**Virology Journal | Submission guidelines**

Check the Journal Instructions for Authors for more details. Your references may be in any style, provided that you use the consistent formatting throughout. It is essential to include author(s) name(s), journal or book title, article or chapter title (where required), year of publication, volume and issue (where appropriate) and pagination.

The required information for a journal article is author, abbreviated journal title, year, publication, volume number, and initial page of cited article, though complete pagination is possible. It is necessary to list all authors if the total number of author is six or less and for more than six authors use three authors and then et al (the

term " et al. " should be in italics).
