a good match. Good sound. No negative critics. I cannot see how a \$10 000 amp and preamp. can sound better. Hi all, over this week I ' ve been trying the preamps and low and behold, I ' ve decided to keep the Audiolab 8000C. Seems to feed the Kapers with a very balanced and smooth signal. The NAD is good as well but just a tad bright in my system. The Rotel has been left somewhere around the last bend. It ' s completely out of the running.

Audiolab 8000C vs 8000A pre-amp = same? | AVForums

Seandtaylor is correct, had an Audiolab 8000c from new for over 10 years, sold it to a friend 4 years ago, still going strong. Its pretty neutral has a good phono stage and performs way above its price range. If it is at a reasonable price buy it. Here in the UK Audiolab amps hold their prices well and are much sought after.
