The name of NZ's highest

peak has been gazetted by the New Zealand Geographic Board as Aoraki/Mt Cook. The Board often designates alternate English and Maori names that can be used interchangeably and are considered equally correct, such as "Mt Taranaki or Mt Egmont", but Aoraki/Mt Cook is unusual in that it has been designated one single, joint, name; these are not alternates.

Oceania: Countries and Territories - Map Quiz Game: What the Oceania region lacks in population, it more than makes up for in territory. It may not look like it from the map, but a flight from one end of the region to the other takes over 20 hours! Of course, most of that territory is under water. Many of the islands have very small populations.
