The 6th Edition of TODAY'S TECHNICIAN:

AUTOMOTIVE ENGINE PERFORMANCE, International Edition is a comprehensive learning package designed to build automotive skills in both classroom and shop settings. Following current NATEF criteria, this two-manual set examines each of the major systems affecting engine performance and drivability—including intake and exhaust, sensors, computerized engine controls, fuel ignition, and emissions. The Classroom Manual addresses system theory, while a coordinating Shop Manual covers tools, procedures, diagnostics, testing, and service.

This edition includes updates to the latest technologies, as well as a collection of electronic teaching supplements that take automotive technician training to new levels.

Publications

The Auto Suspension and Steering Shop Manual contains thorough coverage of the tasks listed in the A1 Engine Repair area of the NATEF Task List. Each job in this manual is a hands-on activity, and most jobs correspond to one or more of the NATEF tasks. The jobs have been carefully organized and developed to increase the chances of passing the related ASE tests by having the reader apply what has been learned in the classroom. This manual steps the student through all of the NATEF tasks in the A1 Engine Repair area, which include inspecting, diagnosing, removing, and rebuilding engines and related subsystems.
