Those aren't stars, darling That's your nervous system Nanna didn't take you to planetariums like this --from "Hyper-Berceuse: 3 A.M." August Kleinzahler's new poems stretch and go places he has never gone before: they have his signature high color and rhythmic jump, but they take on a breadth of voice and achieve registers that his earlier work only hinted at. Ranging from Vegas and Mayfair to the Asian steppes and contemporary Berlin, these poems touch down at will in tableaux where Liberace unceremoniously meets with St. Kevin and Attila with Zsa Zsa Gabor. Surprise after surprise, nothing seems to lie outside Kleinzahler's purview. This is the strongest collection to date from a poet with "the vision and confident skill to make American poetry new" (Clive Wilmer, *The Times* [London]).

THE DEFINITIVE ANTENNA REFERENCE--FULLY REVISED AND EXPANDED! Design and build your own antennas with the help of this unique guide. Updated and revised to provide clear answers to questions frequently asked by hobbyists and electronics technicians, *Practical Antenna Handbook, Fifth Edition* blends theoretical concepts with hands-on experience--requiring only high school mathematics Reorganized to flow logically from broad physical principles to specific antenna design and construction techniques, the book begins by covering the fundamentals. Then the half-wave dipole is discussed both as an excellent antenna in its own right and as a conceptual tool for predicting the performance of other designs. Transmission line impedance matching techniques--and a companion Smith chart tutorial--lead into "must have" accessories for tuning, monitoring, and troubleshooting antenna system performance. Other tools, such as antenna modeling software and network analyzer add-ons for PCs and Macs, are addressed, and concluding chapters offer fresh insights into support structures and installation techniques. Poetry. "Matthew Lippman's poems
know how to love as only a heart
knows how to love. Swelling with
rage, candor, humor, and empathy,
his lyrics embrace vulnerability and
grit that navigate the mire that the
world lays before us each day.
Their music makes singular
reconciliations where anxiety and
angst are lent a tough and tender
grace."—Michael Morse "Reading a
Matthew Lippman poem is like
encountering an unstoppable
force—or forces. One moment you're
walking down Broadway next to an
old friend who's talking a mile a
minute—he's on a tear, he's manic
but eminently likable, and his
monologue is heating up to the point
of combustion. Another moment

you're listening to a voiceover
spoken by a hardboiled and vaguely
hypnagogic private eye. And yet
another moment you're at the
Tamarack Lodge in a Catskills of
long ago listening to a crazed
Borscht Belt comedian. And finally
you're listening to a mystic intoning
prophecies from deep in the reaches
of a dream. I love poetry that takes
me through such a range of voices,
guises, poses, intensities, and
diapasons, yet also manages to
make me feel that I am in the
presence of a truly human and truly
real and singular personality. These
poems were written by a man who
takes much pleasure in moving
through this mysterious world in
language and in a body. He wants to
share this pleasure with us—and that
is generous, and as good a reason
for writing poems as any I can think
of."—Geoffrey Nutter "Matthew's
poems wake us up with brutal
honesty and humor. If you think
poetry has lost touch with everyday
life, this book will restore your faith
and welcome you back."—Rob

"The more you transform your life
from the material to the spiritual
domain, the less you become afraid of
death." Leo Tolstoy spoke these
words, and they became Henry
Stuart's *raison d'être*. The Poet of
Tolstoy Park is the unforgettable
novel based on the true story of Henry
Stuart's life, which was reclaimed
from his doctor's belief that he would
not live another year. Henry responds
to the news by slogging home barefoot

in the rain. It ' s 1925. The place: Canyon County, Idaho. Henry is sixty-seven, a retired professor and a widower who has been told a warmer climate would make the end more tolerable. San Diego would be a good choice. Instead, Henry chose Fairhope, Alabama, a town with utopian ideals and a haven for strong-minded individualists. Upton Sinclair, Sherwood Anderson, and Clarence Darrow were among its inhabitants. Henry bought his own ten acres of piney woods outside Fairhope. Before dying, underscored by the writings of his beloved Tolstoy, Henry could begin to " perfect the soul awarded him " and rest in the faith that he, and all people, would succeed, " even if it took eons. " Human existence, Henry believed, continues in a perfect circle unmarred by flaws of personality, irrespective of blood and possessions and rank, and separate from organized religion. In Alabama, until his final breath, he would chase these high ideas. But first, Henry had to answer up for leaving Idaho. Henry ' s dearest friend and intellectual sparring partner, Pastor Will Webb, and Henry ' s two adult sons, Thomas and Harvey, were baffled and angry that he would abandon them and move to the Deep South, living in a barn there while he built a round house of handmade concrete blocks. His new neighbors were perplexed by his eccentric behavior as well. On the coldest day of winter he was barefoot, a philosopher and poet with ideas and words to share with anyone who would listen. And, mysteriously, his " last few months " became years. He had gone looking for a place to learn lessons in dying, and, studiously advanced to claim a vigorous new life. The Poet of Tolstoy

Park is a moving and irresistible story, a guidebook of the mind and spirit that lays hold of the heart. Henry Stuart points the way through life ' s puzzles for all of us, becoming in this timeless tale a character of such dimension that he seems more alive now than ever.

The Wiebo Ludwig affair brought to the forefront the often explosive relationship between the oil and gas industry and the ranchers and farmers who live under the shadow of its rigs. But behind the headlines, an unreported sea-change is taking place in the long history of these very different players. Canada's petroleum industry is in the middle of a massive paradigm shift. The old focus of drill fast, pump profits, leave quick is long gone. New executives and directors are bringing a mentality of corporate and social responsibility to the industry that pays attention to a triple bottom line: environmental, social, and economic. A Patch of Green examines the forces that have come to bear to bring about this change. From the viewpoints of environmentalists, landowners, drill workers and corporate executives, veteran journalist Sydney Sharpe reveals an industry wrestling with the excesses of its past and learning to profit from a new economic future.

Over half a million Jews entered the U.S. Armed Forces during the Second World War. They joined every branch of the military and saw action on all fronts. Author Moore describes the struggles these GI Jews faced, having to battle not only the enemy but also the prejudices of their fellow soldiers. Through memoirs, oral histories, and letters, Moore charts the lives of fifteen young Jewish men as they faced military service and tried to make sense of its demands. From

confronting pork chops to enduring front-line combat, from the temporary solace of Jewish worship to harrowing encounters with death camp survivors, we come to understand how these soldiers wrestled with what it meant to be an American and a Jew. These men challenged perceptions of Jews as simply victims of the war, and encouraged Jews throughout the diaspora to fight for what was right.--From publisher description.
