Based on over 45 years of research, BioGeometry Signatures are linear diagrams that help balance the subtle energy of body organs. The organ subtle energy patterns are accessed through BioGeometry Signatures placed externally in the body's energy fields to create a connection through Resonance of Shape. "This is a book that will change the way you think about your body and your health. It shows that we are not separate from the shapes, angles and proportions that surround us all the time, and that these shapes create energetic patterns that can introduce equilibrium and harmony into our own biological makeup. This is a modern science of energy balancing that provides the key to the hidden ancient knowledge of great civilizations. With BioGeometry, Dr. Ibrahim Karim has demonstrated how powerful simple shapes can be in altering the functioning of our physical, mental, and spiritual worlds. This has been frequently demonstrated in architectural and design projects, environmental balancing solutions including the mitigation of the effects of electro-pollution and geopathic stress, in health and wellness projects, and in the efforts of individuals in their personal spiritual development. In this book on BioGeometry Signatures, once again you see how powerful certain carefully created shapes can be in altering the physical functioning of organ systems, in supporting healing, and in changing physical and mental states. Work with them, let them touch you, and feel how they can assist you in your own search for harmony." Michael J. Maley, Ph.D. Instructor in BioGeometry

Calliope is a literary novel. In its simplest form, it is the story of a man longing to become the young, idealistic person he once was when the world seemed completely open to promise. It is the desire to re-experience life with all the naiveté and hope of romantic youth. In its allegorical form, the story explores such themes as purpose, morality, social convention, materialism and happiness. When the protagonist meets an orange-haired girl, his life is forever altered. Her name is Calliope, and what occurs throughout the rest of the novel is a wild, episodic fugue. The flight becomes a frenetic interlacing through wilderness and civilization, this being an allusion to Jean-Jacques Rousseau's Discourse on Inequality. The wilderness comes to represent a path back to the primal self, while civilization is more dubious representing both the potential for corruption, as well as the great heights of artistic and rational endeavors. Yet while on the journey, the protagonist is forced to look at life anew in part due to the somewhat unscrupulous efforts of Calliope. Morality is examined through the eyes of Calliope, who is by all intensive purposes Greek, which means pre-Christian. Her moral code is not affected by the guilt of Christianity. Her nakedness throughout the novel in part symbolizes a complete lack of shame. As for her beliefs, an understanding of Friedrich Nietzsche's perspectivism best represents her values. This allows the protagonist an opportunity to erase everything that he has learned. All custom, all forms of etiquette, religious belief, habit and convention must be forgotten in order to re-experience the world with the sense of wonderment he so eagerly longs for. With no ties to the world, he embarks upon an epic voyage of silliness and profound examination. Lured along by this electric, orange-haired muse, he becomes convinced that she is either bent upon his supreme salvation or utter damnation. What is so amazing about the entire journey is where they both end

up—a location which seems to be the last place the protagonist was in complete control of his destiny. Therefore, a true chance to begin again is perhaps realized.

"A Season on the Allegheny" is a rollicking account of a year spent hunting on the Allegheny National Forest. Author Robert Hilliard tracks down more than deer, turkey, and grouse - he captures the Forest's magnificent past and finds the people who are still making history on the Allegheny today. He also pursues the many controversies that swirl around Pennsylvania's only National Forest, including anti-logging protests, Wilderness designations, and ecoterrorism. "A Season on the Allegheny" also uncovers the quiet but powerful impact of hunter-based conservation groups on National Forests. It documents the many ways - from habitat improvements to legal aid - in which groups such as the Ruffed Grouse Society, National Wild Turkey Federation, and Pheasants Forever have spent countless hours and dollars making the

Allegheny National Forest a better place.

Have you ever wondered how you're going to survive this next week, day, or hour? Perhaps you are standing on the fault line in the battle of your life. Perhaps you are already engaged. Whatever the case, whether your struggle is physical, spiritual, emotional, or mental, in the accumulated losses and taxing stressors you face, know you are not alone. There is hope, and a way through. In Breathe, Shawna shares her story of marriage; an arranged marriage of sorts, that was rooted in ambiguous faith, submerged in mental and emotional captivity, and survived with glimpses of hope, learned coping strategies, and tremendous support found through vulnerability. Breathe speaks to the caregiver of someone who has attempted suicide, the individual struggling to survive mental illness, and the supportive friend or family member who wants to understand the all-to-often hidden life of a family raped by these realities. Some moments make you lose your breath. In others, all you can do is breathe. Shawna's desire is that by sharing her story others will feel empowered to do the same. Breathe is an inside look into her life. It is also a map for hope, and a legend to help you find your way.

How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic.
