Citizenship in Hard Times Cambridge Scholars Publishing  
This book brings together scholars from various disciplines to explore current issues and trends in the rethinking of migration and citizenship from the perspective of three major immigrant democracies – Australia, Canada, and the United States. These countries share a history of pronounced immigration and emigration, extensive experience with diasporic and mobile communities, and with integrating culturally diverse populations. They also share an approach to automatic citizenship based on the principle of jus soli (as opposed to the traditionally common jus sanguinis of continental Europe), and a comparatively open attitude towards naturalization. Some of these characteristics are now under pressure due to the "restrictive turn" in citizenship

---

and migration worldwide. This volume explores the significance of political structures, political agents and political culture in shaping processes of inclusion and exclusion in these diverse societies. This book was originally published as a special issue of *Citizenship Studies*.

Biteback Publishing

*Evaluating Language Assessments* offers a comprehensive overview of the theoretical bases and research methodologies for the evaluation of language assessments and demonstrates the importance of a fuller understanding of this widely used evaluative tool. The volume explores language assessment evaluation in its wider political, economic, social, legal, and ethical contexts while also illustrating quantitative and qualitative methods through discussions of key research studies.

Suitable for students in applied linguistics, second language acquisition and language assessment and education, this book makes the case for a clear and rigorous understanding of the theoretical and methodological underpinnings of language assessment evaluation in order to achieve fair assessments and just institutions.

**Uniformity and Diversity in Language Policy** John Wiley & Sons

This volume of essays represents the first systematic attempt to explore the use of the past in the making of citizenship and immigration policy in Australia and New Zealand. Focussing on immigration and citizenship policy in Australia and New Zealand, the contributions to this volume explore how history and memory are implicated in policy making and political debate, and what processes of remembering and forgetting are utilised by political leaders

when formulating and defending policy decisions. They remind us that a nuanced understanding of the past is fundamental to managing the politics and practicalities of immigration and citizenship in the early 21st century.

Based on extensive ethnographic fieldwork in Brisbane, Australia, *Belonging and Becoming in a Multicultural World* provides a critical analysis of the shortcomings and underpinning contradictions of modern multicultural inclusion. It demonstrates how creating a sense of identity among young Sudanese and Karen refugees is a continual process shaped by powerful social forces.

Bloomsbury Publishing

*Law and Democracy: Contemporary Questions* provides a fresh understanding of law's regulation of Australian democracy. The book enriches public law

---

scholarship, deepening and challenging the current conceptions of law's regulation of popular participation and legal representation. The book raises and addresses a number of contemporary questions about legal institutions, principles and practices: How should the meaning of 'the people' in the Australian Constitution be defined by the High Court of Australia? How do developing judicial conceptions of democracy define citizenship? What is the legal right to participate in the political community? Should political advisors to Ministers be subject to legal accountability mechanisms? What challenges do applied law schemes pose to notions of responsible government and how can they be best addressed? How can the study of the ritual of electoral politics in Australia and other common law countries supplement the standard account of democracy? How might the ritual of the pledge of Australian citizenship limit or enhance democratic participation? What is the conflict between legal restrictions of freedom of expression and democracy, and the role of social media? Examining the regulation of democracy, this book scrutinises the assumptions and scope of constitutional democracy and enhances our understanding of the frontiers of accountability and responsible government. In addition, key issues of law, culture and democracy are revealed in their socio-legal context. The book brings together emerging and established scholars and practitioners with expertise in public law. It will be of interest to those studying law, politics, cultural studies and contemporary history.

At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. Multiculturalism as a distinct form of liberal-democratic governance gained widespread acceptance after World War II, but in recent years this consensus has been fractured. Multiculturalism in the British Commonwealth examines cultural diversity across

---

the postwar Commonwealth, situating modern multiculturalism in its national, international, and historical contexts. Bringing together practitioners from across the humanities and social sciences to explore the legal, political, and philosophical issues involved, these essays address common questions: What is postwar multiculturalism? Why did it come about? How have social actors responded to it? In addition to chapters on Australia, Britain, Canada, and New Zealand, this volume also covers India, Malaysia, Nigeria, Singapore, and Trinidad, tracing the historical roots of contemporary dilemmas back to the intertwined legacies of imperialism and liberalism. In so doing it demonstrates that multiculturalism has implications that stretch far beyond its current formulations in public and academic discourse.

**Citizenship Acquisition and National Belonging**  
Cambridge University Press

From Syrian asylum seekers to super-rich foreign investors, immigration is one of the most controversial issues facing Britain today. Politicians kick the subject from one election to the next with energetic but ineffectual promises to 'crack down', while newspaper editors plaster it across front pages. But few know the truth behind the headlines; indeed, the almost daily changes to our complex immigration laws pile up so quickly that even the officials in charge struggle to keep up. In this clear, concise guide, Thom Brooks, one of the UK's leading experts on British citizenship - and a newly initiated British citizen himself - deftly navigates the perennially thorny path, exploding myths and exposing absurdities along the way. Ranging from how to test for 'Britishness' to how to tackle EU 'free movement', *Becoming British* explores how UK immigration really works - and sparks a long-overdue debate about how it should work. Combining expert analysis with a blistering critique of the failings of successive governments, this is the definitive guide to one of the most hotly disputed issues in the UK today. Wherever you stand on the immigration

---

debate, Brooks's wryly observed account is the essential road map.

**Australian Citizenship** ANU Press

Over the past decade, a global convergence in migration policies has emerged, and with it a new, mean-spirited politics of immigration. It is now evident that the idea of a settler society, previously an important landmark in understanding migration, is a thing of the past. What are the consequences of this shift for how we imagine immigration? And for how we regulate it? This book analyzes the dramatic shift away from the settler society paradigm in light of the crisis of asylum, the fear of Islamic fundamentalism, and the demise of multiculturalism. What emerges is a radically original take on the new global politics of immigration that can explain policy paralysis in the face of rising death tolls, failing human rights arguments, and persistent state desires to treat migration as an economic calculus.

Australian History, Geography, Civics and Citizenship John Wiley & Sons

Becoming an African Diaspora in Australia extends debates on identities, cultures and notions of race and racism into new directions as it analyses the forms of interactional identities of African migrants

in Australia. It de-naturalises the commonplace assumptions and imaginations about the cultures and identities of African diaspora communities, and probes the relevance and usefulness of identity markers such as country of origin, nationality, ethnicity, ethnic/heritage language and mother tongue. Current cultural frames of identity representation have so far failed to capture the complexities of everyday lived experiences of transnational individuals and groups. Therefore by drawing on fresh concepts and recent empirical evidence, this book invites the reader to revisit and rethink the vocabularies that we use to look at identity categories such as race, culture, language, ethnicity, nationality, and citizenship, and introduces a new language nesting model of diaspora identity. This book will be of great interest to all students of migration, diaspora, African and Australian studies. *Australian Citizenship Act 2007 (Australia) (2018 Edition)* Springer  
Winner of the SAGE/ILTA Book Award 2016 The Routledge Handbook of Language Testing will provide a comprehensive account of the area of language assessment and testing. Written by

---

leading specialists from around the world, this volume brings together approximately 35 authoritative articles (around 8000 words each). The proposed outline for the Handbook (below) is divided into ten sections. The section titles reflect the contents of their Language Testing and Assessment -textbook in our RAL series and sketch a useful overview of the discipline. Each chapter has been carefully selected to relate to key issues raised in the respective topic, providing additional historical background, critical discussion, reviews of key research methods, and an assessment of what the future might hold.

#### Preparing for the United States

Naturalization Test Rutgers University Press  
CultureShock! Australia is chock-full of information that will help you assimilate effortlessly into life in the land Down Under. "Learn About the United States" is intended to help permanent residents gain a deeper understanding of U.S. history and government as they prepare to become citizens. The product presents 96 short lessons, based on the sample questions from which the civics portion of the naturalization test is drawn. An audio CD that allows students to listen to the questions, answers, and civics lessons read aloud is also included. For immigrants preparing to naturalize, the chance to learn more about the history and government of the United States will make their journey toward citizenship a more meaningful one.

Australian Citizenship Test Practice Questions University of California Press

---

What does it take to become a citizen of a particular nation? Is it justified to restrict membership of a society, and if so, on what grounds? This book explores a series of pressing, controversial issues surrounding the acquisition of citizenship, in theory and practice.

*From Migrant to Citizen: Testing Language, Testing Culture* Exampedia Test Prep

This incisive book provides a succinct overview of the new academic field of citizenship and immigration, as well as presenting a fresh and original argument about changing citizenship in our contemporary human rights era. Instead of being nationally resilient or in "postnational" decline, citizenship in Western states has continued to evolve, converging on a liberal model of inclusive citizenship with diminished rights implications and increasingly universalistic identities. This convergence is demonstrated through a sustained comparison of developments in North America, Western Europe and Australia. Topics covered in the book include: recent trends in nationality laws; what ethnic diversity does to the welfare state; the decline of multiculturalism accompanied by the continuing rise of antidiscrimination policies; and the new state campaigns to "upgrade" citizenship in the

post-2001 period. Sophisticated and informative, and written in a lively and accessible style, this book will appeal to upper-level students and scholars in sociology, political science, and immigration and citizenship studies.

Law and Democracy Routledge

Anti-racist Discourse on Muslims in the Australian Parliament examines anti-racist discourse in contemporary Australian politics, in particular, how politicians contest and challenge racism against a minority group that does not constitute a traditional 'race'. Using critical discourse analysis, this book firstly deconstructs the racist, xenophobic and discriminatory arguments against Muslims. Secondly, it highlights the anti-racist counter-discourse to these arguments. Since blatantly racist statements are less common nowadays, the book focuses on manifestations of 'culturalist racism'. It does this by investigating how talk about Muslims positions them as not Australian or as not belonging to Australia - the book takes such 'discursive exclusion from the nation' as one of the most widespread forms of 'culturalist racism' in Western liberal-democracies. In addition to contributing to the theoretical discussion on the relationship between Muslims, racism and anti-racism, the book expands on methods that apply critical discourse analysis and the discourse-historical approach by providing a practical guide to analysing anti-racist political discourses.
