Ones role models in life are often found in the unexpected. The person who is our confidant and hero, or role model, may well be a teacher, parent, sibling, or friend who is appreciated too late. For me, my role model was my brother, Andy, who died too soon, at the age of twentyone. Unexpected? Yes. Andys story and my own as it unfolds will tell the tale of two brothers who were each others best friend. We had a childhood filled with love, joy, laughter,

and sadness. Unfortunately for me, I was so busy being my brothers keeper that I never realized the phenomenal human being my brother, Andy, had become. It took Andys death for me to realize the role model I had lost. Death stole my chance ever to say thank you while Andy was alive. This memoir shares the emotions of a brothers love. Each of my lifes accomplishments has in some way been shaped by my brothers life and the way he lived it. Born with a cloud over his head, Andy

---

struggled to learn and to fit in. Born with a rainbow in his heart, Andy would love and be loved in a way that I finally came to understand too late. This memoir is my gift of gratitude to my hero and role model. May it inspire those who read it to express their appreciation to those people who have made them into who they are today. In my case, it is my brother, who I loved more than I ever knew. *A Brothers Love* is Andy's story and mine; it is a love story for all ages. Author's note: Please visit

enthusiast. The mechanical aspects and the restoration of the vehicle have been written about in numerous publications but the so often maligned electrical systems has never before been comprehensively covered. For those new to vehicle electrical systems the book provides a simple primer using mechanical analogies. Each system in the car has its own chapter, with simple and uncluttered circuit diagrams in which each

wire can be seen in its real colours. More than a how-to-do guide, the book also explains the “why” of each system and procedure, aiding diagnostics when things don’t go quite as they should. The many fault finding guides help pin those elusive problems down. For those wishing to improve the car for reliability and safety.

Everyone likes to think they started the notebook. Sophie claims she stole the idea from two girls in her math class. Courtney still has a death grip on the theory that the notebook was her invention. Lindsey doesn't really care; she's just along for the ride. And

---

Julia never knows what's going on anyway. What we do know is that we started the notebook in freshman year at Stuyvesant High School as a way to keep in contact when our conflicting schedules denied us one another's company. It allowed us to express ourselves and our views of the world in a tone of complete sarcasm, obscenity, and blind honesty. We've spent a significant portion of our adolescence trying to figure out who we are. The

notebook is the closest we've come. We're just a group of normal girls with normal lives. Our notebook is meant to make you laugh and make you remember.
